Slave Trade Slavery And Colour:

The slave trade : Slavery and color Theodore D. Jervey, 2025-03-02 In *The Slave Trade Slavery and Color* Theodore D. Jervey presents a compelling and nuanced examination of the intersections between racial identity and the transatlantic slave trade. Delving into historical accounts, legal documents, and personal narratives, Jervey employs a critical analytical lens, weaving together a tapestry of human experience that elucidates the painful realities of slavery. Writing in a style that marries scholarly rigor with accessible prose, he encourages readers to confront the complexities of race and morality embedded in the institution of slavery, positioning the work within the growing body of literature that seeks to reconcile America's past with its present socio-political landscape. Theodore D. Jervey is a historian and cultural critic with a keen interest in the socio-political ramifications of historical injustices. His academic background and deep commitment to uncovering marginalized voices have equipped him with unique insights into the subject of slavery and its enduring legacy on contemporary society. Jervey's extensive research, travels, and archival work have allowed him to engage intimately with the narratives of those who suffered under the yoke of slavery, instilling his writing with both authenticity and urgency. This profound exploration not only serves as an essential resource for scholars of American history and cultural studies but also speaks to a wider audience interested in understanding the long-lasting effects of slavery on American identity. I highly recommend *The Slave Trade Slavery and Color* for anyone seeking a thought-provoking read that challenges preconceived notions of race and history while providing a necessary context for ongoing discussions about equality and justice.

The Slave Trade Theodore Dehon Jervey, 2023-12-31 This insightful 1925 book traces the evolution of what was called the Negro Question in America, specifically examining the role of South Carolina in shaping early policies and attitudes. It analyzes key debates and votes in the state legislature and Constitutional Convention regarding slavery and the slave trade. The book highlights influential figures like Calhoun who pushed the state towards staunch pro-slavery views, as well as dissenting voices warning of the dangers of rapid expansion of slave populations. Though dense with detail at times, the book offers an illuminating window into the political and economic machinations that ensnared South Carolina and the South in systems of bondage. Overall, it provides a thought-provoking perspective on the complex forces driving America's gravest moral failure.

Gatewood,2000-05-01 Every American city had a small self aware and active black elite who felt it was their duty to set the standard for the less fortunate members of their race and to lead their communities by example Professor Gatewood s study examines this class of African Americans by looking at the genealogies and occupations of specific families and individuals throughout the United States and their roles in their various communities from publisher description *The Colours of the Empire* Patrícia Ferraz de Matos,2013-02-01 The Portuguese Colonial Empire established its base in Africa in the fifteenth century and would not be dissolved until 1975 This book investigates how the different populations under Portuguese rule were represented within the context of the Colonial Empire by examining the relationship between these representations and the meanings attached to the notion of race Colour for example an apparently objective criterion of classification became a synonym or near synonym for race a more abstract notion for which attempts were made to establish scientific credibility Through her analysis of government documents colonial propaganda materials and interviews the author employs an anthropological perspective to examine how the existence of racist theories originating in the eighteenth and nineteenth centuries went on to inform the policy of the Estado Novo Second Republic 1933 1974 and the production of academic literature on race in Portugal This study provides insight into the relationship between the racist formulations disseminated in Portugal and the racist theories produced from the eighteenth century onward in Europe and beyond *Race and Racism in the United States* Charles A. Debating the Slave Trade Srividhya Swaminathan, 2016-05-13 How did the arguments developed in the debate to abolish the slave trade help to construct a British national identity and character in the late eighteenth century Srividhya Swaminathan examines books pamphlets and literary works to trace the changes in rhetorical strategies utilized by both sides of the abolitionist debate Framing them as competing narratives engaged in defining the nature of the Briton Swaminathan reads the arguments of pro and anti abolitionists as a series of dialogues among diverse groups at the center and peripheries of the empire Arguing that neither side emerged triumphant Swaminathan suggests that the Briton who emerged from these debates represented a synthesis of arguments and that the debates to abolish the slave trade are marked by rhetorical transformations defining the image of the Briton as one that led naturally to nineteenth century imperialism and a sense of global superiority Because the slave trade debates were waged openly in print rather than behind the closed doors of Parliament they exerted a singular influence on the British public At their height between 1788 and 1793 publications numbered in the hundreds spanned every genre and circulated throughout the empire Among the voices represented are writers from both sides of the Atlantic in dialogue with one another such as key African authors like Ignatius Sancho Phillis Wheatley and Olaudah Equiano West India planters and merchants and Quaker activist Anthony Benezet Throughout Swaminathan offers fresh and nuanced readings that eschew the view that the abolition of the slave trade was inevitable or that the ultimate defeat of pro slavery advocates was absolute

