**The Failure of the International Criminal Court in Africa** Everisto Benyera, 2022-05-18. This book investigates the relationship between the International Criminal Court and Africa, the ICC or the Court asking why and how the international criminal justice system has so far largely failed the victims of atrocities in Africa. The book explores how the Court degenerated from a very promising multilateral institution to being an instrumentalised politicised weaponised institution that ended up with the victims being the greatest losers. Instead of looking at the International Criminal Court as a recent alternative to a prevailing international criminal justice paradigm, this book argues that the Court is a manifestation of the same world order that was established by the Reconquista in 1492. Written from a decolonial perspective, the book particularly draws on evidence from Zimbabwe in order to demonstrate how the International Criminal Court is failing the victims of the four crimes that fall under its jurisdiction. Drawing on the perspectives of victims in particular, this book highlights the damage caused within Africa by the international criminal justice system and argues for a decolonial conception of justice. The book will be of interest to researchers from across African politics, international relations, law, and criminal justice.

International criminal law is at a crucial point in its history and development and the time is right for practitioners academics and students to take stock of the lessons learnt from the past fifteen years as the international community moves towards an increasingly uni polar international criminal legal order with the International Criminal Court ICC at the helm This unique Research Companion takes a critical approach to a wide variety of theoretical practical legal and policy issues surrounding and underpinning the operation of international criminal law as applied by international criminal tribunals The book is divided into four main parts The first part analyses international crimes and modes of liability with a view to identifying areas which have been inconsistently or misguidedly interpreted overlooked to date or are likely to be increasingly significant in future The second part examines international criminal processes and procedures and here the authors discuss issues such as victim participation and the rights of the accused The third part is a discussion of complementarity and sentencing while the final part of the book looks at international criminal justice in context The authors raise issues which are likely to provide the most significant challenges and most promising opportunities for the continuing development of this body of law As international criminal law becomes more established as a distinct discipline it becomes imperative for international criminal scholarship to provide a degree of critical analysis both of individual legal issues and of the international criminal project as a whole This book represents an important collective effort to introduce an element of legal realism or critical legal studies into the academic discourse
