*Principles and Practice of Geriatric Surgery* Ronnie Ann Rosenthal, Michael E. Zenilman, Mark R. Katlic, 2011-07-12 In the preface to this impressive and well produced book the editors state that their aim is not to describe a new surgical specialty since most surgeons will soon need to be geriatric surgeons but to assemble a comprehensive account that will allow all providers of healthcare to the elderly to understand the issues involved in choosing surgery as a treatment option for their patients This is a useful book that deserves to do well I hope that the editors and their publisher will have the stamina to make this the first of several editions as it is clear that updated information about surgery in the elderly will be required to keep pace with this important field NEJM Book Review *From Cancer Patient to Cancer Survivor* National Research Council, Institute of Medicine, National Cancer Policy Board, Committee on Cancer Survivorship: Improving Care and Quality of Life, 2005-12-01 With the risk of more than one in three getting cancer during a lifetime each of us is likely to experience cancer or know someone who has survived cancer Although some cancer survivors recover with a renewed sense of life and purpose what has often been ignored is the toll taken by cancer and its treatment on health functioning sense of security and well being Long lasting effects of treatment may be apparent shortly after its completion or arise years later The transition from active treatment to post treatment care is critical to long term health *From Cancer Patient to Cancer Survivor* focuses on survivors of adult cancer during the phase of care that follows primary treatment The book raises awareness of the medical functional and psychosocial consequences of cancer and its treatment It defines quality health care for cancer survivors and identifies strategies to achieve it The book also recommends improvements in the quality of life of cancer survivors through policies that ensure their access to psychosocial services fair employment practices and health insurance This book will be of particular interest to cancer patients and their advocates health care providers and their leadership health insurers employers research sponsors and the public and their elected representatives **Genomes 3** Terence A. Brown, 2007 The VitalBook e book version of *Genomes 3* is only available in the US and Canada at the present time To purchase or rent please visit <http://store.vitalsource.com/show/9780815341383> Covering molecular genetics from the basics through to genome expression and molecular phylogenetics *Genomes 3* is the latest edition of this pioneering textbook Updated to incorporate the recent major advances *Genomes 3* is an invaluable companion for any undergraduate throughout their studies in molecular genetics *Genomes 3* builds on the achievements of the previous two editions by putting genomes rather than genes at the centre of molecular genetics teaching Recognizing that molecular biology research was being driven more by genome sequencing and functional analysis than by research into genes this approach has gathered momentum in recent years **Bibliography of Scientific and Industrial Reports**, 1948 *The Unmaking of Special Rights* Klaus Dingwerth, Clara Weinhardt, Julian Eckl, Till Schöfer, Simon Herr, 2024-02-12 This is an open access title available under the terms of a CC BY NC ND 4.0 License It is free to read download and share on [Elgaronline.com](http://Elgaronline.com) In light of the many significant

