The Dynamics Of Change In Nato A Burden Sharing Perspective:

The Dynamics of Change in NATO James R. Golden, 1983-11-01 A political military and economic analysis of contemporary challenges to the stability of the NATO alliance Closely examines increasing friction between the U S and its Allies over relative levels of military spending and the distribution of responsibilities within the alliance

The Dynamics of Change in NATO James Reed Golden, 1983

The US, NATO and Military Burden-Sharing Stephen J. Cimbala, Peter Forster, 2005-10-21 This study establishes that the political economic and military technological changes that transform the international system also alter the way in which a state views its and others responsibilities and burdens for responding to international crises It assesses the distribution of the costs of raising and supporting arms of service the risks of deploying them overseas and using them in combat or peace operations and the extent to which members have a responsibility for maintaining international order in the context of three instances of multinational military intervention the Multinational Force deployment in Lebanon in 1982 83 the first Persian Gulf War in 1990 91 and the UN and NATO intervention in Bosnia Herzegovina

Dynamics of change in nato: Burden-sharing perspectives James R. Golden, 1983

The Burdensharing Debate Simon Duke, 1993-06-18 Examines critically the history and assumptions behind the divisive question of allied contributions to the common defence It looks at the methodology of the burdensharing debate and focuses on political economic and military ramifications of the debate

Multinational Military Intervention Stephen J. Cimbala, Peter K. Forster, 2016-04-15 War as Clausewitz reminds is the most uncertain of human political and social activities It also imposes burdens In an alliance among states for the promotion of collective defense or security such as the North Atlantic Treaty Organization NATO burdens have to be shared This study looks at the experience of the United States and other member states of NATO in four situations of multinational military intervention Lebanon the Persian Gulf the Balkans and South Asia and considers the implications of nuclear arms reductions and nonproliferation for the US and NATO Each case study represents an important period in the distribution of power interest and values amounting to more than a sequential consideration of incidents of military intervention and or conflict prevention These politico military challenges include a major coalition war a traditional peacekeeping operation an exercise in peace enforcement and a conflict that combines counter insurgency and counter terrorism with stability and security operations

NATO's Burden-Sharing Disputes Tommi Koivula, Heljä Ossa, 2022-02-26 This book states that burden sharing is one of the most persisting sources for tension and disagreement within NATO North Atlantic Treaty Organisation It also belongs to one of the most studied issues within NATO with distinguishable traditions and schools of thought However this pertinent question has been rarely discussed extensively by academics The key idea of the book is to make burden sharing more understandable as a historical contemporary and future phenomenon The authors take a comprehensive look at what is actually meant with burden sharing and how it has evolved as a concept and a real life phenomenon through the 70

years of NATO's existence Sharing Security M. Chalmers, 2016-04-30 Sharing Security is a unique and comprehensive study of a key yet often neglected feature of modern international society. It begins by assessing how political theory can contribute to an understanding of international burdensharing. It then analyses in turn why some Western states contribute more than others to common defences, the European Union budget and overseas development aid. It highlights the particular burdensharing problems involved in global regimes focusing on the UN's continuing financial crisis and the costs of combating global warming. It argues that today's burdensharing disparities continue to be shaped by the particular character of the international settlement at the end of the Second World War *Parameters*, 1990
