Nuclear Waste Issues United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Energy and Power,1988 **North from Texas** James Clay Shaw,1996 Western historian Herbert O Brayer for publication in 1952 North from Texas describes the fifteen hundred mile odyssey on the Northern Trail Having set out to tell the truth in a simple manner the tale of his journey from South Texas to South Dakota Shaw offers a rare first hand account of the hard conditions of the trail and the many bad men Horse and cattle thieves and worse who inhabited it Also found in these pages are descriptions of the day to day *True Tales of the Prairies and Plains* David Dary,2007 This is a collection of stories set on the prairies and plains of middle America that stretch from Rio Grande northward into Canada The Green Real Deal Bill Herrington,2023-07-18 In The Green Real Deal Bill Herrington presents a compelling case for a balanced approach to America s energy future Drawing from his unique perspective as both a former pipeline worker and a seasoned financial executive with decades of experience in the energy sector Herrington examines how environmental activism foreign influence and political idealism are threatening America s energy security From the historic role of pipelines in World War II to the complex realities of modern renewable energy Herrington peels back layers of misinformation to reveal uncomfortable truths about energy politics He exposes how Russian interference has influenced American environmental debates challenges the practicality of a rapid transition to 100% renewable energy and argues that fossil fuels remain critical to both economic stability and national security With meticulous research and firsthand knowledge Herrington doesn t simply criticize the status quo he offers a pragmatic five point plan for America s energy future that acknowledges climate concerns while prioritizing economic prosperity and national security His Green Real Deal proposes a sensible middle path that includes responsible fossil fuel use forest protection targeted renewable expansion improved coal technology and advanced nuclear development This timely book will challenge assumptions across the political spectrum providing essential context for anyone concerned about America s energy independence and environmental future If you enjoyed The New Map by Daniel Yergin Apocalypse Never by Michael Shellenberger and Inconvenient Facts by Gregory Wrightstone you ll love The Green Real Deal

Advanced Reporting Miles Maguire,2014-07-25 News gathering is a large complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic best learned through trial and error Advanced Reporting takes the opposite approach focusing on reporting as a process of triangulation based on three essential activities analyzing documents making observations and conducting interviews In this readable book veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross check and authenticate facts to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding This book will help to prepare students for a profession marked by increasing complexity and competition To

succeed in this environment journalists must learn to make the most of digital media to intensify the impact of their work At the same time reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism but also collaborate in its creation Discussion questions and exercises help students put theory into practice *Bulletin*, 1940 Go West, Young Man B. J. Ellis, Betsy A. McLane, 2005-08-01 This history of documentary film concentrates mainly on the output of the film industries in the US the UK and Canada The authors outline the origins of the form and trace its development over the next several decades Each chapter concludes with a list of the key documentaries in that time period or genre *Natural Gas Drilling* United States. Chen, U. Mingelgrin, Bruno Yaron, 2012-12-06 In March 1983 a workshop on Pollutants in Porous Media was hosted by the Institute of Soils and Water of the Agricultural Research Organization in Bet Dagan Israel At this workshop the unsaturated zone between the soil surface and groundwater was the focal point of discussions for scientists from various disciplines such as soil chemists physicists biologists and environmental engineers Since then the problem of soil and water pollution has only worsened as more and more cases of pollution caused by human activities including agriculture and industry have been revealed A great deal of work has been carried out by environmental scientists since 1983 in elucidating the behavior of the many classes of pollutants and the complex physical

chemical and biological transformations which they undergo as they move through the soil to the vadose zone and in many cases the groundwater. In light of this it was felt that another meeting of specialists from the many disciplines which deal with this subject was necessary and so a Second International Workshop on the Behavior of Pollutants in Porous Media sponsored by IUPAC the International Union of Pure and Applied Chemistry and IAHS the International Association of Hydrological Sciences was organized and held in the Institute of Soils and Water of the Agricultural Research Organization in Bet Dagan Israel during 1987 June. The present volume is a selection of the talks presented at this second workshop and deals only with toxic organic chemicals in porous media. **Oregon Trail: The Missouri River to the Pacific Ocean**

Federal Writers' Project, 1972. **Hearings** United States. Congress. Senate. Committee on Appropriations, 1939. The Notorious Luke Short Jack DeMattos, Chuck Parsons, 2015-06-15. Often times the smaller the man the harder the punch this adage was true in the case of diminutive Luke Short whose brief span of years played out in the Wild West. His adventures began as a teenage cowboy who followed the trail from Texas to the Kansas railheads. He then served as a scout for the U.S. Army during the Indian wars and finally he perfected his skills as a gambler in locations that included Leadville, Tombstone, Dodge City and Fort Worth. In 1883 in what became known as the Dodge City War he banded together with Wyatt Earp, Bat Masterson and others to protect his ownership interests in the Long Branch Saloon, an event commemorated by the famous Dodge City Peace Commission photograph. The irony is that Luke Short is best remembered for being the winning gunfighter in two of the most celebrated showdowns in Old West history: the shootout with Charlie Storms in Tombstone, Arizona, and the showdown against Jim Courtright in Fort Worth, Texas. He would have hated that. During his lifetime Luke Short became one of the best known sporting men in the United States and one of the wealthiest. He had been a partner in the Long Branch Saloon in Dodge City as well as the White Elephant in Fort Worth. He became friends with other wealthy sporting men such as William H. Harris, Jake Johnson and Bat Masterson who helped broaden his gaming interests to include thoroughbred horse racing and boxing. Before he died he would become a familiar figure in Chicago, Memphis, New Orleans and Saratoga Springs where he raced his string of horses. He traveled with other wealthy sporting men in private railroad cars to attend heavyweight championship fights. Luke Short was always a little man dealing in big games. He married the beautiful Hattie Buck who could turn heads at all the top resorts they visited. As man and wife Jack DeMattos and Chuck Parsons have researched deeply into all records to produce the first serious biography of Luke Short revealing in full the epitome of a sporting man of the Wild West. **North Dakota** Federal Writers' Project of the Works Progress Administration for the State of North Dakota, 1938.
