Pokorn, 2010-02-25 Whether Translation Studies really matters is an important and challenging question which practitioners of translation and interpreting raise repeatedly TS scholars many of whom are translators and interpreters themselves are not indifferent to it either The twenty papers of this thematic volume contributed by authors from various parts of Europe from Brazil and from Israel address it in a positive spirit Some do so through direct critical reflection and analysis arguing in particular that the engagement of TS with society should be strengthened so that the latter could benefit more from the former Others illustrate the relevance and contribution of TS to society and to other disciplines from various angles Topics broached include the cultural mediation role of translators issues in literary translation knowledge as intellectual capital globalization through English and risks associated with it bridging languages mass media corpora training the use of modern technology interdisciplinarity with psycholinguistics and neurophysiology Tending the Heart of Virtue Vigen Guroian, 2023 From Pinocchio to The Chronicles of Narnia to Charlotte's Web classic children's tales have shaped generations of young people In recent years homeschoolers and new classical schools have put these masterpieces of children's literature at the center of their curricula And these stories continue to be embraced by parents students and educators alike In *Tending the Heart of Virtue* Vigen Guroian illuminates the power of classic tales and their impact on the moral imagination He demonstrates how these stories teach the virtues through vivid depictions of the struggle between good and evil while he also unveils components of the good the true and the beautiful in plot and character With clarity and elegance Guroian reads deeply into the classic stories He demonstrates how these stories challenge and enliven the moral imaginations of children And he shows the reader how to get inside of classic stories and communicate their lessons to the child For more than two decades *Tending the Heart of Virtue* has been embraced by parents guardians and teachers for whom the stories it discusses are not only beloved classics but repositories of moral wisdom This revised

and expanded second edition includes three new chapters in which Guroian interprets such stories as Hans Christian Andersen's *The Ugly Duckling*, the Grimms' *Cinderella* and John Ruskin's *The King of the Golden River*. The concluding bibliographical essay has also been expanded.

Berkowitz, 2026-01-06 Reading the Bible and rabbinic literature to reimagine the bonds between animals Moving beyond debates about the ethics of animal consumption to focus on animals' intimate lives Beth A Berkowitz examines the contribution of religious traditions and sacred texts to contemporary conversations about animals Reading the four animal family laws of the Bible alongside their rabbinic interpretations from ancient times to today she examines the bonds that animals form with each other and reimagines family to include new forms of life and alternative modes of kinship Humanitarian politics and biblical law tend to take for granted that human interests supersede animal interests and that our moral obligation extends only to avoiding unnecessary suffering but necessity is determined by humans What Animals Teach Us About Families looks at animal emotions animal agency family diversity and human response to reconsider the obligations and opportunities the animal family presents
