Britain, 1850-1945 June Purvis, 2008 **A Half-Century of Greatness** Frederic Ewen, 2007-09-01 Choice Outstanding Academic Title for 2008 A Half Century of Greatness paints a vivid and dramatic picture of the creative thought of mid to late nineteenth century Europe and the influence of the unsuccessful revolutions of 1848 It reveals often unexpected links between novelists poets and philosophers from England Germany Austria Hungary Russia and Ukraine especially Dickens Carlyle Mill the Brontës and George Eliot Hegel Strauss Feuerbach Marx Engels Wagner and several German poets the Hungarian poet Sándor Petőfi Gogol Dostoevsky Bakunin and Herzen in Russia and the great Ukrainian poet Shevchenko Ewen goes on to trace the transition from Romanticism to Victorianism or what he calls the Victorian compromise the ascendancy of the middle class The book was reconstructed and edited by Dr Jeffrey Wollock from Ewen's final manuscript It includes the author's own reference citations throughout a reconstructed bibliography and an updated further reading list This is Ewen's last work the long lost companion to his Heroic Imagination Together these books present a panorama of the social political and artistic aspects of European Romanticism especially foreshadowing and complementing recent work on the relation of Marxism to romanticism Anyone interested in what Lukács called Romantic anticapitalism who appreciates such books as Marshall Berman's Adventures in Marxism or E. P. Thompson's The Romantics 1997 will find Ewen's work a welcome addition **The Three-Piece Suit and Modern Masculinity** David Kuchta, 2002-05-21 In 1666 King Charles II

felt it necessary to reform Englishmen's dress by introducing a fashion that developed into the three piece suit We learn what

inspired this royal revolution in masculine attire and the reasons for its remarkable longevity in David Kuchta's engaging and handsomely illustrated account. Between 1550 and 1850 Kuchta says English upper and middle class men understood their authority to be based in part upon the display of masculine character how they presented themselves in public and demonstrated their masculinity helped define their political legitimacy moral authority and economic utility. Much has been written about the ways political culture religion and economic theory helped shape ideals and practices of masculinity. Kuchta allows us to see the process working in reverse in that masculine manners and habits of consumption in a patriarchal society contributed actively to people's understanding of what held England together. Kuchta shows not only how the ideology of modern English masculinity was a self-consciously political and public creation but also how such explicitly political decisions and values became internalized, personalized and naturalized into everyday manners and habits.

Van Diemen's Land

James Boyce, 2010-06-15 Winner of the 2009 Tasmania Book Prize Winner of the 2008 Colin Roderick Award. Almost half of the convicts who came to Australia came to Van Diemen's Land. There they found a land of bounty and a penal society, a kangaroo economy and a new way of life. In this book James Boyce shows how the convicts were changed by the natural world they encountered. Escaping authority they soon settled away from the towns, dressing in kangaroo skin and living off the land. Behind the official attempt to create a Little England was another story of adaptation in which the poor, the exiled and the criminal made a new home in a strange land. This is their story, the story of Van Diemen's Land. Shortlisted in the 2009 Prime Minister's Literary Awards, the 2009 NSW Premier's Literary Awards, the 2010 Adelaide Festival Awards for Literature, the 2008 Age Book of the Year Awards, the 2008 Victorian Premier's Literary Awards, the 2008 Queensland Premier's Literary Awards, the 2008 NSW Premier's History Awards and the 2008 Australian Book Industry Awards. A brilliant book and a must-read for anyone interested in how land shapes people. Tim Flannery: The most significant colonial history since *The Fatal Shore*. In re-imagining Australia's past it invents a new future. Richard Flanagan: Like the best history, *Van Diemen's Land* is not an artfully constructed narrative with the inevitably inadequate evidence banished to endnotes but a dialogue between historian and reader as they explore the fragile sources and the silences together. Inga Clendinnen: The publication of *Van Diemen's Land* signals an entirely fresh approach to Australian history writing. This is a brilliant publication. Alan Atkinson: A fresh and sparkling account. Henry Reynolds: James Boyce is the multiple award-winning author of *Born Bad 1835* and *Van Diemen's Land*. He has a PhD from the University of Tasmania where he is an honorary research associate of the School of Geography and Environmental Studies.

The Origins of Modern Financial Crime

Sarah Wilson, 2014-06-05 The recent global financial crisis has been characterised as a turning point in the way we respond to financial crime. Focusing on this change and crime in the commercial sphere, this text considers the legal and economic dimensions of financial crime and its significance in societal consciousness in twenty-first century Britain. Considering how strongly criminal enforcement specifically features in identifying the post-crisis years as a turning point, it argues that

nineteenth century encounters with financial crime were transformative for contemporary British societal perceptions of crime and its perpetrators and have lasting resonance for legal responses and societal reactions today The analysis in this text focuses primarily on how Victorian society perceived and responded to crime and its perpetrators with its reactions to financial crime specifically couched within this It is proposed that examining how financial misconduct became recognised as crime during Victorian times makes this an important contribution to nineteenth century history Beyond this the analysis underlines that a historical perspective is essential for comprehending current issues raised by the fight against financial crime represented and analysed in law and criminology as matters of enormous intellectual and practical significance even helping to illuminate the benefits and potential pitfalls which can be encountered in current moves for extending the reach of criminal liability for financial misconduct Sarah Wilson's text on this highly topical issue will be essential reading for criminologists legal scholars and historians alike It will also be of great interest to the general reader The Origins of Modern Financial Crime was short listed for the Wadsworth Prize 2015 **Modern Britain Third Edition** Edward

The Middlemost and the Milltowns Brian Lewis, 2002-11-01 This book seeks to enrich our understanding of middle class life in England during the Industrial Revolution For many years questions about how the middle classes earned and failed to earn money conducted their public and private lives carried out what they took to be their civic and religious duties and viewed themselves in relation to the rest of society have been largely neglected questions These topics have been marginalized by the rise of social history with its predominant focus on the political formation of the working classes and by continuing interest in government and high politics with its focus on the upper classes and landed aristocracy This book forms part of the recent attempt influenced by contemporary ideas of political culture to reassess the role composition and outlook of the middle classes It compares and contrasts three Lancashire milltowns and surrounding parishes in the early

phase of textile industrialization when the urbanizing process was at its most rapid and dysfunctional and class relations were most fraught The book's range extends from the French Revolution to 1851 the year of the Great Exhibition which symbolized mid century stability and prosperity The author argues that members of the middle class were pivotal in the creation of this stability He shows them creating themselves as a class while being created as a class putting themselves in order while being ordered from above The book shifts attention from the search for a single elusive class consciousness to demonstrate instead how the ideological leaders of the three milltowns negotiated their power within the powerful forces of capitalism and state building It argues that at a time of intense labor capital conflict it was precisely because of their diversity and their efforts to build bridges to the lower orders and upper class that the stability of the liberal capitalist system was maintained