recent changes to the global order The Unmaking of Special Rights explores an often forgotten aspect of this arrangement special rights for developing countries This book analyzes when and how special rights for developing countries have evolved in the context of global power shifts The Psychologist ,2004 **The Geologic Time Scale 2012** Felix Gradstein,J.G. Ogg,Mark D. Schmitz,Gabi M. Ogg,2012-09-01 The Geologic Time Scale 2012 winner of a 2012 PROSE Award Honorable Mention for Best Multi volume Reference in Science from the Association of American Publishers is the framework for deciphering the history of our planet Earth The authors have been at the forefront of chronostratigraphic research and initiatives to create an international geologic time scale for many years and the charts in this book present the most up to date international standard as ratified by the International Commission on Stratigraphy and the International Union of Geological Sciences This 2012 geologic time scale is an enhanced improved and expanded version of the GTS2004 including chapters on planetary scales the Cryogenian Ediacaran periods systems a prehistory scale of human development a survey of sequence stratigraphy and an extensive compilation of stable isotope chemostratigraphy This book is an essential reference for all geoscientists including researchers students and petroleum and mining professionals The presentation is non technical and illustrated with numerous colour charts maps and photographs The book also includes a detachable wall chart of the complete time scale for use as a handy reference in the office laboratory or field The most detailed international geologic time scale available that contextualizes information in one single reference for quick desktop access Gives insights in the construction strengths and limitations of the geological time scale that greatly enhances its function and its utility Aids understanding by combining with the mathematical and statistical methods to scaled composites of global succession of events Meets the needs of a range of users at various points in the workflow researchers extracting linear time from rock records students recognizing the geologic stage by their content *Endoscopic Diagnosis and Treatment in Urinary Bladder Pathology* Petrisor Aurelian Geavlete,2016-03-11 Endoscopic Diagnosis and Treatment in Urinary Bladder Pathology Handbook of Endourology contains five focused review oriented volumes that are ideal for students and clinicians looking for a comprehensive review rather than a whole course Topics covered review both the endourological diagnosis and treatment of prostate urethral urinary bladder upper urinary tract and renal pathology All chapters describe the most recent techniques review the latest results and analyze the most modern technologies In the past ten years the field of endourology has expanded beyond the urinary tract to include all urologic minimally invasive surgical procedures Recent advancements in robotic and laparoscopic bladder surgery make this one of the fastest moving fields in medicine As current textbooks are too time consuming for busy urologists or trainees who also need to learn other areas of urology this collection provides quick references and over 4000 images that are appropriate for fellows and those teaching in the field Offers review content for urologists in training and refresher content for experts in endourology Explores new surgical techniques and technology through review level content and extensive images of pathologies Includes over 500 images per volume images taken from

more than 4000 endourologic procedures performed annually at the editor's hospital Contains easily accessed volumes that can be accessed through eBook format      **Macromolecular Crystallography** Mark R. Sanderson, Jane V. Skelly, 2007-08-23 Macromolecular crystallography is the study of macromolecules using X ray crystallographic techniques to determine their molecular structure This title synthesises contributions from a team of internationally recognized leaders offering chapters on conventional and high throughput methods      *Oxford Textbook of Palliative Social Work* Terry Altiglio MSW, ACSW, LCSW, Shirley Otis-Green MSW, ACSW, LCSW, OSW, 2011-03-23 The Oxford Textbook of Palliative Social Work is a comprehensive evidence informed text that addresses the needs of professionals who provide interdisciplinary culturally sensitive biopsychosocial spiritual care for patients and families living with life threatening illness Social workers from diverse settings will benefit from its international scope and wealth of patient and family narratives Unique to this scholarly text is its emphasis on the collaborative nature inherent in palliative care This definitive resource is edited by two leading palliative social work pioneers who bring together an array of international authors who provide clinicians researchers policy makers and academics with a broad range of content to enrich the guidelines recommended by the National Consensus Project for Quality Palliative Care      *Sexuality and Aging* Jennifer Hillman, 2012-03-27 Despite continuing ageist beliefs that sexuality is a privilege designed only for the young and physically healthy research continues to indicate that the majority of older adults maintain interest in sexuality and may engage in fulfilling sexual behavior well into their last decade of life Unfortunately many professionals remain unaware of general knowledge of elderly sexuality including the expected and normal physiological changes that can occur within the context of both male and female aging The presence of chronic illness and other medical problems certainly can influence the expression of an aging adult's sexuality and emergent research suggests that there are effective ways to cope with menopause heart disease arthritis incontinence diabetes sleep disorders breast cancer prostate cancer and erectile dysfunction ED among others Dramatic changes have taken place within the last decade alone in terms of non surgical treatment for incontinence and ED with forms of sex therapy biofeedback and PDE 5 inhibitors Regrettably many aging adults and their care providers remain unaware of their increased risk factors for STDs including HIV infection via lack of knowledge changes in the vaginal lining and typical declines in immune function Estimates suggest that by the year 2020 more than half of all individuals living with HIV will be over the age of 50 Although some high quality professional books are available for clinicians they tend to be disjointed research bibliographies edited volumes on a narrowly focused aspect of elderly sexuality or texts that are more than 10 years old With the extent of new information available regarding sexuality and aging an up to date empirically based text is necessary      *The Psychology of Entertainment Media* L. J. Shrum, 2012-04-27 In this volume psychologists and communication experts present theory on understanding and predicting how learning occurs through media consumption As the impact of traditional advertising has declined over the last couple of decades marketers have scrambled to find other ways to effectively communicate with