The Rise of the Trans-Atlantic Slave Trade in Western Africa, 1300-1589 Toby Green, 2011-10-10 The region between the river Senegal and Sierra Leone saw the first trans Atlantic slave trade in the sixteenth century Drawing on many new sources Toby Green challenges current quantitative approaches to the history of the slave trade New data on slave origins can show how and why Western African societies responded to Atlantic pressures Green argues that answering these questions requires a cultural framework and uses the idea of creolization the formation of mixed cultural communities in the era of plantation societies to argue that preceding social patterns in both Africa and Europe were crucial Major impacts of the sixteenth century slave trade included political fragmentation changes in identity and the re organization of ritual and social patterns The book shows which peoples were enslaved why they were vulnerable and the consequences in Africa and beyond

White on Black Jan Nederveen Pieterse, 1992-01-01 White on Black is a compelling visual history of the development of European and American stereotypes of black people over the last two hundred years Its purpose is to show the pervasiveness of prejudice against blacks throughout the western world as expressed in stock in trade racist imagery and caricature Reproducing a wide range of illustrations from engravings and

lithographs to advertisements candy wrappings biscuit tins dolls posters and comic strips the book challenges the hidden assumptions of even those who view themselves as unprejudiced Jan Nederveen Pieterse sets Western images of Africa and blacks in a chronological framework including representations from medieval times from the colonial period with its explorers settlers and missionaries from the era of slavery and abolition and from the multicultural societies of the present day Pieterse shows that blacks have been routinely depicted throughout the West as servants entertainers and athletes and that particular countries have developed their own comforting black stereotypes about blacks Sambo and Uncle Tom in the United States Golliwog in Britain Bamboula in France and Black Peter in the Netherlands Looking at conventional portrayals of blacks in the nursery in sexual arenas and in commerce and advertising Pieterse analyzes the conceptual roots of the stereotypes about them The images that he presents have a direct and dramatic impact and they raise questions about the expression of power within popular culture and the force of caricature humor and parody as instruments of oppression

Decolonizing Contemporary Gospel Music Through Praxis Robert Beckford, 2023-08-24 Is contemporary Black British gospel music a coloniality What theological message is really conveyed in these songs In this book Robert Beckford shows how the Black British contemporary gospel music tradition is in crisis because its songs continue to be informed by colonial Christian ideas about God Beckford explores the failure of both African and African Caribbean heritage Churches to Decolonise their faith especially the doctrine of God biblical interpretation and Black ontology This predicament has left song leaders musicians and songwriters with a reservoir of ideas that aim to disavow engagement with the social historical world black Biblical interpretation and the necessity of loving blackness This book is decolonisation through praxis Reflecting on the conceptual social justice album The Jamaican Bible Remix 2017 as a communicative resource Beckford shows how to develop production tools to inscribe decolonial theological thought onto Black British music s The outcome of this process is the creation of a decolonial contemporary gospel music genre The impact of the album is demonstrated through case studies in national and international contexts

Desiring Whiteness Caroline Séquin, 2024-10-15 Desiring Whiteness uncovers the intertwined histories of commercial sex and racial politics in France and the French Empire Since the French Revolution of 1789 the absence of laws banning interracial marriages has served to reinforce two myths about modern France first that it is a sexual democracy and second it is a color blind nation where all French citizens can freely marry whomever they wish regardless of their race Caroline S quin challenges the narrative of French exceptionalism by revealing the role of prostitution regulation in policing intimate relationships across racial and colonial boundaries in the century following the abolition of slavery Desiring Whiteness traces the rise and fall of the French model of prostitution policing in the contact zones of port cities and garrison towns across France and in Dakar Senegal the main maritime entry point of French West Africa S quin describes how the regulation of prostitution covertly policed racial relations and contributed to the making of white French identity in an imperial nation state that claimed to be race blind She also examines how sex industry workers

exploited reinforced or transgressed the racial boundaries of colonial rule Brothels served as gatekeepers of whiteness in two arenas In colonial Senegal white only brothels helped deter French colonists from entering unions with African women and producing mixed race children thus consolidating white minority rule In the metropole brothels condoned interracial sex with white sex workers while dissuading colonial men from forming long term attachments with white French women Ultimately brothels followed a similar racial logic that contributed to upholding white supremacy **Tait's Edinburgh magazine**, 1857 The Problem of the Color Line at the Turn of the Twentieth Century W. E. B. Du Bois, 2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois s thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois s 1903 masterpiece *The Souls of Black Folk* The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois s everyday intellectual and scholarly reference These essays commence at the moment of Du Bois s return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois s first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply refracting dimensions They close with Du Bois s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois s thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker A seminal contribution to the history of modern thought Compiled and edited by the world s preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler s brilliant original and quite riveting introduction If you are coming to Du Bois for the first time or the 500th time this book is a must read Robin D G Kelley author of *Freedom Dreams The Black Radical Imagination*
