century African American writing and publishing venues and practices such as the Colored National Convention movement and literary societies in Nantucket and New Orleans Examining the writing of Frederick Douglass in tandem with that of the francophone free men of color who published the first anthology of African American poetry in 1845 he contends these authors were never interested in petitioning whites for sympathy or for recognition of their humanity Instead they presented a moral imperative to develop practices of stranger humanism in order to forge personal and political connections based on mutually acknowledged and always evolving differences *The Origins of African American Literature, 1680-1865* Dickson D. **What is African American Literature?** Margo N. Crawford, 2020-12-21 After Kenneth W Warren's What Was African American Literature Margo N Crawford delivers What is African American Literature The idea of African American literature may be much more than literature written by authors who identify as Black What is African American Literature focuses on feeling as form in order to show that African American literature is an archive of feelings a tradition of the tension between uncontainable black affect and rigid historical structure Margo N Crawford argues that textual production of affect such as blush vibration shiver twitch and wink reveals that African American literature keeps reimagining a black collective nervous system Crawford foregrounds the idea of African American literature and uncovers the black feeling world co created by writers and readers Rejecting the notion that there are no formal lines separating African American literature and a broader American literary tradition Crawford contends that the distinguishing feature of African American literature is a moodscape that is as stable as electricity Presenting a fresh perspective on the affective atmosphere of African American literature this compelling text frames central questions around

**What Was African American Literature?** Kenneth W. Warren, 2011-01-03 Rather than contest other definitions Warren makes a clear and compelling case for understanding African American literature as creative and critical work written by black Americans within and against the strictures of Jim Crow America Within these parameters his book outlines protocols of reading that best make sense of the literary works produced by African American writers and critics over the first two thirds of the twentieth century

Each Hour Redeem Daylanne K. English, 2013-03-29 Each Hour Redeem advances a major reinterpretation of African American literature from the late eighteenth century to the present by demonstrating how its authors are centrally concerned with racially different experiences of time Daylanne K English argues that from Phillis Wheatley to Suzan Lori Parks African American writers have depicted distinctive forms of temporality to challenge racial injustices supported by dominant ideas of time The first book to explore the representation of time throughout the African American literary canon Each Hour Redeem illuminates how the pervasive and potent tropes of timekeeping provide the basis for an overarching new understanding of the tradition Combining literary historical legal and philosophical approaches Each Hour Redeem examines a wide range of genres including poetry fiction drama slave narratives and other forms of nonfiction English shows that much of African American literature is characterized by strategic

anachronism the use of prior literary forms to investigate contemporary political realities as seen in Walter Mosley's recent turn to hard-boiled detective fiction. By contrast, strategic presentism is exemplified in the Black Arts Movement and the Harlem Renaissance and their investment in contemporary political potentialities for example in Langston Hughes and Amiri Baraka's adaptation of the jazz of their eras for poetic form and content. Overall, the book effectively demonstrates how African American writers have employed multiple and complex conceptions of time not only to trace racial injustice but also to help construct a powerful literary tradition across the centuries. *Representing the Race* Gene Andrew

Jarrett, 2011-08-08 The political value of African American literature has long been a topic of great debate among American writers both black and white from Thomas Jefferson to Barack Obama. In his compelling new book *Representing the Race*, Gene Andrew Jarrett traces the genealogy of this topic in order to develop an innovative political history of African American literature. Jarrett examines texts of every sort: pamphlets, autobiographies, cultural criticism, poems, short stories, and novels to parse the myths of authenticity, popular culture, nationalism, and militancy that have come to define African American political activism in recent decades. He argues that unless we show the diverse and complex ways that African American literature has transformed society, political myths will continue to limit our understanding of this intellectual tradition. Cultural forums ranging from the printing press, schools, and conventions to parlors, railroad cars, and courtrooms provide the backdrop to this African American literary history while the foreground is replete with compelling stories from the debate over racial genius in early American history and the intellectual culture of racial politics after slavery to the tension between copyright law and free speech in contemporary African American culture to the political audacity of Barack Obama's creative writing. Erudite yet accessible, *Representing the Race* is a bold explanation of what's at stake in continuing to politicize African American literature in the new millennium. *The Cambridge History of African American Literature* Maryemma Graham, Jerry
