Skylines and Other Dominance-Based Queries Apostolos N. Papadopoulos, Eleftherios Tiakas, Theodoros Tzouramanis, Nikolaos Georgiadis, Yannis Manolopoulos, 2022-06-01 This book is a gentle introduction to dominance based query processing techniques and their applications The book aims to present fundamental as well as some advanced issues in the area in a precise but easy to follow manner Dominance is an intuitive concept that can be used in many different ways in diverse application domains The concept of dominance is based on the values of the attributes of each object An object dominates another object if it is better than This goodness criterion may differ from one user to another However all decisions boil down to the minimization or maximization of attribute values In this book we will explore algorithms and applications related to dominance based query processing The concept of dominance has a long history in finance and multi criteria optimization However the introduction of the concept to the database community in 2001 inspired many researchers to contribute to the area Therefore many algorithmic techniques have been proposed for the efficient processing of dominance based queries such as skyline queries dominant queries and top dominating queries just to name a few *Mechanics of Running Skylines* Charles N. Mann, 1969 A pamphlet describing and illustrating the mechanics of running skyline systems Skyline analysis with model work sheet and illustrative calculations is provided CFD *Planning Single-span Skylines* Virgil W. Binkley, 1968 US Forest Service pamphlet outlines essentials for a yarding system using single span skylines Illustrated by drawings CFD **Weird N. J.** Mark Moran, Mark Sceurman, 2009-05 Explores haunted places local legends crazy characters and unusual roadside attractions found in New Jersey **The Art of Awakening** Konchog Lhadrepa, Charlotte Davis, 2017-04-11 A presentation on the Tibetan Buddhist path to enlightenment through the lens of an artist's eye and experience The sacred arts play an essential intrinsic role in Tibetan Buddhist practice Here one of the great practitioners and master artists of our time presents a guide to the Tibetan Buddhist path from preliminary practices through enlightenment from the artist's perspective With profound wisdom he shows how visual representations of the sacred in paintings sculptures mandalas and stupas can be an essential support to practice throughout the path This work based on the author's landmark Tibetan text *The Path to Liberation* includes basic Buddhist teachings and practices clearly pointing out the relevance of these for both the sacred artist and the practitioner along with an overview of the history and iconography of Buddhist art **Future Skylines** Everett Sinclair, AI, 2025-02-21 Future Skylines explores a future where cities grow upwards not just outwards by integrating high rise buildings vertical farming and green architecture These elements can create urban environments that are both sustainable and livable The book highlights how advancements in architectural engineering now allow for taller more efficient structures It also delves into how green architectural principles such as integrating parks into building design can improve air quality and reduce energy consumption The book examines the historical context of urban development tracing how cities evolved into dense vertical environments It argues that integrating

high rise buildings vertical farms and green architecture requires careful planning and interdisciplinary collaboration The book presents this information through architectural plans engineering reports and scientific studies The book progresses by first introducing sustainable urbanization concepts It then dedicates sections to high rise buildings vertical farming and green architecture exploring their technologies and design principles Finally it synthesizes these elements showcasing integrated urban design strategies and case studies of successful implementations
