Gothic Writers Douglass H. Thomson, Jack G. Voller, Frederick S. Frank, 2001-11-30 With its roots in Romanticism antiquarianism and the primacy of the imagination the Gothic genre originated in the 18th century flourished in the 19th and continues to thrive today This reference is designed to accommodate the critical and bibliographical needs of a broad spectrum of users from scholars seeking critical assistance to general readers wanting an introduction to the Gothic its abundant criticism and the present state of Gothic Studies The volume includes alphabetically arranged entries on more than 50 Gothic writers from Horace Walpole to Stephen King Entries for Russian Japanese French and German writers give an international scope to the book while the focus on English and American literature shows the dynamic nature of Gothicism today Each of the entries is devoted to a particular author or group of authors whose works exhibit Gothic elements beginning with a primary bibliography of works by the writer including modern editions This section is followed by a critical essay which examines the author's use of Gothic themes the author's place in the Gothic tradition and the critical reception of the author's works The entries close with selected annotated bibliographies of scholarly studies The volume concludes with a timeline and a bibliography of the most important broad scholarly works on the Gothic **The Art of the Reprint**

Rosalind Parry, 2023-03-30 A genuinely original work The Art of the Reprint establishes the reprint as a vital area of study In tightly curated encounters between extraordinary twentieth century artists and beloved nineteenth century novels Clare Leighton travels to Dorset to minutely observe Thomas Hardy's landscape for a 1929 The Return of the Native 1878 Rockwell Kent channels his many sea journeys into a 1930 Moby Dick 1851 Fritz Eichenberg transposes the churn and isolation of fleeing Nazi Germany onto Expressionistic engravings for Charlotte Brontë's Jane Eyre 1847 and Joan Hassall elucidates a bright social world at miniature scale for a 1975 set of The Complete Novels of Jane Austen 1787 1817 Mediators between text and book and author and reader these artists interpreted these novels and then illustrated their interpretations stunningly and strangely in wood ink and paper for everyday readers **Masking and Unmasking the Female Mind**

Mary Anne Schofield, 1990 This work concentrates on how eighteenth century feminine novelists articulate the concerns important to women's lives and fates and argues that these novelists used their romances to combat the controlling

ideologies of the age **Imagining women readers, 1789-1820** Richard Ritter, 2015-11-01 Imagining women readers reassesses the cultural significance of women's reading in the period 1789 1820 From the turbulent years following the French Revolution to the fiction of Jane Austen this book charts the rise of a self regulating reader who possesses both moral and cultural authority Rather than an unproductive leisure activity for the writers discussed in this study the act of reading is crucial to imagining forms of female participation in national life The book thus offers a unique perspective on the relationship between reading education and the construction of femininity shedding new light on the work of some of the most celebrated women writers of the period It will appeal to students and scholars interested in the history and

representation of reading and in women's writing of this period more generally

Didactic Novels and British Women's Writing, 1790-1820 Hilary Havens, 2016-11-03 Tracing the rise of conduct literature and the didactic novel over the course of the eighteenth century this book explores how British women used the didactic novel genre to engage in political debate during and immediately after the French Revolution and the Napoleonic Wars Although didactic novels were frequently conventional in structure they provided a venue for women to uphold to undermine to interrogate but most importantly to write about acceptable social codes and values The essays discuss the multifaceted ways in which didacticism and women's writing were connected and demonstrate the reforming potential of this feminine and ostensibly constricting genre Focusing on works by novelists from Jane West to Susan Ferrier the collection argues that didactic novels within these decades were particularly feminine that they were among the few acceptable ways by which women could participate in public political debate and that they often blurred political and ideological boundaries The first part addresses both conservative and radical texts of the 1790s to show their shared focus on institutional reform and indebtedness to Mary Wollstonecraft despite their large ideological range In the second part the ideas of Hannah More influence the ways authors after the French revolution often linked the didactic with domestic improvement and national unity The essays demonstrate the means by which the didactic genre works as a corrective not just on a personal and individual level but at the political level through its focus on issues such as inheritance slavery the roles of women and children the limits of the novel and English and Scottish nationalism This book offers a comprehensive and wide ranging picture of how women with various ideological and educational foundations were involved in British political discourse during a time of radical partisanship and social change

Bacchus in Romantic England A. Taylor, 1998-11-11 *Bacchus in Romantic England* describes real drunkenness among writers and ordinary people in the Romantic age It grounds this reality in writings by doctors and philanthropists from 1780 onwards who describe an epidemic of drunkenness These commentators provide a context for the different ways that poets and novelists of the age represent drunkards Wordsworth writes poems and essays evaluating the drunken career of his model Robert Burns Charles Lamb's essays and letters reveal a real and metaphorical preoccupation with his own drinking as a way of disguising his personal suffering his companion Coleridge writes drinking songs essays about drunkenness and meditations about his own weakness of will that show both festive inebriety and consciousness of an inward abyss Coleridge's son Hartley whose fate his father had prophesied experiences drunkenness as the life long humiliation described in his poems and letters Keats's complex dionysianism runs through *Endymion* and the late odes setting him at odds with his temperate hero Milton Men in the Romantic age such as Sheridan Byron Moore and Clare celebrate rowdy friendship with tales and songs of drinking Romantic women novelists such as Smith Edgeworth and Wollstonecraft depict these men stumbling home to abuse their wives Although excessive drinking is real in the period observers and participants can still maintain ambivalence about its power to release or to debase the human being

Women Writing the Nation Leanne

Maunu, 2007 Women Writing the Nation National Identity Female Community and the British French Connection 1770 1820 engages in recent discussions of the development of British nationalism during the eighteenth century and Romantic period Leanne Maunu argues that women writers looked not to their national identity but rather to their gender to make claims about the role of women within the British nation Discussing texts by Frances Burney Charlotte Smith Mary Wollstonecraft and others in the late eighteenth and early nineteenth centuries Maunu demonstrates that women writers of this period imagined themselves as members of a fairly stable community even if such a community was composed of many different women with many different beliefs They appropriated the model of collectivity posed by the nation mimicking a national imagined community **Fragment AM 315e of the older Gulathing law** George Tobias Flom, 1928 **Five Golden**
