The Official Foodie Handbook Be Modern Worship Food:

The Official Foodie Handbook Ann Barr, Paul Levy, 1984 **Foodies** Josee Johnston, Shyon Baumann, 2014-12-19 This important cultural analysis tells two stories about food. The first depicts good food as democratic. Foodies frequent hole-in-the-wall ethnic eateries, appreciate the pie found in working-class truck stops, and reject the snobbery of fancy French restaurants with formal table service. The second story describes how food operates as a source of status and distinction for economic and cultural elites, indirectly maintaining and reproducing social inequality. While the first storyline insists that anybody can be a foodie, the second asks foodies to look in the mirror and think about their relative social and economic privilege. By simultaneously considering both of these stories and studying how they operate in tension, a delicious sociology of food becomes available, perfect for teaching a broad range of cultural sociology courses. *Look Who's Cooking* Jennifer Rachel Dutch, 2018-08-03 Home cooking is a multibillion-dollar industry that includes cookbooks, kitchen gadgets, high-end appliances, specialty ingredients, and more. Cooking-themed programming flourishes on television, inspiring a wide array of celebrity chef-branded goods. Even as self-described foodies seek authenticity by pickling, preserving, and canning foods in their own home kitchens, despite this, claims that no one has time to cook anymore are common, lamenting the slow extinction of traditional American home cooking in the twenty-first century. In *Look Who's Cooking: The Rhetoric of American Home Cooking Traditions in the Twenty-First Century*, author Jennifer Rachel Dutch explores the death of home cooking narrative, revealing how modern changes transformed cooking at home from an odious chore into a concept imbued with deep meanings associated with home, family, and community. Drawing on a wide array of texts, cookbooks, advertising, YouTube videos, and more, Dutch analyzes the many manifestations of traditional cooking in America today. She argues that what is missing from the discourse around home cooking is an understanding of skills and recipes as a form of folklore. Dutch's research reveals that home cooking is a powerful vessel that Americans fill with meaning because it represents both the continuity of the past and adaptability to the present. Home cooking is about much more than what is for dinner; it's about forging a connection to the past, displaying the self in the present, and leaving a lasting legacy for the future. formed through producing material things at work but by consuming them in leisure leading to meaningless modern lives This important book reveals the cultural shift to be more complex demonstrating how people in postindustrial societies strive to form meaningful and moral selves through both the consumption and production of material culture in leisure Focusing on the material culture of food the book explores these theoretical questions through an ethnography of those individuals for whom food is central to their self foodies It examines what foodies do and why they do it through an in depth study of their lived experiences The book uncovers how food offers a means of shaping the self not as a consumer but as an amateur who engages in both the production and consumption of material culture and adopts a professional approach which reveals the new moralities of productive leisure in self formation The chapters examine a variety of practices from fine dining and shopping to cooking and blogging and include rare data on how people use media such as cookbooks food television and digital food media in their everyday life This book is ideal for students scholars and anyone interested in the meaning of food in modern life

The Food Movement, Culture, and Religion Jonathan Schorsch, 2017-12-12 This book explores the cultural and religious politics of the contemporary food movement starting from the example of Jewish foodies their zeal for pig forbidden by Jewish law and their talk about why ignoring traditional precepts around food is desirable Focusing on the work of Michael Pollan Jonathan Schorsch questions the modernist materialist and rationalist worldview of many foodies and discusses their lack of attention to culture tradition and religion

Meals Matter Michael Symons, 2020-06-02 Until the early nineteenth century political philosophy and economics were dining companions Both took up fundamental questions of how we should feed one another But with the rise of corporate capitalism modern economics lost sight of its primary task and turned away from the complexities of real people s sustenance in favor of the single minded pursuit of money In *Meals Matter* Michael Symons returns economics to its roots in the distribution of food and the labor required Setting the table with vivid descriptions of conviviality he offers a gastronomic rebuttal to the narrow worldview of mainstream economics Engaging with a wide variety of thinkers including Epicurus Enlightenment philosophers such as Thomas Hobbes and John Locke the gastronome Jean Anthelme Brillat Savarin and economic theorists from François Quesnay and Adam Smith through the neoliberals Symons traces how we went astray and how we can find our way back to a more caring sustainable way of life He finds hope for shared table pleasure in institutions like community gardens street markets and banquets and in eating fresh local and slow food An innovative historically based argument at the intersection of food history and social thought *Meals Matter* challenges us to reject the economics of greed in favor of a community based economics of sharing and gastronomic enjoyment

