The Politics of Expertise Matthew Hilton, James McKay, Nicholas Crowson, Jean-François Mouhot, 2013-04-25 The Politics of Expertise offers a challenging new interpretation of politics in contemporary Britain through an examination of non governmental organisations Using specific case studies of the homelessness environment and international aid and development sectors it demonstrates how politics and political activism has changed over the last half century NGOs have contributed enormously to a professionalization and a privatization of politics emerging as a new form of expert knowledge and political participation They have been led by a new breed of non party politician working in collaboration and in competition with government Skilful navigators of the modern technocratic state they have brought expertise to expertise and in so doing have changed the nature of grassroots activism As affluent citizens have felt marginalised by the increasingly complex nature of many policy solutions they have made the rational calculation to support NGOs the professionalism and resources of which make them better able to tackle complex problems Yet in doing so support rather than participation becomes the more appropriate way to describe the relationship of the public to NGOs As voter turnout has declined membership and trust in NGOs has increased But NGOs are very different types of organisations from the classic democratic institutions of political parties and the labour movement They maintain different and varied relationships with the publics they seek to represent Attracting mass support has provided them with the resources and the legitimacy to speak to power on a bewildering range of issues yet perhaps the ultimate victors in this new form of politics are the NGOs themselves

John Bull's Island Colin Holmes, 2015-10-16 There is a strong but unreliable view that immigration is a marginal and recent phenomenon In fact immigrants and refugees have come to Britain throughout its recorded history In this book first published in 1988 Colin Holmes looks at this period in depth and asks who were the newcomers and why were they coming What were the distinctive features of their economic and social lives in Britain How did British society respond to their presence The resulting book is a major historical survey of immigration which synthesises and evaluates existing work and weaves in new material on a wide range of immigrant minorities **Donald Rodney** Richard Hylton, 2025-01-23 Donald Rodney 1961 1998 was one of the most gifted perceptive and innovative contemporary British artists of his time A protagonist from the first generation of Black British born art students in the early 1980s Rodney and his peers brought a new dynamic to British art a hitherto unseen interplay between aesthetics politics humour and Black consciousness Donald Rodney *Art Race and the Body Politic* is the first book length study of a protean practice which spanned the early 1980s to the late 1990s and included a prodigious output of work across painting photography collage assemblage sculpture installation and new technologies Across eight meticulously researched chapters the book examines the social and cultural events which inspired Rodney's artwork and the responses it elicited From his formative years in the West Midlands as a leading exponent of Black Art to a subsequent decade of unbridled visual innovation and social critique the book ventures new detailed analyses of key works exhibitions artistic influences and collaborations Deploying recurring metaphors of the diseased traumatised and raced body Rodney addressed racial and social inequality legacies of slavery police brutality sport and Black male identity in novel and powerful ways Attending to the artist's material dexterity and visual acuity the book considers how and why Rodney's innovative practice uniquely challenged delineations between the political and non political personal and public representation and visibility Over a generation has passed since Rodney's premature death from the effects of the hereditary blood disorder sickle cell anaemia at aged thirty six Despite this Rodney's work continues to speak to our contemporary moment in a multiplicity of ways As such the book provides a much needed critical perspective and
