Slipping To Normal A Matter Of Leadership:

Slipping to Normal Bill Arthur, 2004-08 Leaders reported for white collar mischief by the media haven't done it the first time in their lives Life just isn't that way Immorality is a habit one develops that usually ends in headlines In Slipping to Normal author Bill Arthur applies an adage Every society normalizes its own moral sickness to show why we make bad choices Slipping to Normal is about the leader whose bad choice is simply to look the other way and rationalize misconduct with attitudes such as Everybody does it so why bother trying to change it As long as subordinates do their work I don't worry about how It is hard enough for corporate executives just to sustain focus on business objectives deep into the organization without trying to make people good Financial reward is the only goal in business is a frequent complaint about business but this doesn't reach the deep seeded motivations down in the trenches The declining influence of the church is also a factor but it is still a player in our society Slipping to Normal draws upon Biblical teachings to offer some ideas to regain our moral backbone

While there are millions of graduates leaving colleges and universities every year, major statistics show that more than 53 percent of these graduates are either unemployed or underemployed. In addition, many young people today fail to live up to their potential or even attempt to achieve their dreams due to lack of confidence in their abilities, that often results from not being given permission to be and develop who they truly are. In **THE NEW GENERATION OF LEADERSHIP**, the authors give outright permission and share practical steps, inspiring stories, and anecdotes, helpful principles, and uncommon truths in the nurturing of those innate qualities that will help young people increase their value, excel, and stand out from the crowd.

Navigating an Organizational Crisis Harry Hutson, Martha Johnson, 2016-01-18. How are leaders facing a crisis supposed to handle and overcome an unknowable set of issues? This book demonstrates how effective leaders under pressure work from an understanding of the situation at hand and of their impact on others, and explains how leaders can best apply their internal strengths. Most leaders are steeped in risk management, crisis response tactics, readiness for

disaster continuity of operations planning and logistical and agility capabilities These preparations are critical but not complete The reality is that even experienced leaders themselves need guidance when it comes to managing a crisis This standout book fills that need drawing on interviews with successful leaders research findings on trauma neuroscience and crisis management and the authors own extensive career experiences The chapters suggest and probe ideas from various angles rather than promoting simplistic formulas or nostrums that are unlikely to apply to all circumstances and present new angles on self awareness and management under pressure for the practitioner The book leads off with a description of organizational disaster and crisis leadership topics of considerable concern as disasters are becoming the new normal The authors then explore three critical but very different types of responses by leaders at such a time recognition and response care of self and others and storytelling A detailed case study of a leader in the midst of Hurricane Katrina the most expensive natural disaster in U S history provides readers with a real world practicum for the theories and ideas suggested
