At the end of the line Georgina Sinclair,2017-03-01 Colonial policing and the imperial endgame is the first comprehensive study of the colonial police and their complex role within Britain's long and turbulent process of decolonisation a time characterised by political upheaval and colonial conflict The Colonial Police Service was created in 1936 in order to standardise all imperial police forces and mould colonial policing to the British model From the British Caribbean to the Middle East the Mediterranean to British Colonial Africa and on to Southeast Asia colonial police forces struggled with the unrest and conflict that stemmed from Britain's withdrawal from its empire As the shadow of decolonisation grew ever longer so colonial police forces reverted back to their traditional role as a colony's first line of defence At the same time as tensions increased throughout the empire so too did the power of the police through the development of police intelligence systems and counter insurgency units Colonial policing and the imperial endgame controversially asserts that it was coercion rather than consent which was more commonly associated with the work of police forces during this period of political dislocation Georgina Sinclair's focussed study of colonial policing during this period facilitates a greater understanding of the processes of decolonisation **Hong Kong '96** ,1995-12-26 **Hong Kong '94** Fodor's,1993-12-28 As 1997 approaches more and more people are travelling to Hong Kong to experience it in its final years as a British crown colony With expanded dining and accommodation sections and new blitz shopping tours this edition offers information on everything from choosing between the natural tastes of Cantonese and the spicy cuisine of Szechuan to finding the best bargains in local markets This is the only major guidebook to Hong Kong that is updated annually