Eating and Being Steven Shapin, 2024-11-20 What we eat who we are and the relationship between the two Eating and Being is a history of Western thinking about food eating knowledge and ourselves In modern thought eating is about what is good for you not about what is good Eating is about health not about virtue Yet this has not always been the case For a great span of the past from antiquity through about the middle of the eighteenth century one of the most pervasive branches of medicine was known as dietetics prescribing not only what people should eat but also how they should order many aspects of their lives including sleep exercise and emotional management Dietetics did not distinguish between the medical and the moral nor did it acknowledge the difference between what was good for you and what was good Dietetics counseled moderation in all things where moderation was counted as a virtue as well as the way to health But during the nineteenth century nutrition science began to replace the language of traditional dietetics with the vocabulary of proteins fats carbohydrates and calories and the medical and the moral went their separate ways Steven Shapin shows how much depended upon that shift and he also explores the extent to which the sensibilities of dietetics have been lost Throughout this rich history he evokes what it felt like to eat during another historical period and invites us to reflect on what it means to feel about food as we now do Shapin shows how the change from dietetics to nutrition science fundamentally altered how we think about our food and its powers our bodies and our minds

Ancient Jewish Food in Its Geographical and Cultural Contexts Susan Weingarten, 2025-03-25 This book is the first in depth study of food in talmudic literature in its geographical and cultural contexts It demonstrates the sharing of foods and foodways between Jews and their non Jewish neighbours in the Near East in Late Antiquity Using both ancient written sources and archaeological evidence this book sets the foods of the Mishnah and Palestinian Talmud in their Graeco Roman context and the foods of the Babylonian Talmud and the ge onim in their Persian and Arab contexts It explores practices of food preparation and their contribution to the ancient diet as well as analysing the relationships between food status and culture The rabbinical authors of talmudic literature were more concerned with

everyday food than were aristocratic Classical authors by examining both talmudic sources and archaeological finds this book paints a new picture of the diet lifestyle and culture of ordinary people Ancient Jewish Food in Its Geographical and Cultural Contexts will interest Food Historians as well as students and scholars of Jewish Studies particularly the period of the Mishnah and Talmud as well as those dealing with the wider social and cultural history of the Ancient Near East

Behind the Kitchen Door Saru Jayaraman, 2013-01-23 When you work in restaurants you think the industry is everything It's being outside talking to people serving people You feel like you're part of something good People mostly go out to eat for good stuff proposals weddings birthdays not to fight You're part of someone's proposal you bring the ring in an ice cream cake you watch her reaction You feel like you're part of their experience their special moment even if the people don't care who you are you're just the server Sustainability is about contributing to a society that everybody benefits from not just going organic because you don't want to die from cancer or have a difficult pregnancy What is a sustainable restaurant It's one in which as the restaurant grows the people grow with it How do restaurant workers live on some of the lowest wages in America And how do poor working conditions discriminatory labor practices exploitation and unsanitary kitchens affect the meals that arrive at our restaurant tables Saru Jayaraman who launched the national restaurant workers organization Restaurant Opportunities Centers United sets out to answer these questions by following the lives of restaurant workers in New York City Washington D C Philadelphia Los Angeles Chicago Houston Miami Detroit and New Orleans Blending personal narrative and investigative journalism Jayaraman shows us that the quality of the food that arrives at our restaurant tables depends not only on the sourcing of the ingredients Our meals benefit from the attention and skill of the people who chop grill sauté and serve Behind the Kitchen Door is a groundbreaking exploration of the political economic and moral implications of dining out Jayaraman focuses on the stories of individuals like Daniel who grew up on a farm in Ecuador and sought to improve the conditions for employees at Del Posto the treatment of workers behind the scenes belied the high-toned Slow Food ethic on display in the front of the house Increasingly Americans are choosing to dine at restaurants that offer organic fair trade and free range ingredients for reasons of both health and ethics Yet few of these diners are aware of the working conditions at the restaurants themselves But whether you eat haute cuisine or fast food the well-being of restaurant workers is a pressing concern affecting our health and safety local economies and the life of our communities Highlighting the roles of the 10 million people many immigrants many people of color who bring their passion tenacity and vision to the American dining experience Jayaraman sets out a bold agenda to raise the living standards of the nation's second largest private sector workforce and ensure that dining out is a positive experience on both sides of the kitchen door

Discriminating Taste S. Margot Finn, 2017-04-24 For the past four decades increasing numbers of Americans have started paying greater attention to the food they eat buying organic vegetables drinking fine wines and seeking out exotic cuisines Yet they are often equally passionate about the items they refuse to eat processed foods generic brands high carb meals While they may care deeply

about issues like nutrition and sustainable agriculture these discriminating diners also seek to differentiate themselves from the unrefined eater the common person who lives on junk food Discriminating Taste argues that the rise of gourmet ethnic diet and organic foods must be understood in tandem with the ever widening income inequality gap Offering an illuminating historical perspective on our current food trends S Margot Finn draws numerous parallels with the Gilded Age of the late nineteenth century an era infamous for its class divisions when gourmet dinners international cuisines slimming diets and pure foods first became fads Examining a diverse set of cultural touchstones ranging from Ratatouille to The Biggest Loser Finn identifies the key ways that good food has become conflated with high status She also considers how these taste hierarchies serve as a distraction leading middle class professionals to focus on small acts of glamorous and virtuous consumption while ignoring their class s larger economic stagnation A provocative look at the ideology of contemporary food culture Discriminating Taste teaches us to question the maxim that you are what you eat
