# THE HIDDEN WOUND

"If the white man has inflicted the wound of racism upon black men, the cost has been that he must receive the mirror image of that wound into himself . . . I want to know, as fully and exactly as I can, what the wound is and how much I am suffering from it. And I want to be cured . . ."

## **The Hidden Wound:**

*The Hidden Wound* Wendell Berry, 2010-04-28 An impassioned thoughtful and fearless essay on the effects of racism on the American identity by one of our country's most humane literary voices Acclaimed as one of the most humane honest liberating works of our time *The Village Voice* *The Hidden Wound* is a book length essay about racism and the damage it has done to the identity of our country Through Berry's personal experience he explains how remaining passive in the face of the struggle of racism further corrodes America's great potential In a quiet and observant manner Berry opens up about how his attempt to discuss racism is rooted in the hope that someday the historical wound will begin to heal Pulitzer prize winning author Larry McMurtry calls this a profound passionate crucial piece of writing Few readers and I think no writers will be able to read it without a small pulse of triumph at the temples the strange almost communal sense of triumph one feels when someone has written truly well The statement it makes is intricate and beautiful sad but strong Mr Berry is a sophisticated philosophical poet in the line descending from Emerson and Thoreau *The Baltimore Sun* Berry's poems shine with the gentle wisdom of a craftsman who has thought deeply about the paradoxical strangeness and wonder of life *The Christian Science Monitor* Wendell Berry is one of those rare individuals who speaks to us always of responsibility of the individual cultivation of an active and aware participation in the arts of life *The Bloomsbury Review* Berry's poems novels and essays are probably the most sustained contemporary articulation of America's agrarian Jeffersonian ideal *Publishers Weekly* **The Hidden Wound**, 2010 With the expected grace of Wendell Berry comes *The Hidden Wound* an essay about racism and the damage it has done to the identity of our country Through Berry's personal experience he explains how remaining passive in the face of the struggle of racism further corrodes America's potential In a quiet and observant manner Berry opens up about how his attempt to discuss racism is rooted in the hope that someday the historical wound will begin to heal **The Cloaked**

**Theology of Traumatic Affect** Alice Kim, 2024-10-21 A Theology of Traumatic Affect offers theological tools language and framework to victims survivors of trauma and their communities Seen through the lens of affect theory the social dimensions of trauma emerge even for individual trauma Using an interdisciplinary approach Alice Kim argues that due to interconnectedness of individuals a communal effort is necessary for trauma work Living in a different world as imagined by public imagination is possible now with collective planetary engagement of all creatures participating in co creation The Be Happy Attitudes

Robert H. Schuller, 2002-01-05 In a society of quick fixes and instant gratification it seems as though true happiness is always just around the next bend But the happiness of the world will never offer the wholeness that makes one content and satisfied Dr Robert Schuller believes the answer to this cycle of disappointment frustration and regret can be found in one of the most famous passages in scripture Jesus Sermon on the Mount But Now I See Fred Hobson, 1999-04-01 The term conversion narrative usually refers to a particular form of expression that arose in Puritan New England in the seventeenth century In that sense the purely religious the conversion narrative belongs to a rather remote history But in this lucid pathbreaking work Fred Hobson uses the expression in another sense in the realm of the secular to describe a much more recent phenomenon one originating in the American South and marking a new mode of southern self expression not seen until the 1940s Hobson applies the term racial conversion narrative to several autobiographies or works of highly personal social commentary by Lillian Smith James McBride Dabbs Katharine Du Pre Lumpkin Sarah Patton Boyle Will Campbell Larry L King Willie Morris Pat Watters and other southerners books written between the mid 1940s and the late 1970s in which the authors all products of and willing participants in a harsh segregated society confess racial wrongdoings and are converted in varying degrees from racism to something approaching racial enlightenment Indeed the language of many of these works is Hobson points out the language of religious conversion sin guilt blindness seeing the light repentance redemption and so forth Hobson also looks at recent autobiographical volumes by Ellen Douglas Elizabeth Spencer and Rick Bragg to show how the medium persists if in a somewhat different form even at the very end of the twentieth century But Now I See is a study both of this particular variety of the southern impulse to self examination and of those who seem to have retained the habit of seeking redemption even if of a secular variety Departing from the old vertical southern religion salvation centered with heaven as its goal these racial converts embrace a horizontal religion which holds that getting right with man is at least as important as getting right with God A refreshingly original treatment of racial change in the South Hobson s provocative work introduces a new subgenre in the field of southern literature Anyone interested in the history and literature of the American South will be fascinated by this searching volume **Belonging** bell hooks, 2009-01-01 What does it mean to call a place home Who is allowed to become a member of a community When can we say that we truly belong These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book Belonging A Culture of Place Traversing past and present Belonging charts a cyclical journey in

