The Mask of Anarchy Stephen Ellis, 2001-03 An essential explanation to the 1990 civil upheaval in Liberia that rippled through West Africa For the last decade Liberia has been one of Africa's most violent trouble spots In 1990 when thousands of teenage fighters including young men wearing women's clothing and bizarre objects of decoration laid siege to the capital the world took notice Since then Liberia has been through devastating civil upheaval and the most feared warlord Charles Taylor is now president What began as a civil conflict has spread to other West African nations Western correspondents saw in the Liberian war a primeval savage Africa a heart of darkness They focused on sensational primitive aspects of the conflict such as the prevalence of traditional healers and soothsayers and shocked the international community with tales of cannibalism especially the eating of the body parts of defeated opponents which was widespread Eschewing popular stereotypes and simple explanations Stephen Ellis traces the history of the civil

war that has blighted Liberia in recent years and looks at its political ethnic and cultural roots He focuses on the role religion and ritual have played in shaping and intensifying this brutal war **The Mask of Maliban (The Secrets of Droon #13)**

Abbott,Vanessa May,Sophie Woodward,Robert Meckin,Leah Gilman,2023-11-23 This book assumes an everyday life perspective towards masking in public spaces in the UK during the Covid 19 pandemic Facemasks are perhaps one of the most tangible ways in which the changes wrought by the Covid 19 pandemic were made visible In the space of a few months in 2020 masking in the UK went from being almost non existent in public to becoming widespread both before and after the UK government mandated masking in most enclosed public spaces in July 2020 In this context the speed and scale of the introduction of masking in public settings offers sociologists a rare chance to document the contested emergence of a new social practice The authors argue that the nature of masking during the pandemic means that masking practices need to be understood through the entwinement of material interactional and moral dimensions By developing a relational perspective to explore the relationship between the materiality and moral significance of masking and how this translated into the development of masking practices in public spaces the authors argue further that the specific context of masking during the pandemic provides sociologists with a unique lens to think through the nature of material interactional and moral practices in general **The American Stationer** ,1884 Removing the Mask of Kindness Les Barbanell,2006-10-16 Character traits
