extent to which the events attending its early exploration its conquest and its settlement have determined the destiny of our country as a whole So far as is known to the writer no attempt has hitherto been made to relate the story of these events in a connected order free from extraneous details and adapted to the comprehension and tastes of younger readers Park man in his monumental series of historical narratives has told this story in connection with many others having but slight relation to the Old Northwest Justin Winsor in his very scholarly volumes relating to the French regime in America has done the same But the works of these writers are too voluminous for general readers and being designed for mature thinkers they fail to be attractive to the majority of young people just beginning to acquire a taste for historical reading About the Publisher
