## **The Old Americans A Physiological Profile:**

The Old Americans: a Physiological Profile Aleš Hrdlička, 1970      Bioarchaeological Analyses and Bodies Pamela K. Stone, 2018-01-16 This volume features bioarchaeological research that interrogates the human skeleton in concert with material culture ethnographic data and archival research This approach provides examples of how these intersections of inquiry can be used to consider the larger social and political contexts in which people lived and the manner in which they died Bioarchaeologists are in a unique position to develop rich interpretations of the lived experiences of skeletonized individuals Using their skills in multiple contexts bioarchaeologists are also situated to consider the ethical nature and inherent humanity of the research collections that have been used because they represent deceased for whom there are records identifying them These collections have been the basis for generating basic information regarding the human skeletal transcript Ironically though these collections themselves have not been studied with the same degree of understanding and interpretation that is applied to archaeological collections      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1971      *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70      **Declared Defective** Robert Jarvenpa, 2018-05-01 Declared Defective is the anthropological history of an outcaste community and a critical reevaluation of The Nam Family written in 1912 by Arthur Estabrook and Charles Davenport leaders of the early twentieth century eugenics movement Based on their investigations of an obscure rural enclave in upstate New York the biologists were repulsed by the poverty and behavior of the people in Nam Hollow They claimed that their alleged indolence feeble mindedness licentiousness alcoholism and criminality were biologically inherited Declared Defective reveals that Nam Hollow was actually a community of marginalized mixed race Native Americans the Van Guilders adapting to scarce resources during an era of tumultuous political and economic change Their Mohican ancestors had lost lands and been displaced from the frontiers of colonial expansion in western Massachusetts in the late eighteenth century Estabrook and Davenport s portrait of innate degeneracy was a grotesque mischaracterization based on class prejudice and ignorance of the history and hybridic subculture of the people of Guilder Hollow By bringing historical experience agency and cultural process to the forefront of analysis Declared Defective illuminates the real lives and struggles of the Mohican Van Guilders It also exposes the pseudoscientific zealotry and fearmongering of Progressive Era eugenics while exploring the contradictions of race and class in America      **Exercise Physiology** William McArdle, Frank I. **The American Dream** Jim Cullen,2003-02-06

The American Dream is one of the most familiar and resonant phrases in our national lexicon so familiar that we seldom pause to ask its origin its history or what it actually means In this fascinating short history Jim Cullen explores the meaning of the American Dream or rather the several American Dreams that have both reflected and shaped American identity from the Pilgrims to the present Cullen notes that the United States unlike most other nations defines itself not on the facts of blood religion language geography or shared history but on a set of ideals expressed in the Declaration of Independence and consolidated in the Constitution At the core of these ideals lies the ambiguous concept of the American Dream a concept that for better and worse has proven to be amazingly elastic and durable for hundreds of years and across racial class and other demographic lines The version of the American Dream that dominates our own time what Cullen calls the Dream of the Coast is one of personal fulfillment of fame and fortune all the more alluring if achieved without obvious effort which finds its most insidious expression in the culture of Hollywood
