Religion in International Politics and Development J. A. Rees, 2011 This unique and fascinating book illustrates that in moving the research agenda forward despite whatever methodological pitfalls that may await in the attempt the dynamics of religion must now be considered to be of central and abiding importance in the study of world politics An illuminating case study of the World Bank's engagements with religion faith communities institutions and social movements provides insights into the current discourse on religion in international relations John A Rees argues that religion is of equal importance to other structures of international relations IR and questions where religion is operating in world politics rather than what religion is in an essential sense He constructs a new model for differentiating three distinct discourses of religion in the theory and practice of world politics which he applies to the IR sphere of international development and encourages new thinking in the field by answering conceptual and methodological challenges in religion research This book will prove an enlightening point of reference for academics and researchers in the fields of religion world politics international relations and development studies as well as for international organisations development theorists and practitioners working in conjunction with faith based organisations

Theory and History in International Relations Donald J. Puchala, 2013-01-11

Theory and History in International Relations is an eloquent plea to scholars of global politics to turn away from the manufacture of data and return to a systematic study of history as a basis for theory While the modest use of empiricism will always be important Puchala rejects the logical positivism of the so called scientific revolution in the field in favor of a more complex even intuitive vision of global politics He addresses the potential uses of history in studying some of the major debates of our time the Cold War as a struggle between empires the collision of civilizations cultural encounters and colonies in the ancient world and liberal approaches to the understanding of history and ethical contributions to the dialogue over theory
