Congress. House. Committee on Agriculture, 1945      City Bountiful Laura J. Lawson, 2005-05-30 The social history of American cities would not be complete without a full account of the rise of community open spaces Lawson does exactly this by providing a compelling and poetic account of the history and making of urban gardens Combining solid scholarship with engaging images of the gardens and stories of their makers this book sheds new light on the value of urban open space More important it explains why community gardens need to stand alongside city parks as permanent open spaces Essential reading for community developers and landscape architects as well as anyone who ventures outside enthusiasm and shovel in hand to improve their local environment Mark Francis author of *Urban Open Space and Village Homes* The definitive history of the past hundred years of America s experience with community gardens A labor of love by a garden activist the book appears at a most appropriate time today our city dwellers and suburbanites are retreating onto carpets of passive open space tended by homeowner associations and lawn care outfits Lawson thoughtfully analyzes the weaknesses of community gardens when used as a response to social crises and by contrast investigates community gardens as an alternative to today s managed care
