Girgus,1979-05-01 The Law of the Heart is a vigorous challenge to the prevailing concept of the antidemocratic image of the self in the American literary and cultural tradition Sam B Girgus counters this interpretation and attempts to develop a new understanding of democratic individualism and liberal humanism in American literature under the rubric of literary modernism The image of the individual self who retreats inward conforming to a distorted law of the heart emerges from the works of such writers as Cooper and Poe and composer Charles Ives Yet as Girgus shows other American writers relate the idea of the self to reality and culture in a more complex way the self confronts and is reconciled to the paradox of history and reality In Girgus view the tradition of pragmatic humanistic individualism provides a foundation for a future where individual liberty is a major priority He uses literary modernism as a bridge for relating contemporary social conditions to crises of the American self and culture as seen in the works of writers including Emerson Howells Whitman Henry James William James Fitzgerald Bellow and McLuhan *The Heart of the War* Julian Kennedy Smyth,1914 Out of the Treasure of the Heart
