The Orlando Furioso A Stoic Comedy:

The Orlando Furioso Clare Carroll,1997 Orlando Furioso: A Stoic Comedy Clare Carroll,1997 **The Italian Romance Epic in the Age of Humanism** Jane E. Everson,2001 The romance or chivalric epic was the most popular form of literature in Renaissance Italy This book shows how it owed its appeal to a successful fusion of traditional medieval tales of Charlemagne and Arthur with the newer cultural themes developed by the revival in classical antiquity that constitutes the key to Renaissance culture A Local Habitation and a Name Albert Russell Ascoli,2011 Focusing on major authors and problems from the Italian fourteenth and sixteenth centuries from Petrarch and Boccaccio to Machiavelli Ariosto and Tasso A Local Habitation and a Name examines the unstable dialectic of reality and imagination as well as of history and literature Albert Ascoli identifies and interprets the ways in which literary texts are shaped by and serve the purposes of multiple intertwined historical discourses and circumstances and he equally probes the function of such texts in constructing interpreting critiquing and effacing the histories in which they are embedded Throughout he poses the theoretical and methodological question of how formal analysis and literary forms can at once resist and further the historicist enterprise Along the way Ascoli interrogates the mechanisms of historical periodization that have governed for so long our study of what is sometimes called the Renaissance sometimes the early modern period He also addresses the period s own unstable version of the literature history opposition the place of gendered discourse in the construction of historical narratives and vice versa the elaborate formal strategies by which poets and intellectuals negotiate their relations to power and finally the way in which proper names of authors works and exemplary characters serve as points of negotiation between individual identity and social order in the Renaissance The book brings to culmination two decades of a major scholar s thinking about some of the most important figures and questions that shaped the Renaissance with emphasis on the question of history both the historical context of literature and the writing of literary history The Enemy in Italian Renaissance Epic Andrea Moudarres,2019-04-10 In The Enemy in Italian Renaissance Epic Andrea Moudarres examines influential works from the literary canon of the Italian Renaissance arguing that hostility consistently arises from within political or religious entities In Dante s Divina Commedia Luigi Pulci s Morgante Ludovico Ariosto s Orlando Furioso and Torquato Tasso s Gerusalemme Liberata enmity is portrayed as internal taking the form of tyranny betrayal and civil discord Moudarres reads these works in the context of historical and political patterns demonstrating that there was little distinction between public and private spheres in Renaissance Italy and thus little differentiation between personal and political enemies Distributed for the University of Delaware Press **Reading Old Books** Peter Mack,2021-11-23 A wide ranging exploration of the creative power of literary tradition from Chaucer to the present In literary and cultural studies tradition is a word everyone uses but few address critically In Reading Old Books Peter Mack offers a wide ranging exploration of the creative power of literary tradition from the middle ages to the twenty first century revealing in new ways how it helps writers and readers make new

works and meanings Reading Old Books argues that the best way to understand tradition is by examining the moments when a writer takes up an old text and writes something new out of a dialogue with that text and the promptings of the present situation The book examines Petrarch as a user instigator and victim of tradition It shows how Chaucer became the first great English writer by translating and adapting a minor poem by Boccaccio It investigates how Ariosto Tasso and Spenser made new epic meanings by playing with assumptions episodes and phrases translated from their predecessors It analyzes how the Victorian novelist Elizabeth Gaskell drew on tradition to address the new problem of urban deprivation in Mary Barton And finally it looks at how the Kenyan writer Ngũgĩ wa Thiong'o in his 2004 novel Wizard of the Crow reflects on biblical English literary and African traditions Drawing on key theorists critics historians and sociologists and stressing the international character of literary tradition Reading Old Books illuminates the not entirely free choices readers and writers make to create meaning in collaboration and competition with their models

The Grace of the Italian Renaissance Ita Mac Carthy, 2020 This book explores grace as a complex idea and term that at once expresses and connects the most pressing ethical social and aesthetic debates of the Italian Renaissance Grace surfaced time and again in the period's discussions of the individual pursuit of the good life and in the collective quest to determine the best means to a harmonious society It rose to prominence in theological debates about the soul's salvation and in secular debates about how best to live at court It was absolutely central to the thinking of Reformation figures such as Erasmus and Luther and just as central to the Counter Reformation response It played a pivotal role in the humanist campaign to develop a shared literary language and it featured prominently in the efforts of writers and artists to express the full potential of mankind Grace abounded in the Italian Renaissance yet it was as hard to define as it was ever present The courtier and writer Baldassare Castiglione for example described it as that certain air which distinguished excellent courtiers and court ladies from their mediocre counterparts while his artist friend Raffaello Sanzio Raphael saw it as that quality produced when one conceals the hard work and effort of art behind a veil of nonchalance and ease This classically inspired grace was used by many as a way of claiming distinction for themselves and of arguing for the pre-eminence of their chosen disciplines but it drew criticism too from those who saw it as self-interested and superficial Quarrels about the meaning and value of grace involved theologians artists writers and philosophers and intersected with the most famous debates of the time about language society and the role of literature and the visual arts As well as shedding light on what grace meant to those who invoked it this book aims to trace the interdisciplinary transactions that the word made possible Each chapter combines consideration of pivotal texts and images with interdisciplinary approaches examining what grace meant to protagonists of the Italian Renaissance and exploring the correspondence whether direct or indirect between them What emerges is a network of friendships rivalries agreements and disputes a sketch of the interconnections that made the Italian Renaissance

Magic in Boiardo and Ariosto Julia Kisacky, 2000 The topos of magic has fascinated people from antiquity to the present day This study uses a thematic and structural approach to examine the various functions performed by magic in two important Renaissance epics Boiardo's Orlando innamorato and Ariosto's Orlando furioso It breaks new ground by exploring the association of magic with the chaotic and irrational as contrasted more or less strongly with order and reason It also examines the poets use of magic as a vehicle in the Renaissance dialectic between fortune and self determination
