The Other Hand Clapping:

One Hand Clapping Nikolay Kukushkin, 2025-10-23 Brilliant bold and beautifully articulated Karl J Friston Professor of Neuroscience University College London Neuroscientist Nikolay Kukushkin reveals the miracle by which consciousness evolved out of the natural world from the birth of the cell to the majesty of our modern minds Science says that you are nothing but a chemical reaction a collection of atoms and molecules like rocks paperclips and everything else in the physical universe But if that's so where is the place in this world for your consciousness In a word why does it feel so special to be you Like the Zen Buddhist riddle pondering the imponderable the sound of a single hand clapping this book asks the seemingly unanswerable question of how the human mind came to exist within the material world In search of an answer neuroscientist Nikolay Kukushkin takes readers on a billion year journey through time from the roots of our existence to the advent of Homo sapiens reimagining the story of our evolution The result is an exhilarating book that embeds our consciousness within a single unified story of life on Earth A work of ambitious intellectual scope One Hand Clapping is distinguished as much by its originality as by the breadth of its imaginative reach drawing from neuroscience evolution philosophy and a rich tapestry of cultural references all brought to life by the author's own illustrations Told with the drama and daring of a mythical epic it reaches deep into our oceanic past to show for the first time how the entire course of Earth's history from the earliest non living particles ultimately led to the formation of our own minds

The Other Hand Clapping Marco Vassi, 2014-08-26 Larry felt something he hadn't experienced for years the sharp clutch of jealousy twisting his stomach In all the years they'd been together he'd never doubted Eleanor's fidelity in the slightest In this striking startling novel Vassi turns his talent to a tale that blends Zen and jealous passion into a suspenseful erotically charged thriller For Larry he wonders if the evidence of his wife's supposed infidelity is real or a hallucination produced by his own meditations and inner fears It all builds to a shattering climax that reexamines the idea of life death and sex Marco Vassi was without a doubt the foremost erotic writer of our generation Praised by Norman Mailer Kate Millett Saul Bellow and Gore Vidal he was not only the ultimate sexual explorer but a literary craftsman whose own life experiences became the stuff of his fiction expanded of course by a grand imagination and a full sense of the absurd Tragically Vassi died from pneumonia after he had contracted AIDS

or a blessing Hand Clap! Sara Bernstein,1994-10-01 NULL The Body of Myth J. Nigro Sansonese,1994 Long ago the ancestors of the Greeks Romans and Hindus were one people living on the Eurasian steppes At the core of their religion was the shamanic trance a natural state but one in which consciousness achieves a profound level of inner awareness Over the course of millennia the Indo Europeans divided and migrated into Europe and the Indian subcontinent The knowledge of shamanic trance retreated from everyday awareness and was carried on in the form of myths and distilled into spiritual practices most notably in the Indian tradition of yoga J Nigro Sansonese compares the myths of Greece as well as those of the Judeo Christian tradition with the yogic practices of India and concludes that myths are esoteric descriptions of what occurs within the human body especially the human nervous system during trance In this light the myths provide a detailed map of the shamanic state of consciousness that is our natural heritage This book carries on from the works of Carl Jung and Joseph Campbell to show how the portrayal of consciousness embodied in myth can be extended to a reappraisal of the laws of physics before they are descriptions of the world these laws like myths are descriptions of the human nervous system

The Native Culture in the Marquesas Edward Smith Craighill Handy,1923 *The Poem in the Story* Harold Scheub,2002-12-05 Fact and fiction meet at the boundaries the betwixt and between where transformations occur This is the area of ambiguity where fiction and fact become endowed with meaning and this is the area where ambiguity irony and metaphor join forces that Harold Scheub exposes in all its nuanced and evocative complexity in *The Poem in the Story* In a career devoted to exploring the art of the African storyteller Scheub has conducted some of the most interesting and provocative investigations into nonverbal aspects of storytelling the complex relationship between artist and audience and most dramatically the role played by poetry in storytelling This book is his most daring effort yet an unconventional work that searches out what makes a story artistically engaging and emotionally evocative the metaphorical center that Scheub calls the poem in the story Drawing on extensive fieldwork in southern Africa and decades of experience as a researcher and teacher Scheub develops an original approach a blend of field notes diary entries photographs and texts of stories and poems that guides readers into a new way of viewing even experiencing meaning in a story Though this work is largely focused on African storytelling its universal applications emerge when Scheub brings the work of storytellers as different as Shakespeare and Faulkner into the discussion **The Language of Zen** Richard Burnett Carter,2009-03-03 Examines the complexity of language in Zen Buddhism and explains how to understand meaning of words in the way the original Zen writers intended **Awaken Your Inner Self: Stories For Your Soul | A Journey of Self-Discovery and Spiritual**

across lifetimes Explore the profound mysteries of the spiritual universe **Representing the Holocaust** Dominick LaCapra, 2016-11-01 Defying comprehension the tragic history of the Holocaust has been alternately repressed and canonized in postmodern Western culture Recently our interpretation of the Holocaust has been the center of bitter controversies from debates over Paul de Man's collaborationist journalism and Martin Heidegger's Nazi past to attempts by some historians to downplay the Holocaust's significance A major voice in current historiographical discussions Dominick LaCapra brings a new clarity to these issues as he examines the intersections between historical events and the theory through which we struggle to understand them In a series of essays three published here for the first time LaCapra explores the problems faced by historians critics and thinkers who attempt to grasp the Holocaust He considers the role of canon formation and the dynamic of revisionist historiography as well as critically analyzing responses to the discovery of de Man's wartime writings He also discusses Heidegger's involvement with National Socialism and he sheds light on postmodernist obsessions with such concepts as loss agora dispossession deferred meaning and the sublime Throughout LaCapra demonstrates that psychoanalysis is not merely a psychology of the individual but that its concepts have sociocultural dimensions and can help us perceive the relationship between the present and the past Many of our efforts to comprehend the Holocaust he shows continue to suffer from the traumatizing effects of its events and require a working through of that trauma if we are to gain a more profound understanding of the meaning of the Holocaust Report of the Senate Impeachment Trial Committee on the Articles Against Judge Alcee L.
