Edwards,2004-09-01 *Small Town Cops* is a detailed and insightful participant observant analysis of a rural community police department This research combines observations of street action and interviews with police officers jailers dispatchers and inmates to present a candid overview of the problems that afflict the lives of officers working in a small town policing by focusing on issues relating to comradeship racism sexism interpersonal communication and the blue shield of silence The research debunks the belief that small town cops are backward uneducated and without professional ethics Moreover it exposes readers to the complexities faced by small town officers when compared to their urban counterparts officers in an effort to overcome the complexities associated with small town life The data also exposes the strategies employed by officers to find balance between their personal professional and community expectations and goals This study is of value to anyone interested in sociology criminal justice policing and ethnographic research *Crime and Policing in Rural and Small-Town America* Ralph A. Weisheit,David N. Falcone,L. Edward Wells,2005-09-21 While most researchers see the urban setting as being the only laboratory for studying crime problems throughout the United States *Crime and Policing in Rural and Small Town America* directly challenges this notion with an authoritative look at crime and the criminal justice system in rural America today The assumption that rural crime is rare and comparable across various communities has led to incompatible theories and irrelevant practices In order to transform this misconception the Third Edition offers a clear outline of the definition of rural and provides a vital argument for why rural and small town crime should be studied more than it is The book also explores the individual nature of issues that emerge in these communities including illegal drug production domestic violence agricultural crimes rural poverty and gangs in addition to the training needs of rural police probation in rural areas and rural jails and prisons Responding to rural crime requires an awareness of its context and how justice is carried out as well as an appreciation of how features vary across rural areas Understanding the relationships among crime geography and culture in the rural setting can reveal useful ideas and implications for crime and justice in communities across the United States **Small Town** ,1990 **Small Town and Rural Police** Victor H. Nalla,Graeme R. Newman,2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies Community Policing in Indigenous Communities explores how these often deeply divided societies operate under the community policing paradigm Drawing on the local expertise of policing practitioners and researchers across the globe the book explores several themes with regard to each region How community policing originated or evolved in the community and how it has changed over time The type of policing style used whether informal or formal and uniformed or non uniformed whether partnerships are developed with local community organizations or businesses and the extent of covert operations if any The role played by community policing in the region including the relative emphasis of calls for service the extent to which advice and help is offered to citizens whether local records are kept of citizen movement and locations and investigation and arrest procedures The community s special cultural or indigenous attributes that set it apart from other models of community policing Organizational attributes including status

in the hierarchy of control within the regional or national organization of policing The positive and negative features of community policing as it is practiced in the community Its effectiveness in reducing and or preventing crime and disorder The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens It is a strategy not simply for policing with consent but for policing in contexts where there is often little if any consent It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made enabling communities to live in relative safety Policing Carol Archbold,2012-10-17 The free open access Student Study Site at sagepub com archbold features eFlashcards self quizzes Sage journal articles web resources video and audio links and more Book Jacket **Policing** Carol A.
