The Origins Of Modern Musical Criticism French Italian Music 1600 175:

Music, Dance and Franco-Italian Cultural Exchange, C.1700 Don Fader, 2021 This study stems from discoveries in a trove of documents belonging to Charles Henri de Lorraine prince de Vaudemont who served as governor of Milan under the Spanish crown from 1698 to 1706 These documents together with a mass of other sources letters diaries treatises libretti scores offer a vivid new picture of musical life in Paris and Milan as well as exchanges between France and Italy The book is both a patronage study and an examination of the contributions by and the difficulties facing musicians and dancers who worked across national and cultural boundaries Music Dance and Franco Italian Cultural Exchange c 1700 follows the careers of the prince and the French violinist and composer Michel Pignolet de Montéclair In the context of a renewed fascination with Italian music in the 1690s Montéclair made a name for himself in Paris as a pedagogue and composer who understood both national styles and blended them in a way that was successful on French terms Vaudemont hired Montéclair to direct a French violin band and to compose dance music for a series of new operas that observers declared the best in Italy but are virtually unknown today These productions involved collaborations among a mixed company of French and Italian musicians dancers composers and librettists modeled on the practice of Turinese court operas The book is an account of the contributions of these figures to the cultural life of Paris Milan and other northern Italian states and to the creative mixing of musical styles operatic conventions and dance technique in France and Italy through the 1720s and beyond *The Origins of Modern Musical Criticism* Georgia Cowart, 1981 *The Learned Draftsman* Édouard Kopp, 2017-01-10 The celebrated French artist Edme Bouchardon 1698 1762 is primarily known as a sculptor today but his contemporaries widely lauded him as a draftsman as well Talented highly innovative and deeply invested in the medium Bouchardon made an important contribution to the European art and culture of his time and in particular to the history of drawing Around two thousand of his drawings survive most of which bear no relation conceptual or practical to his sculpture yet remarkably little scholarly attention has been paid to this aspect of his oeuvre This is the first book length work devoted to the artist s draftsmanship since 1910 Ambitious in scope this volume offers a compelling narrative that effectively covers four decades of Bouchardon s activity as a draftsman from his departure for Rome in 1723 as an aspiring student to his death in Paris in 1762 by which time he was one of the most renowned artists in Europe His accomplished and dynamic style is analyzed and copiously illustrated in a series of five interrelated chapters that serve as case studies each of which focuses on a coherent group of drawings from a particular period of Bouchardon s career **Marin Mersenne and the Study of Harmony** Leendert Miesen, 2025-10-01 Marin Mersenne and the Study of Harmony delves into the central role of music among the early modern sciences by focusing on the work of the French polymath Marin Mersenne 1588 1648 Although now regarded more as an art than a science music was for many early modern scholars a universal science for studying the harmonies present in all beings For Mersenne music s ability to be quantified while being experienced aesthetically meant that it was

the central science to approximate the sounding and inaudible harmonies present in the world and universe at large Bringing together Mersenne's interests in the physics of sound and hearing musical composition instruments curiosities and music from outside Europe this book shows why so many scholars were drawn to music and how music was at the center of the early modern debate on the foundations of knowledge **Journal of the American Musicological Society** American Musicological Society, 1985 *The British Library General Catalogue of Printed Books, 1986 to 1987* British Library, 1988
