Narrative Ontology Axel Hutter, 2021-11-18 This book is a critical inquiry into three ideas that have been at the heart of philosophical reflection since time immemorial freedom God and immortality Their inherent connection has disappeared from our thought We barely pay attention to the latter two ideas and the notion of freedom is used so loosely today that it has become vacuous Axel Hutter's book seeks to remind philosophy of its distinct task only in understanding itself as human self knowledge that articulates itself in these three ideas will philosophy do justice to its own concept In developing this line of argument Hutter finds an ally in Thomas Mann whose novel *Joseph and His Brothers* has more to say about freedom God and immortality than most contemporary philosophy does Through his reading of Mann's novel Hutter explores these three ideas in a distinctive way He brings out the intimate connection between philosophical self knowledge and narrative form Mann's novel gives expression to the depth of human self understanding and thus demands a genuinely philosophical interpretation In turn philosophical concepts are freed from abstractness by resonating with the novel's motifs and its rich language *Narrative Ontology* is both a highly original work of philosophy and a vigorous defence of humanism It brings together philosophy and literature in a creative way it will be of great interest to students and scholars in philosophy literature and the humanities in general

Prequels, Coquels and Sequels in Contemporary Anglophone Fiction Armelle Parey,2018-09-03 This book offers to delineate a key phenomenon in contemporary Anglophone fiction novel expansion when the plot and characters from a finished novel are retrieved to be developed in new adventures set before after or during the narrative time of the source text If autographic and allographic sequels are almost as old as literature prequels that imagine the anteriority of a narrative and coquels that develop secondary characters in the same story time as the source text are more recent The overall trend for novel expansion spread in the mid 1980s and 1990s and has since shown no sign of abating This volume is organised following three types of relationships to the source texts even if these occasionally combine to produce a more complex structure This book comprises 11 essays preceded by an introduction that examine narrative strategies aesthetic ethical and political tendencies underlying these novel expansions Following the overview provided in the introduction the reader will find case studies of prequels coquels and sequels before a final chapter that encompasses them all and more

Armand V Dag Solstad, 2018-05-29 New Directions proudly introduces two novels in English by the Norwegian master who is without question Norway's bravest most intelligent novelist Per Petterson Armand is a diplomat rising through the ranks of the Norwegian foreign office but he's caught between his public duty to support foreign wars in the Middle East and his private disdain for Western intervention He hides behind knowing ironic statements which no one grasps and which change nothing Armand's son joins the Norwegian SAS to fight in the Middle East despite being specifically warned against such a move by his father and this leads to catastrophic heartbreaking consequences Told exclusively in footnotes to an unwritten book this is Solstad's radically unconventional novel about how we experience the passing of time how it fragments drifts quickens and how single moments can define a life [The Déjà-vu and the Authentic](#)

Books in Motion Mireia Aragay, 2005 *Books in Motion* addresses the hybrid interstitial field of film adaptation. The introductory essay integrates a retrospective survey of the development of adaptation studies with a forceful argument about their centrality to any history of culture any discussion that is of the transformation and transmission of texts and meanings in and across cultures. The thirteen especially composed essays that follow organised into four sections headed Paradoxes of Fidelity Authors Auteurs Adaptation Contexts Intertexts Adaptation and Beyond Adaptation variously illustrate that claim by problematising the notion of fidelity highlighting the role played by adaptation in relation to changing concepts of authorship and auteurism exploring the extent to which the intelligibility of film adaptations is dependent on contextual and intertextual factors and making a claim for the need to transcend any narrowly defined concept of adaptation in the study of adaptation. Discussion ranges from adaptations of established classics like *A Tale of Two Cities* *Frankenstein* *Henry V* *Le temps retrouvé* *Mansfield Park* *Pride and Prejudice* *The Dead* or *Wuthering Heights* to contemporary popular texts films like *Bridget Jones's Diary* *Fools* *The Governess* *High Fidelity* *The Hours* *The Orchid Thief*. Adaptation the work of Doris D rrie the first Harry Potter novel film or the adaptations made by Alfred Hitchcock Stanley Kubrick and Walt Disney. This book will appeal to both a specialised readership and to those accessing the dynamic field of adaptation studies for the first time
