The Early Mesoamerican Village:

The Early Mesoamerican Village Kent V Flannery, 2009 This is a seminal tract on scientific method in archaeology and a series of studies on formative Mesoamerica that has influenced generations of archaeologists A new Foreword by Jeremy Sabloff is featured in this edition *The Early Mesoamerican Village*, 2009 One of the classic works of archaeology The Early Mesoamerican Village was among the first studies to fully embrace the processual movement of the 1970s Dancing around an ongoing dialogue on methods and goals between the Real Mesoamerican Archaeologist the Great Synthesizer and the Skeptical Graduate Student it is both a seminal tract on scientific method in archaeology and a series of studies on formative Mesoamerica It critically evaluates techniques for excavation sampling of sites and regions and stylistic analysis as well as such theoretical factors of explanation as population pressure trade and religion and launched similar studies for several later generations of archaeologists A new Foreword by Jeremy Sabloff is featured in this edition *Cultural Evolution* Gary M. Feinman, Linda Manzanilla, 2012-12-06 Drawing on Kent Flannery's forty years of cross cultural research in the area the contributors to this collection reflect the current diversity of contemporary approaches to the study of cultural evolutionary processes Collectively the volume expresses the richness of the issues being investigated by comparative theorists interested in long term change as well as the wide variety of data approaches and ideas that researchers are employing to examine these questions **The Archaeology of Villages in Eastern North America** Jennifer Birch, Victor D. Thompson, 2018-09-17 This volume highlights the similarities and differences in the historical trajectories of village formation and development in eastern North America as well as the larger processes by which villages have the power to affect large scale social transformations Contributors to this volume employ archaeological and historical evidence to explore the development of villages among eastern North American societies of the deep and recent past **Ancient Mesoamerica** Richard E. Blanton, 1993-04-30 In this revised and updated 1993 edition the authors synthesize recent research to provide a comprehensive survey of Mesoamerica **Field Methods in Archaeology** Thomas R Hester, Harry J Shafer, Kenneth L Feder, 2016-09-16 Field Methods in Archaeology has been the leading source for instructors and students in archaeology courses and field schools for 60 years since it was first authored in 1949 by the legendary Robert Heizer Left Coast has arranged to put the most recent Seventh Edition back into print after a brief hiatus making this classic textbook again available to the next generation of archaeology students This comprehensive guide

provides an authoritative overview of the variety of methods used in field archaeology from research design to survey and excavation strategies to conservation of artifacts and record keeping Authored by three leading archaeologists with specialized contributions by several other experts this volume deals with current issues such as cultural resource management relations with indigenous peoples and database management as well as standard methods of archaeological data collection and analysis

Palaces and Power in the Americas Jessica Joyce Christie, Patricia Joan Sarro, 2010-01-01 Ancient American palaces still captivate those who stand before them Even in their fallen and ruined condition the palaces project such power that according to the editors of this new collection it must have been deliberately drawn into their formal designs spatial layouts and choice of locations Such messages separated palaces from other elite architecture and reinforced the power and privilege of those residing in them Indeed as Christie and Sarro write the relation between political power and architecture is a pervasive and intriguing theme in the Americas Given the variety of cultures time periods and geographical locations examined within the editors of this book have grouped the articles into four sections The first looks at palaces in cultures where they have not previously been identified including the Huaca of Moche Site the Wari of Peru and Chaco Canyon in the U S Southwest The second section discusses palaces as stage sets that express power such as those found among the Maya among the Coast Salish of the Pacific Northwest and at El Tajín on the Mexican Gulf Coast The third part of the volume presents cases in which differences in elite residences imply differences in social status with examples from Pasado de la Amada the Valley of Oaxaca Teotihuacan and the Aztecs The final section compares architectural strategies between cultures the models here are Farfán Peru under both the Chimú and the Inka and the separate states of the Maya and the Inka Such scope and the quality of the scholarship make *Palaces and Power in the Americas* a must have work on the subject

Space and Spatial Analysis in Archaeology University of Calgary. Archaeological Association. Conference, Elizabeth C. Robertson, 2006 The archaeology of space and place is examined in this selection of papers from the 34th annual Chacmool Archaeological Conference

Domestic Architecture In Andes Mark S. Aldenderfer, 1993-04-01 Domestic Architecture Ethnicity and Complementarity in the South Central Andes is a comprehensive and challenging look at the burgeoning field of Andean domestic architecture Aldenderfer and fourteen contributors use domestic architecture to explore two major topics in the prehistory of the south central Andes the development of different forms of complementary relationships between highland and lowland peoples and the definition of the ethnic affiliations of these peoples
