Youth Desistance in Transition Christopher Kay, 2025-10-20 This book offers a new and innovative way of thinking about desistance from crime fusing our understanding of desistance transitions youth transitions and the impact of

significant policy change on people with convictions in a way which is yet to be seen in the available desistance literature It offers a critical account of the ways in which young adults move away from involvement in crime while also navigating the numerous personal social and structural transitions that characterise late adolescence By exploring the desistance narratives of young adult men under community supervision in England and Wales during the part privatisation of the probation service the book demonstrates the immediate impact of significant criminal justice policy change on those on the receiving end of such change Given the expansion of neoliberal ideas in criminal justice and the ever changing nature of criminal justice policy across the world it is vital that we develop a critical understanding of the impact of these changes upon the often overlooked people on the receiving end of them if we are to understand how such changes can be successful This book provides the first of such discussions charting the ways in which people with convictions navigate seemingly all encompassing change to lead a life free from crime Youth Desistance in Transition will be of interest to students and scholars of criminology and criminal justice particularly those focused on understanding desistance pathways It will also appeal to policymakers and social workers involved with youth justice and rehabilitation Private Justice Stuart Henry,2015-07-30

Asian Models Of Entrepreneurship - From The Indian Union And Nepal To The Japanese Archipelago: Context, Policy And Practice (2nd Edition) Leo-paul Dana,2014-06-13 In this book Leo Paul Dana makes it clear that much can be learnt about the nature of entrepreneurial activity when we delve into the unique characteristics of different nations of South Asia South east Asia and East Asia Through in depth analyses and comprehensive reviews of many Asian countries the profound differences both among and within countries of the region become vividly apparent Dana juxtaposes the explosion in entrepreneurial growth within China against the struggles to build an entrepreneurial community in Japan or the enlightened public policy leadership in Singapore against the crisis driven developments in Korea The range of factors identified within each of the 15 countries examined by Dana is not an example of random influences on the entrepreneurial process because they can be construed in more systematic and logical ways Thus the book uncovers the Chinese model of gradual transition the Royal Cambodian model and the Doi Moi model among many others The reader is challenged to grasp these different models and identify their commonalities and differences *Dangerous Ground* Donald J.

Rebovich,2017-09-25 For many years if businesses were caught dumping waste it was treated more as a nuisance than as a crime the common images of the criminal and the dumper were worlds apart In *Dangerous Ground* originally published in 1992 Donald J Rebovich closes this perceptual gap providing essential information about and analysis of hazardous waste crime and the hazardous waste criminal This paperback edition includes new material noting important changes since the book s original publication Rebovich finds that the criminal dumper is usually an ordinary businessman The author s research discovers that hazardous waste disposal crimes are more likely driven by the cost of legitimate disposal options rather than by organized crime figures It is also a world where one s criminal position is often determined by industry connections and personal relationships *Dangerous Ground* places the criminal dumping culture in perspective by detailing the basics of hazardous waste generation its legitimate disposal government responses and efforts to control illegal disposal An epilogue concludes with an analysis of new threats to our environment posed by gas and oil drilling declining federal prosecutions progressive sentencing for offenders and recommendations on how the global community can effectively address international environmental crime **SNI Documents 1979 ,1980 *New Directions in Criminological Theory* Freda**
