The Ends of Mourning Alessia Ricciardi,2003 The Ends of Mourning explores from an interdisciplinary perspective the contemporary crisis of mourning In an age skeptical of history and memory we relate to the past only as a spectacle a product to be consumed in the cultural marketplace The book charts the emergence and development of the problem of mourning in the writings of Freud Proust and Freud's successor Lacan Freud's idea of sorrow work and Proust's concept of involuntary memory defined the terms of the classic modernist account of mourning in the fields of psychoanalysis and literature Yet their insistence on the egotistical aspects of loss to the exclusion of all ethical and political considerations threatens the dissolution of the question of mourning

**The Politics and Pedagogy of Mourning** Timothy Secret,2015-02-26 Jacques Derrida famously stated in Specters of Marx that a justice worthy of the name must call us to render justice not only to the living but also to the dead In The Politics and Pedagogy of Mourning Timothy Secret argues that offering a persuasive account of such a duty requires establishing a discussion among the 20th century's three key thinkers on death Heidegger Levinas and Freud Despite arguing that none of these three figures discourses offers us a complete account of our duty to the dead and that it remains impossible to unify them into a single consistent and correct approach Secret nevertheless offers an account of how Derrida managed to produce an always singular articulation of these discourses in each of the acts of eulogy he offered for his philosophical contemporaries This is one of the first monographs to pay particular attention to the key role any contemporary account of the ethics of eulogy must grant to the revolutionary theoretical work on the materiality of crypts and phantoms offered by the psychoanalysts Nicolas Abraham and Maria Torok Their work is shown to supplement major limitations in traditional philosophical accounts of the ethical relation The account of eulogy as a privileged space where different discourses act on each other under the pressure of responding responsibly to an always singular loss proves itself essential reading not only for those interested in understanding Derrida's overtly political works but also offers an account of a performative training in negotiating aporias that arise in political society the result of which is a pedagogy in the art of civility whose relevance today is more timely than ever

The Politics of Mourning in Early China Miranda Brown,2012-02-01 The Politics of Mourning in Early China reevaluates the longstanding assumptions about early imperial political culture According to most explanations filial piety served as the linchpin of the social and political order as all political relations were a seamless extension of the relationship

between father and son a relationship that was hierarchical paternalistic and personal Offering a new perspective on the mourning practices and funerary monuments of the Han dynasty Miranda Brown asks whether the early imperial elite did in fact imagine political participation solely along the lines of the father son relationship or whether there were alternative visions of political association The early imperial elite held remarkably varied and contradictory beliefs about political life and they had multiple templates and changing scripts for political action This book documents and explains such diversity and variation and shows that the Han dynasty practice of mourning expressed many visions of political life visions that left lasting legacies The Ethics of Mourning R. Clifton Spargo,2004-11-18 Publisher Description **The Many Faces Of Bereavement** Ginny Sprang,John McNeil,2018-10-24 First published in 1995 Death and dying have been a concern of mankind as long as humans have existed This book will explore the development and specifications of traditional models of grief to underline the importance of what is known about the process of grief considering variables such as relationship age and personal characteristics of the mourner as well as providing a framework of symptomatology specific to non traumatizing non stigmatizing deaths for the purposes of comparative and theoretical specification It is proposed that what is known about the grief response following the death of a spouse a child or an aged parent has valuable implications for grief model development considering other modes of death such as murder drunk driving AIDS critical incidents and suicide though these conceptualizations are insufficient in explaining or predicting outcomes with these other types of grief

**Democracy and the Politics of Silence** Mónica Brito Vieira, 2024-11-19 Most people equate democracy with discussion, speech, and making one's voice heard. But where does silence fit in Democracy and the Politics of Silence investigates the largely overlooked role of silence in democratic politics. It challenges conventional wisdom by arguing that silence can support and affirm democratic pillars and outcomes like empowerment, inclusion, and equality. The book focuses on a particular set of problems concerning the relationship between political silence and the democratic triad of voice, agency, and representation. Each of the book's chapters draws on a selection of hand-picked case studies, both historical and contemporary, including the NAACP's Silent Parade in 1917, demonstrations by the Women in Black in Spain's post-Franco period, the Pact of Forgetting, Trump's silent majority debates related to the representation of nonhuman beings, and the famous Miranda judgment on the right to silence. Together, they offer an innovative, ambitious investigation of democratically undesirable silences and practices of silence that are powerfully affirmative of democratic subjectivities, aims, and norms. In thus expanding the repertoire of democratic citizenship, Mónica Brito Vieira invites readers to consider what silence might teach them about democracy. This timely book should appeal to political science students and scholars, as well as anyone interested in the history of democracies and popular resistance movements.
