Some have a greater emphasis on spoken word; others rely more on music; in any variety of styles, whether it be folk, liturgical, gospel or flat-out rock 'n' roll. But all houses of worship need a sound system that provides clarity, intelligibility and musicality.

With that in mind, we present some recent installation projects, ranging from whole system to incremental upgrades. Each took a different route in their approach, proving there are numerous solutions to any audio problem — large or small — for any sanctuary.

types," says Marc Breda, project lead for Vantage Pro. "The pastor wanted that, but he also wanted the system to be ready to take the ministry into the future." Cedar Falls is home to the University of North Iowa, where more than 10,000 students are enrolled. "They wanted a system that would also engage a younger generation who have become accustomed to sophisticated sound. L-ISA accomplishes that," Breda says.

Nathaniel Parrish, the church's music director, credited the new system as a "huge improvement in clarity and fullness. We recently had an event with 25 singers and musicians on stage, and it sounded great. We never could have pulled that off with our old sound system."
