Sir James Martin John Michael Bennett, 2005 Intelligence ambition and self belief took Martin the son of the Governor's Irish groom to the pinnacles of colonial law and politics He is the only man to have been both Premier and Chief Justice of New South Wales He made his name as a fierce and partisan contributor to the vitriolic political debates of the 1840s A brilliant young lawyer he was in Parliament in 1848 before the age of 30 He stayed there in and out of government until 1873 when he made an honourable exit to the highest judicial office in the colony Knighthood and civil honours followed Self made rich arrogant and married to the wealthy daughter of a former convict Martin attracted enemies so that as Premier he could not always guarantee the passage of his legislation and at times lost his parliamentary seat Through all this he conducted a huge Bar practice and was appointed Chief Justice Remembered as a man springing from the people and educated amongst them he showed every quality which is necessary to a great and good Judge in a career of rare accomplishment The NSW State Set of Lives of Australian Chief Justices which includes Sir Francis Forbes Sir James Dowling Sir Alfred Stephen Sir James Martin and Sir Frederick Darley is available for 210.00 to order the NSW State Set [click here](#) A NSW Sesquicentenary of Responsible Government publication **The Origin of Local Government in New South Wales, 1831-58** Frederick

Arthur Larcombe, 1973 Property Rights and Climate Change Fennie van Straalen, Thomas Hartmann, John Sheehan, 2017-09-14 Property Rights and Climate Change explores the multifarious relationships between different types of climate driven environmental changes and property rights This original contribution to the literature examines such climate changes through the lens of property rights rather than through the lens of land use planning The inherent assumption pursued is that the different types of environmental changes with their particular effects and impact on land use share common issues regarding the relation between the social construction of land via property rights and the dynamics of a changing environment Making these common issues explicit and discussing the different approaches to them is the central objective of this book Through examining a variety of cases from the Arctic to the Australian coast the contributors take a transdisciplinary look at the winners and losers of climate change discuss approaches to dealing with changing environmental conditions and stimulate pathways for further research This book is essential reading for lawyers planners

*The Government of New South Wales* Robert Stewart Parker, 1978      **Handbook of Administrative History** Jos Raadschelders, 2017-07-05 Public administration is commonly assumed to be a young discipline rooted in law and political science with little history of its own Likewise teaching and scholarship in this field is often career oriented and geared either toward the search for immediately usable knowledge or guidelines and prescriptions for the future Although most administrative scientists would acknowledge that their field has a history their time horizon is limited to the recent past Raadschelders demonstrates that public administration has in fact a long standing tradition both in practice and in writing administration has been an issue ever since human beings recognized the need to organize themselves in order to organize the environment in which they lived This history in turn underlines the need for administrators to be aware of the importance and contemporary impact of past decisions and old traditions In seeking to go beyond the usual problem solving and future oriented studies of public administration this volume adds greatly to the cognitive richness of this field of research Indeed the search for theoretical generalizations will profit from an approach that unravels long term trends in the development of administration and government Raadschelders approaches public administration history from a dual perspective as trained historian and professor of public administration The volume is appropriately called a handbook in view of its methodical listing of the literature on administrative history together with summaries of numerous authors principal theories The second chapter is an essay on sources in the field including an extended bibliography These parts of the book alone make it useful to scholars in the field Raadschelders is helpful in other ways as well The third and fourth chapters offer a highly sophisticated discussion of methodological problems encountered in writing administrative history including the issue of perceiving stage
