redresses the relative paucity of studies on the history of retailing before 1800 Based upon extensive research into diverse trade sources Cox takes issue with the surprisingly resilient stereotype of the dull and out of date shopkeeper in the early modern period showing that the retailing sector was well adapted to the social and economic needs of the day and quick to exploit new opportunities Chapters cover not only distribution shop design customer relations and networks between tradesmen but also attitudes to retailing official controls and the response to novelty By throwing light on subjects hitherto overlooked and challenging existing whiggish preoccupations with progress towards modern retailing systems this study signals a new approach to the history of retailing The focus is placed on assessing how far tradesmen especially shopkeepers satisfied and stimulated contemporary desires for consumer goods *Cultural Transitions in the Middle East*

Mardin,2021-10-11 *Cultural Transitions in the Middle East* deals with the interlacing of themes constitutive of traditional cultures and world views in the Middle East with concepts and outlooks that have originated in the modern Western World A number of Muslim thinkers who are indigenous products of the Middle East cultural setting have now begun to use some of the forms of modern Western literature and social thought Conversely some intellectuals trained in modern secular schools have attempted to reevaluate their Islamic heritage The papers cover aspects of this subtle interpenetration which has not been explored to date **The Victorian Governess** Kathryn Hughes,2001-01-01 The figure of the governess is very familiar

from nineteenth century literature Much less is known about the governess in reality This book is the first rounded exploration of what the life of the home schoolroom was actually like Drawing on original diaries and a variety of previously undiscovered sources Kathryn Hughes describes why the period 1840 80 was the classic age of governesses She examines their numbers recruitment teaching methods social position and prospects The governess provides a key to the central Victorian concept of the lady Her education consisted of a series of accomplishments designed to attract a husband able to keep her in the style to which she had become accustomed from birth Becoming a governess was the only acceptable way of earning money open to a lady whose family could not support her in leisure Being paid to educate another woman s children set in play a series of social and emotional tensions The governess was a surrogate mother who was herself childless a young woman whose marriage prospects were restricted and a family member who was sometimes mistaken for a servant
