Manager's Primer on e-Networking Dragan Nikolic,2012-09-10 The implementation of Enterprise Networks or e Networking
is of paramount importance for organisations Enterprise wide networking would warrant that the components of information
architecture are organised to harness more out of the organisation s computing power on the desktop This would also involve
establishment of networks that link the various but important subsystems of the enterprise Our firm belief is that in order to
gain a competitive edge the organisations need knowledge and sound strategy This conviction is particularly true today
considering the pressures from international competition environmental concerns and complicated ethical issues This book
entitled A Manager s Primer on e Networking negotiates the hyper dimensions of the Internet through stories from myriad of
Web sites with its fluent presentation and simple but chronological organisation of topics highlighting numerous
opportunities and providing a solid starting point not only for inexperienced entrepreneurs and managers but anyone
interested in applying information technology in the business I sincerely hope the book will help as well many small and
medium size companies and organisations to launch corporate networking successfully in order to attain their strategic
