**The Unnaming of Kroeber Hall**

Andrew Garrett, 2023-12-12

A critical examination of the complex legacies of early Californian anthropology and linguistics for twenty first century communities

In January 2021 at a time when many institutions were reevaluating fraught histories the University of California removed anthropologist and linguist Alfred Kroeber's name from a building on its Berkeley campus

Critics accused Kroeber of racist and dehumanizing practices that harmed Indigenous people university leaders repudiated his values

In *The Unnaming of Kroeber Hall* Andrew Garrett examines Kroeber's work in the early twentieth century and his legacy today asking how a vigorous opponent of racism and advocate for Indigenous rights in his own era became a symbol of his university's failed relationships with Native communities

Garrett argues that Kroeber's most important work has been overlooked his collaborations with Indigenous people throughout California to record their

languages and stories The Unnaming of Kroeber Hall offers new perspectives on the early practice of anthropology and linguistics and on its significance today and in the future Kroeber's documentation was broader and more collaborative and multifaceted than is usually recognized As a result the records Indigenous people created while working with him are relevant throughout California as communities revive languages names songs and stories Garrett asks readers to consider these legacies arguing that the University of California chose to reject critical self examination when it unnamed Kroeber Hall

Cohodas,2019-12-03 The peoples of northwestern California's Lower Klamath River area have long been known for their fine basketry. Two early twentieth century weavers of that region, Elizabeth Hickox and her daughter Louise, created especially distinctive baskets that are celebrated today for their elaboration of technique, form, and surface designs. Marvin Cohodas now explores the various forces that influenced Elizabeth Hickox, analyzing her relationship with the curio trade and specifically with dealer Grace Nicholson to show how those associations affected the development and marketing of baskets. He explains the techniques and patterns that Hickox created to meet the challenge of weaving design into changing three-dimensional forms. In addition to explicating the Hickoxes' basketry, Cohodas interprets its uniqueness as a form of intersocietal art, showing how Elizabeth first designed her distinctive trinket basket to convey a particular view of the curio trade and its effect on status within her community. Through its close examination of these superb practitioners of basketry, *Basket Weavers for the California Curio Trade* addresses many of today's most pressing questions in Native American art studies concerning individuality, patronage, and issues of authenticity. Graced with historic photographs and full color plates, it reveals the challenges faced by early twentieth century Native weavers. Published with the assistance of The Southwest Museum, Los Angeles.

**Monumental Lies** Ronald M. James, 2023-09-19 A playful embrace of tall tales and exaggeration, *Monumental Lies* explores the evolution of folklore in the Wild West. *Monumental Lies: Early Nevada Folklore of the Wild West* opens the door to understanding how legends and traditions emerged during the first decades following the Rush to Washoe, which transformed the region beginning in 1859. During this Wild West period, there was widespread celebration of deceit, manifesting in tall tales, burlesque, lies, practical jokes, and journalistic hoaxes. Humor was central to these endeavors, and practitioners easily found themselves scorned if they failed to be adequately funny. This ethos became central to the way folklore emerged during the formative years of the Nevada territory and state. The tens of thousands of people who came to the West, attracted by gold and silver mining, brought distinct cultural legacies. The interaction of diverse perspectives, even while new stories and traditions coalesced or simply appeared, was a complex

process Author Ronald M James addresses how the fluidity of the region affected new expressions of folklore as they took root Mark Twain often a go to source for collections of early tall tales of this region cannot be overlooked but his interaction with local traditions was specific and narrow More importantly William Wright publishing as Dan De Quille arose as a key collector of legends a counterpart of early European folklorists With a bedrock understanding of what unfolded in the nineteenth century it is possible to consider      **Concord and Conflict** Norman E.
