The Origins Of The Second World War Historical Interpretations

David G. Williamson, D.G. Williamson

The Origins Of The Second World War Historical Interpretations:

The Origins of the Second World War Esmonde Manning Robertson, 1971-01-21 This collection of essays deals with some of the problems posed by the origins of World War II Was World War II part of a developing world crisis or should it be seen purely in a European context Before 1960 general historical opinion held that World War I broke out World War II was precipitated Fritz Fischer's and A J P Taylor's challenge to this thesis caused a controversy which made it impossible to isolate the causes of the two World Wars Whether Hitler was an opportunist or a planner or both is discussed in a series of articles the introduction to which considers the irrational element in Hitler's character and the contradictions in his policy One author presents Hitler's attitude towards Japan and offers reasons why there was so little collusion between Germany and Japan before the end of 1937 Readers are introduced to the ideas of both American and Japanese writers as to the causes of the China Incident of July 1937 and its influence on European politics Other topics presented include Mussolini's role as an icebreaker for Hitler Chamberlain's policy of appeasement the Rome Agreements of 1935 which caused a rift between Britain and France over Ethiopia Hitler's attitude towards Japan Roosevelt's movement of the U S Fleet the defeat of France the Japanese occupation of Indo China and other key issues A plea for historians of the former belligerents to meet periodically in small groups to discuss research concludes this volume Germany and the Origins of the Second World War Jonathan Wright, 2007-09-27 Jonathan Wright explores the events discusses rival interpretations and places the policies of Hitler in the context of Germany as a whole Wright explains that support rose and fell but nevertheless by December 1941 Hitler had succeeded in carrying Germany into a world war for racial empire *The Origins of World War II* Keith Eubank, 2014-09-11 More than 60 years have passed since the outbreak of the most catastrophic conflict the world has known 30 million people dead and unbelievable devastation In the 3rd edition of this popular volume Keith Eubank seeks answers to the questions that have plagued us Why after the ghastly ordeal of World War I did Western powers undervalue the threat from Hitler Why was there so much reluctance on the part of Britain and France to confront Germany Why had Germany been permitted to rearm and to occupy independent nations without a struggle What was the policy of appeasement Why did the appeasers fail to perceive Hitler's intentions In addition to a re-examination of these questions and an effort to dispel the enduring myths surrounding the history of this era Keith Eubank has enhanced this new edition by including an analysis of the motivations and actions of central figures such as Neville Chamberlain and Joseph Stalin as well as a re-assessment of Soviet policies in the light of recent research that reveals their leaders as far less altruistic than some have imagined With an expanded conclusion a new photo section and an updated bibliographic essay this book remains an excellent brief overview of the period between 1918 and 1939 **The Origins of the Second World War** Esmonde M. Robertson, 1973 Origin Of The Second World War A.J.P. Taylor, 1996-04 From the Back Cover From the moment of its publication in 1961 A J P Taylor's seminal work caused a storm of praise and controversy and it has since been recognized as a classic the first book ever to

examine exclusively and in depth the causes of the Second World War and to apportion the responsibility among Allies and Germans alike With crisp clear prose and brilliant analysis Taylor established that the war far from being premeditated was a mistake the result on both sides of diplomatic blunders He argued that Hitler was more an opportunist than an ideologue who owed his successes to Great Britain's and France's tacking between resistance and appeasement and to an American policy akin to the significant episode of the dog in the night to which Sherlock Holmes once drew attention When Watson objected But the dog did nothing in the night Holmes answered That was the significant episode The Times Literary Supplement called The Origins of the Second World War simple devastating superlatively readable and deeply disturbing and it remains so now a groundbreaking book of enduring importance The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The Origins of the Twenty First Century** Gabriel Tortella, 2009-09-11 The object of this book is to explain rather than simply narrate the remarkable or rather unique set of events that constitute modern history from the Industrial Revolution to the beginnings of the twenty first century **Japanese Studies from Pre-History to 1990** Richard Perren, 1992

Canada: the Case for Staying out of Other People's Wars William S. Geimer, 2016-12-05 Canada did not come of age at Vimy and in all of Canada's wars both soldiers and civilians have died in vain. So why do people continue to support war in general despite its poor record of benefits? And why in particular does Canada involve herself in other peoples wars? Why does Canada never under any realistic threat of invasion continue to fight? In *Canada: The Case for Staying Out of Other Peoples Wars* author and trial attorney William S. Geimer presents the case that Canada should end its fealty to powerful patrons like the United Kingdom and the United States and instead make a more valuable contribution to international relations. Presented as a case laid out at trial, the arguments outline a new vision and challenge the prevailing myth that Canada came of age on the world stage at Vimy Ridge during the Great War. The evidence presented contains the stories of ordinary soldiers and civilians from every Canadian war and it traces unexamined factors that have produced foolish wars and a failure to enhance security, a failure that governments of all stripes have been unwilling to admit. Canada must follow a new and better path. Pursuing policies derived from being in other peoples wars can never provide Canada with the kind of international recognition its citizens deserve. It is past time for Canadians to talk rationally about staying out of other peoples wars. The story of those wars tells us there is a better way. **Special Bibliographic Series** US Army Military History Research Collection, 1977 *The origins of the second world war : historical interpretations* Esmonde M. Robertson, 1978

