Woodard, 2007-12-06 Americans today live in the greatest nation the world has ever known Never before has a country been the producer and beneficiary of so much wealth and freedom But with great success comes even greater responsibility Part of the American legacy is to pass our values to our posterity as well as to future generations in other nations To meet this responsibility the next generation must understand what made America great what is working what is not working and how to improve all the ideas that contributed to past success No factor is more important in this task than our freedom of speech This right is both a means and an end to improving and strengthening the nation *Why We Whisper* is about free speech in America but not freedom of speech as it is often defined today It is not the freedom to practice destructive behavior or to produce obscene material This book is about freedom of speech as it was intended by the visionaries who designed the Constitution and the Bill of Rights The First Amendment empowers Americans to join the public and political debate with their ideas and values including those traditional ideas and

values that have made America great This fundamental freedom is under attack and unless principled Americans fight back our grandchildren and future generations around the world will receive a greatly diminished inheritance United States Senator Jim DeMint and Professor David Woodard compellingly demonstrate that through court rulings bureaucratic pronouncements and well intentioned but ultimately unhelpful laws secular values have allied with government authority to dismantle the ideals of a moral and decent nation A country once confident of its values and optimistic about its future is now pessimistic nervous and confused Traditional American institutions like the Boy Scouts churches businesses college campuses and public schools are routinely targeted for attack and government regulation As a result morally responsible patriotic Americans are

Distinctively American Stephen R. Graubard, 2017-07-05 There is much change underway in American higher education New technologies are challenging the teaching practices of yesterday distance learning is lauded and private firms offer to certify the educational credentials that businesses and others will deem satisfactory In this new environment America s liberal arts colleges propound a quite different set of values Their continuing faith in the liberal arts not as the nineteenth century chose to define them but as the twenty first century will be obliged to reconsider them is being tested Distinctively American examines the American liberal arts college as an institution from its role in the lives of students to its value as a form of education It explores the threats faced by liberal arts colleges as well as the transformative role both positive and negative information technology will play in their future development and survival In the preface introducing the volume Stephen Graubard examines the history of the American liberal arts colleges from their early disdained reputations in comparison to European schools to their slow rise to becoming world class universities This important volume explores the triumphs and challenges of one segment of the American higher educational universe It also addresses a larger question What ought this country be teaching its young the many millions who now throng its colleges and universities Distinctively American is essential reading for all concerned with the future of higher education

How to Educate an American Michael J. Petrilli, Chester E. Finn, 2020-02-24 In the years after A Nation at Risk conservatives ideas to reform America s lagging education system gained much traction Key items like school choice and rigorous academic standards drew bipartisan support and were put into practice across the country Today these gains are in retreat ceding ground to progressive nostrums that do little to boost the skills and knowledge of young people Far from being discouraged however conservatives should seize the moment to refresh their vision of quality K 12 education for today s America These essays by 20 leading conservative thinkers do just that Students according to this vision should complete high school with a thorough understanding of the country s history including gratitude for its sacrifices respect for its achievements and awareness of its shortcomings They should also learn to be trustworthy stewards of a democratic republic capable of exercising virtue and civic responsibility Beyond helping to form their character schools ought to ready their pupils for careers that are productive rewarding and dignified Excellent technical training opportunities will await those not headed to a traditional college