which hooks moves from place to place from country to city and back again only to end where she began her old Kentucky home hooks has written provocatively about race gender and class and in this book she turns her attention to focus on issues of land and land ownership Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s she writes about black farmers about black folks who have been committed both in the past and in the present to local food production to being organic and to finding solace in nature Naturally it would be impossible to contemplate these issues without thinking about the politics of race and class Reflecting on the racism that continues to find expression in the world of real estate she writes about segregation in housing and economic racialized zoning In these critical essays hooks finds surprising connections that link of the environment and sustainability to the politics of race and class that reach far beyond Kentucky With characteristic insight and honesty Belonging offers a remarkable vision of a world where all people wherever they may call home can live fully and well where everyone can belong

**A Gathering of Memories** Charles R. Pinches, 2012-02-08 Biblical and personal stories illustrate how memory shapes and sustains us and how the church can teach us to remember

**Wendell Berry and the Agrarian Tradition** Kimberly K. Smith, 2014-01-17 Farmer and conservationist Wendell Berry has published more than thirty books making his name a household word among environmentalists From his Kentucky farm Berry preaches and practices stewardship of the land as he seeks to defend the value and traditions of farm life in an industrial capitalist society A central figure in the greening of American agrarianism Berry has been an advocate of small farming and traditional values who has tirelessly reminded readers that sustainable agriculture is more than a catchphrase Kimberly Smith now reveals the depth of his ideas and their relevance for American social and political theory Berry s central teaching focuses on the fragility of our natural and social worlds Smith s timely book revisits the problem of living a meaningful life in a world filled with both deadly perils and unimagined possibilities Hers is the first book to explore the implications of this central tenet and other key aspects of Berry s thought as well as his overall contribution to environmental theory and politics Smith shows how the many strands of Berry s thought can be woven together into a coherent agrarian philosophy Focusing on his relationship to the American agrarian and environmental traditions she examines how Berry s ecological agrarianism derives from the concept of grace or living in concert with nature and society Along the way she defends his social theory against accusations of utopianism shows how his moral theory subverts the notion of rugged individualism usually associated with farming and reviews his political theory s argument for decentralized democracy By assessing Berry s reformulation of democratic agrarianism Smith goes beyond any previous critiques of his writing and her exploration of Berry s moral vision shows that such vision is more relevant as America continues to move further away from its agrarian past

**The Apology the United States Owes the Vietnam Veterans** Raymond C. Christian, 2019-07-16 The hottest war zone this country has ever been in was being fought by eighteen and nineteen year boys you can call them men if

you want Since I was once a soldier and later an officer I must point out the facts of being a teenager and being a man Most of them enlisted and many were drafted to go fight the war in Vietnam While the United States of America was being defended planes began to return to the states loaded down with the bodies of these young eighteen and nineteen year old soldiers in body bags If you are not knowledgeable about the Institute of Medicine IOM You would think it is the Veterans Administration VA fault why the Vietnam Veterans have not gotten their benefits I would advise you to continue reading Then I want you to ask the question why nongovernmental researchers are being hired to do the research on Agent Orange I also want you to know the Institute of Medicine IOM is no longer under the same name They have the same function but a new name called the Health Medicine Division which is also nongovernmental As concerned citizens we must ask the question of why nongovernmental agencies are being allowed to research Agent Orange I am certain the results will not shock you as to why the VA is not able to advance the Vietnam Veterans benefits because they are receiving their reports from the HMD stating there is no correlation with Agent Orange to the sickness the Vietnam Veterans have The VA gets these reports every two years Another well kept secret is the number of agents used in Vietnam While many of you think there was just Agent Orange My research shows it was a total of six different agents used
