*There Is a Garden in the Mind* Paul A. Lee, 2013-03-12 *There Is a Garden in the Mind* presents an engaging look at the work and life of pioneering organic gardener Alan Chadwick and his profound influence on the organic farming movement In this wide ranging and philosophical memoir author Paul Lee recounts his first serendipitous meeting with Chadwick in Santa Cruz California in 1967 and their subsequent founding of the Chadwick Garden at UC Santa Cruz the first organic and biointensive garden at a U S university Today there are few who would dispute the ecological and health benefits of organically produced food and the student garden project founded by Chadwick and Lee has evolved into a world renowned research center that helps third world farmers obtain high yields using organic gardening But when Chadwick and Lee first broke ground in the 1960s the term organic belonged to the university s chemists and the Chadwick Garden spurred a heated battle against the whole system of industrial existence Lee s memoir contextualizes this struggle by examining the centuries old history of the conflict between

industrial science and organic nature the roots of the modern environmental movement and the slow food movement and the origin of the term organic His account of Chadwick s work fills in a gap in the history of the sustainable agriculture movement and proposes that Chadwick s groundwork continues to bear fruit in today s burgeoning urban garden locavore and self sufficiency movements Table of contents Chapter one The English Gardener Arrives Chapter two The English Gardener Goes to Work Chapter three The Garden Plot Chapter four Goethe the Vitalist contra Newton the Physicalist Chapter five Urea I Found It Chapter six USA and Earth Day Chapter seven The Method Chapter eight Chadwick Departs Chapter nine A Moral Equivalent of War Chapter ten The Death of Chadwick Chapter eleven California Cuisine and the Homeless Garden Project Chapter twelve A Biodynamic Garden on Long Island Chapter thirteen Chadwick s Legacy
