## **The Only Rose:**

[Chasing the Rose](#) Andrea Di Robilant,2014-05-06 From the author of the best selling A Venetian Affair here is the charming chronicle of his search for the identity of a mysterious old rose Andrea di Robilant s tale takes us back to the time of Josephine Bonaparte as well as into some of the most delightful rose gardens in Italy today brought to colorful life on the page in the watercolors of artist Nina Fuga In his 2008 biography of the Venetian lady Lucia Mocenigo his great great great great grandmother di Robilant described a pink rose that grows wild on the family s former country estate mentioning its light peach and raspberry scent This passing detail led to an invitation for an audience with a local rose doyenne Eleonora Garlant She and other experts wondered if di Robilant s unnamed rose could possibly be one of the long lost China varieties that nineteenth century European growers had cultivated but which have since disappeared On the hunt for the identity of his anonymous yet quietly distinctive rose Di Robilant finds himself captivated by roseophiles through time from Lucia and her friend Josephine Bonaparte to the gifted Eleonora whose garden of nearly fifteen hundred varieties of old roses is one of the most significant in Europe and by the roses themselves each of which has a tale to tell What starts out as a lighthearted quest becomes a meaningful journey as di Robilant contemplates the enduring beauty of what is passed down to us in a rose through both the generosity of nature and the cultivating hand of human beings who for centuries have embraced and extended the life of this mysterious flower

The Early Reformation on the Continent offers a fresh look at the formative years of the European Reformation and the origins of Protestant faith and practice Taking into account recent work on Erasmus and Luther Owen Chadwick handles these and numerous other figures and with sensitivity and understanding Emphasis on the context provides a balanced view of the *raison d'etre* for the changes which the reforming communities sought to introduce and the difficulties and disagreements concerning these The structure of the book is distinctively original Rather than following a conventional chronological progression Owen Chadwick takes a much broader perspective and arranges his material thematically Whatever the topic the Bible clerical celibacy moral questions of adultery and divorce purgatory hymns excommunication the role of the State in worship and pastoral activity education the Eucharist the reader is taken back to its origins and development through the history of the western Church and given an authoritative accessible and informative account

**The Galaxy** William Conant Church,1868    Debates over the Resurrection of the Dead

Outi Lehtipuu,2015-02-12 In Debates over the Resurrection of the Dead Outi Lehtipuu highlights the striking observation that in many early texts the way that belief in resurrection is formulated is used as a sign of inclusion and exclusion not only in relation to non Christians but vis vis other Christians Those who teach otherwise have deviated from the truth are not true Christians and do the works of the devil Using insights from the sociological study of deviance Dr Lehtipuu demonstrates that labelling was used as a tool for marking boundaries between those who belonged and those who did not This was extremely important in the fluid conditions where the small Christian minority groups found themselves In a situation where there were no universally accepted structures that defined what constituted the true Christian belief several competing interpretations and their representatives struggled for recognition of their views based on what they believed to be the apostolic tradition The most hotly debated aspect of resurrection was whether it would entail the body of flesh and blood or not When resurrection would take place was closely related to this Controversies died since the scriptural legacy was ambiguous enough to allow different hermeneutical solutions The battle over resurrection was closely related to the question of how scriptures were to be understood as well as to what constituted the human self that would survive death To demonstrate this a wide variety of texts are studied from theological treatises including relevant Nag Hammadi texts to apocryphal acts and martyrologies Acknowledging the complexity and diversity of the early Christian movement this volume views early Christian discourse as part of the broader ancient discursive world where similar debates were going on among both Jews and the majority population