Regardless of the paths and schools that they select all students must come to understand that they can succeed in America if they are industrious creative and responsible Anchored in tradition yet looking towards tomorrow How to Educate an American should be read by anyone concerned with teaching future generations to preserve the country s heritage embody its universal ethic and pursue its founding ideals Literature Arther Trace,2002-04-02 Literature examines the declining influence of the literary arts in America particularly during the last half century and attempts to analyze the problem by calling attention to four particular threats which appear to be besieging them They are 1 the replacing of the authority of the imagination by the authority of the sciences 2 the rise of certain literary and critical theories in recent decades which have seriously weakened the study of literature in both the schools and the colleges 3 problems in producing fully literate high school graduates largely as a result of faulty methods of teaching reading and doubtful philosophical principles which have seriously weakened the study of literature in the schools and 4 the threat of the electronic age to the preservation of the printed page upon which literature depends for its very survival All of these forces have served to trivialize literature and are on their way to destroying it as a major cultural force in modern America This book also attempts to redeem literature and to help restore literature as a major discipline superior in importance to other disciplines by offering a theory of literature which will demonstrate that literature is in fact as Sir Philip Sidney insisted the highest form of earthly learning A Watchman in the Night Cal Thomas,2023-05-09 When Cal Thomas speaks I try to listen I ve been listening to him for a LONG time Mike Huckabee For more than 40 years Cal Thomas had a front row seat to some of America s most contentious public policy debates And for more than four decades Cal wielded his pen to speak truth to power and to advance traditional conservative values Cal s stories and tales from that front row as the watchman are sure to entertain Mike Pence A new bestselling page turner Washington Examiner This is what I have done and am continuing to do as I seek to serve God first and then my country Cal Thomas Cal Thomas one of the most popular syndicated columnists in the country is America s Watchman in the night In A Watchman in the Night Cal Thomas takes the reader on a road trip through over fifty years of journalism and American life serving as a watchman on culture and politics and seeking to conform it to a standard that never changes A watchman keeps guard over a building at night to protect it from fire vandals or thieves Thomas is a believer that certain values and principles never change and has critiqued misbehavior and wrong headedness by people on his side from the start If values and Truth mean anything Thomas says they must be applied equally Hypocrisy and heresy cannot be ignored no matter the source In the book Thomas does not stigmatize labels such as conservative and religious because Thomas says It allows people to define me and others by their perception of those labels Ask me a question and I will give you my answer For over fifty years in journalism Thomas has offered incisive humorous and often corrective commentary to our social political and religious conversations An early commitment to addressing publicly what he sees has marked Thomas entire career Cal has always called both parties both sides of the American political divide to account to take

the high road and to honor our civic and religious ideals with compatible behavior to the very best of our ability This increasingly radical approach to public life has won him many friends on both sides of the political aisle hundreds of thousands of faithful readers of his columns and a continuous barrage of accolades and hate mail much of it charming when it is not too foul to repeat Cal came to the Christian faith while a young journalist at a dinner led by Dr Richard Halverson Pastor at Fourth Presbyterian Church in Bethesda MD and later Chaplain of the United States Senate This experience informed the rest of Cal s life as he hosted his own private dinners for members of the press and members of Congress from both parties leading to deep friendships with Senator Ted Kennedy and many others friendships which became a hallmark of Cal s life despite wide political differences For over two decades Cal has hosted the National Prayer Breakfast Media Dinner as a continuation of his commitment to the reality that a relationship with Jesus Christ can change a person s life and ultimately change a nation and that things of such import are best discussed over dinner The book includes tones about faith but focuses on American social cultural and political currents A Watchman in the Night What I ve Seen Over 50 Years Reporting on America is a living history of our times of who we were then and who we are now and who we might become for better or worse in the future and a remarkable chronicle of modern American life *Educational Rankings Annual* Lynn C. Hattendorf,1997 This is a marvelous reference tool that consolidates a vast amount of information and is indispensable for large public and academic libraries Library Journal New Edition From the Best Business Schools in Business Week to admission requirements to U S medical schools as reported by the Association of American Colleges this up to date resource presents 3 000 national regional local and international lists and rankings compiled from hundreds of sources its scope ranges from preschool to post doctoral Institutions and includes continuing and adult education special education junior colleges and high schools Librarians and patrons will use the Annual to find rankings by enrollment salaries tuition special programs funding and state and region Each entry includes the actual ranking background information original source and remarks **Turning the Wheel** Charles Johnson,2010-06-15 Were it not for the Buddhadharma says Charles Johnson in his preface to Turning the Wheel I m convinced that as a black American and an artist I would not have been able to successfully negotiate my last half century of life in this country Or at least not with a high level of creative productivity In this collection of provocative and intimate essays Johnson writes of the profound connection between Buddhism and creativity and of the role of Eastern philosophy in the quest for a free and thoughtful life In 1926 W E B Du Bois asked African Americans what they would most want were the color line miraculously forgotten In Turning the Wheel Johnson sets out to explore this question by examining his experiences both as a writer and as a practitioner of Buddhism He looks at basic Buddhist principles and practices demonstrating how Buddhism is both the most revolutionary and most civilized of possible human choices He discusses fundamental Buddhist practices such as the Eightfold Path Taming the Mind and Sangha and illuminates their place in the American Civil Rights movement Johnson moves from spiritual guides to spiritual nourishment

writing In essays touching on the role of the black intellectual Uncle Tom s Cabin and Ralph Ellison Johnson uses tools of Buddhist thinking to clarify difficult ideas Powerful and revelatory these essays confirm that writing and reading along with Buddhism are the basic components that make up a thoughtful life