consumers Among other approaches marketers have utilized various forms of product integration Product integration is mixing a commercial message in with the non commercial message via TV movie video and other entertainment venues This book will be of interest to students and researchers in psychology marketing communication advertising and consumer behavior

**The Oxford Handbook of the Archaeology of the Levant** Margreet L. Steiner, Ann E. Killebrew, 2014-01-16 This Handbook aims to serve as a research guide to the archaeology of the Levant an area situated at the crossroads of the ancient world that linked the eastern Mediterranean Anatolia Mesopotamia and Egypt The Levant as used here is a historical geographical term referring to a large area which today comprises the modern states of Israel Jordan Lebanon western Syria and Cyprus as well as the West Bank Gaza Strip and the Sinai Peninsula Unique in its treatment of the entire region it offers a comprehensive overview and analysis of the current state of the archaeology of the Levant within its larger cultural historical and socio economic contexts The Handbook also attempts to bridge the modern scholarly and political divide between archaeologists working in this highly contested region Written by leading international scholars in the field it focuses chronologically on the Neolithic through Persian periods a time span during which the Levant was often in close contact with the imperial powers of Egypt Anatolia Assyria Babylon and Persia This volume will serve as an invaluable reference work for those interested in a contextualised archaeological account of this region beginning with the agricultural revolution until the conquest of Alexander the Great that marked the end of the Persian period

**Therapeutic Kinase Inhibitors** Ingo K. Mellinghoff, Charles L. Sawyers, 2012-11-27 Cancer drug development is currently undergoing a profound shift Drugs targeting fundamental cellular processes such DNA replication and microtubule function often referred to as chemotherapy and still the backbone of most cancer treatment regimens are increasingly being complemented by or replaced with kinase inhibitors This new class of drugs targets enzymes which provide growth and survival signals to cancer

cells by transferring phosphate groups from Adenosine 5 triphosphate ATP to other proteins lipids nucleotides and carbohydrates This book summarizes the current state of kinase inhibitor therapy for cancer Successful drug development relies on the expertise and dedication of many experts To reflect this team approach to finding new kinase inhibitors and defining their optimal use for cancer treatment the editors invited experts in academia and pharmaceutical industry to share their insights into various aspects of this process ranging from the first chemical screens to preclinical testing and disease focused clinical drug development The editors and authors hope these lessons will be instructive for the novice as well as the expert

Stem Cells and Cancer Stem Cells, Volume 1 M.A. Hayat,2011-10-12 Difference between tissue specific stem cells and embryonic stem cells is explained The advantages of the latter are included The application of human pluripotent stem cells mesenchymal stem cells and hematopoietic stem cells in cancer therapy and tissue organ regeneration is detailed Role of neural cancer stem cells in brain tumors including their role in brain tumor therapy and the role of CD133 stem cell antigen in glioma patients is emphasized Therapeutic role of bone marrow derived stem cells in myocardial infarction and the role of mesenchymal stem cells in orthopedics are explained Transplantation of umbilical cord hematopoietic stem cells and allogeneic hematopoietic stem cell transplantation followed by graft versus host disease are presented Role of cancer stem cells specifically in glioblastoma and medulloblastoma is included It is also emphasized that CD133 is an appropriate stem cell marker for gliomas Targeting of cancer cells is also explained
