and revenge A manager may devote most of their time to cope with conflicts deviant behaviors ambitious individuals gossips and dysfunctional rivalry among employees It is evident that negative events and interactions among employees cost more time and energy for a manager than the positive side of organizational life Therefore exploring the realities of the dark side of organizations may have the potential to change previous assumptions about business life This book will be of interest to researchers academics practitioners and advanced students in the fields of organizational studies and behavior human resource management employment relations and organizational psychology Hindu-Muslim Relations in British India Private Consciences and Public Reasons Kent Greenawalt, 1995-08-03 Within democratic Thursby, 2018-11-13 societies a deep division exists over the nature of community and the grounds for political life Should the political order be neutral between competing conceptions of the good life or should it be based on some such conception This book addresses one crucial set of problems raised by this division What bases should officials and citizens employ in reaching political decisions and justifying their positions Should they feel free to rely on whatever grounds seem otherwise persuasive to them like religious convictions or should they restrict themselves to public reasons reasons that are shared within the society or arise from the premises of liberal democracy Kent Greenawalt argues that fundamental premises of liberal democracy alone do not provides answers to these questions that much depends on historical and cultural contexts After examining past and current practices and attitudes in the United States he offers concrete suggestions for appropriate principles relevant to American society today This incisive and timely analysis by one of our leading legal philosophers should attract a wide and diverse readership of scholars practitioners and concerned citizens Esoteric Christianity, or The Lesser Mysteries Annie Besant, 2022-05-28 In Esoteric Christianity or The Lesser Mysteries Annie Besant explores the deeper spiritual meanings and hidden truths of Christian doctrine offering a provocative interpretation that bridges Eastern and Western religious thought Drawing from a rich tapestry of philosophies including Theosophy and ancient mysticism Besant employs a discourse that is both enlightening and contemplative urging readers to transcend the superficial tenets of Christianity to grasp its more profound esoteric teachings The book challenges conventional religious paradigms positioning itself within the literary context of early 20th century spiritual revivalism where a quest for deeper truth was prevalent Annie Besant was a prominent Theosophist social reformer and advocate for mental and spiritual awakening Her lifelong journey through various ideologies including atheism social activism and mysticism shaped her views on religion particularly Christianity which she regarded as a foundational yet often misinterpreted spiritual path Besant's intellectual and spiritual pursuits led her to view the esoteric as a vital aspect of personal and collective transformation culminating in the creation of this thought provoking work This book is highly recommended for those seeking to deepen their understanding of Christianity beyond its dogmatic boundaries It provides readers with a unique framework for considering the interplay of spirituality morality and mystery within a familiar faith tradition Whether you are a scholar of religion or a seeker on a spiritual path Besant s insights will provoke