The Third Reich David G. Williamson, D.G. Williamson, 2013-11-04 Since publication of the first edition in 1982 David Williamson's *The Third Reich* has become established as one of the most successful books in the Seminar Studies in History series. The author draws on up to date scholarship to guide students through the maze of historical controversies concerning the Third Reich and to offer a comprehensive analysis of the key issues of the period. In a clear and accessible manner the new edition provides chapters that introduce readers to the historiography of the Third Reich, analyse the reasons for Hitler's rise to power, look at how the Nazi regime consolidated its grip on power during the period March 1933-August 1934, explain how Nazi Germany was governed and discuss to what extent Hitler can be viewed as a weak dictator, analyse Hitler's economic, foreign and social policies in both war and peace up to 1945, as well as the development of Nazi racial and eugenic policies. The analysis of these themes is backed up with an increased selection of documents which enable students to discuss the key issues more fully. Providing a concise but comprehensive account of the origins, course and downfall of the Third Reich, this new edition of an already classic text will be an invaluable introduction to the subject for students. **Fascist Ideology** Aristotle Kallis, 2002-01-04 *Fascist Ideology* is a comparative study of the expansionist foreign policies of fascist Italy and Nazi Germany from 1922-1945. *Fascist Ideology* provides a comparative investigation of fascist expansionism by focusing on the close relations between ideology and action under Mussolini and Hitler. With an overview of the ideological motivations behind fascist expansionism and their impact on fascist policies, this book explores the two main issues which have dominated the historiographical debates on the nature of fascist expansionism: whether Italy's and Germany's particular

expansionist tendencies can be attributed to a set of generic fascist values or were shaped by the long term uniquely national ambitions and developments since unification whether the pursuit of expansion was opportunistic or followed a grand design in each case **The Origins of the Second World War: An International Perspective** Frank McDonough,2011-09-22

Many major world events have occurred since the last key anniversary of the beginning of the Second World War and these events have had a dramatic impact on the international stage 9 11 the Iraq War climate change and the world economic crisis This is an opportune moment to bring together a group of major international experts who will offer a series of new interpretations of the key aspects of the origins of the Second World War Each chapter is based on original archival research and written by scholars who are all leading experts in their fields This is a truly international collection of articles with wide breadth and scope which includes contributions from historians and also political scientists gender theorists and international relations experts This is an important contribution to scholarly debate on one of the most important events of the 20th century and a subject of major interest to the general reader historians students and researchers policy makers and conflict prevention experts *Japanese History & Culture from Ancient to Modern Times* John W. Dower,1986 *The Last Cambridge Spy* Chris Smith,2019-05-01 A riveting read Professor Richard Aldrich The Last Cambridge Spy is not just a

fascinating well paced book about an interesting individual but it also invites us to re appraise the very idea of the Cambridge spy ring Sir Dermot Turing John Cairncross was among the most damaging spies of the twentieth century A member of the infamous Cambridge Ring of Five he leaked highly sensitive documents from Bletchley Park MI6 and the Treasury to the Soviet Union including the first atomic secrets and raw decrypts from Enigma and Tunny that influenced the outcome of the Battle of Kursk in 1943 In 2014 Cairncross appeared as a secondary though key character in the biopic of Alan Turing s life The Imitation Game While the other members of the Cambridge Ring of Five have been the subject of extensive biographical study Cairncross has largely been overlooked by both academic and popular writers Despite clear interest he has remained a mystery until now The Last Cambridge Spy is the first ever biography of John Cairncross using recently released material to tell the story of his life and espionage **Special Bibliography** ,1977 **The Domestic Bases of Grand Strategy**

Richard Rosecrance,Arthur A. Stein,2023-08-15 This book explores the idea of grand strategy and offers a full blown critique both theoretical and empirical of the gaps and inconsistencies that weaken modern realist theory Grand strategy the authors maintain is determined as much by domestic politics as by international pressures *Elizabeth Wiskemann* Geoffrey Field,2022-12-06 This biography examines the life and career of scholar journalist Elizabeth Wiskemann 1899 1971 from her youth and student years at Cambridge to her death by suicide Disappointed in her hopes for an academic career she reinvented herself as a journalist in Berlin covering the overthrow of the Weimar Republic and the rise of Nazism for The New Statesman Nation and numerous other newspapers and periodicals Expelled from Germany she settled in Prague and funded by Chatham House wrote the most important account of the Czech German conflict and the Sudeten crisis still a

classic followed by a detailed analysis of Nazi political and economic destabilization of the countries of eastern Europe Her journalistic skills served her well in the war years when she worked as a secret agent in Switzerland gathering intelligence running agents into Axis controlled Europe and working closely with Allen Dulles the O S S chief in Bern Postwar Wiskemann returned to freelance journalism focusing especially on Italy and Germany while also writing several books including the first scholarly study of the Hitler Mussolini relationship and the first major account of the expulsion of 12 million ethnic Germans from Eastern Europe Although a prolific writer and highly regarded as a commentator on international affairs she remained on the fringes of academia until 1958 when she was appointed Professor of International Relations at Edinburgh the first woman to receive a Chair there in any discipline she later became one of the first faculty recruited by the new Sussex University In her later years she published several works of contemporary history including *Europe of the Dictators 1919-45* widely used in schools and universities Blinded in one eye by a botched surgery and increasingly anxious as her other eye deteriorated she became terrified of going completely blind and ended her life Aside from its intrinsic interest Wiskemann's biography is illustrative of a whole cohort of women graduates in the 1920s and 30s who found ways to pursue their interests in international affairs and contemporary history In this sense the book foregrounds the gendered experience of these pioneers whose professional lives often intersected through journalism Chatham House and service in the propaganda and intelligence agencies of the wartime state

The Origins Of The Second World War Historical Interpretations Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading The Origins Of The Second World War Historical Interpretations free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading The Origins Of The Second World War Historical Interpretations free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and

allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading The Origins Of The Second World War Historical Interpretations free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading The Origins Of The Second World War Historical Interpretations. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading The Origins Of The Second World War Historical Interpretations any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About The Origins Of The Second World War Historical Interpretations Books
