Somalia Economy Without State:

Somalia Peter D. Little, 2003 Amaury Talbot Prize Winner Shows that Somalia is an extreme case of an economy without a government *Getting Somalia Wrong?* Mary Harper, 2012-02-09 Somalia is a failed state representing a threat to itself its neighbours and the wider world In recent years it has become notorious for the piracy off its coast and the rise of Islamic extremism opening it up as a new southern front in the war on terror At least that is how it is inevitably portrayed by politicians and in the media Mary Harper presents the first comprehensive account of the chaos into which the country has descended and the United States renewed involvement there In doing so Harper argues that viewing Somalia through the prism of al Qaeda risks further destabilizing the country and the entire Horn of Africa while also showing that though the country may be a failed state it is far from being a failed society In reality alternative forms of business justice education and local politics have survived and even flourished Provocative in its analysis Harper shows that until the international community starts to get it right the consequences will be devastating not just for Somalia but for the world The Early Morning Phonecall Anna Lindley, 2010-08-30 As migration from poverty stricken and conflict affected countries continues to hit the headlines this book focuses on an important counter flow the money that people send home Despite considerable research on the impact of migration and remittances in countries of origin increasingly viewed as a source of development capital still little is known about refugees remittances to conflict affected countries because such funds are most often seen as a source of conflict finance This book explores the dynamics infrastructure and far reaching effects of remittances from the perspectives of people in the Somali regions and the diaspora With conflict driving mass displacement Somali society has become progressively transnational its vigorous remittance economy reaching from the heart of the global North into wrecked cities refugee camps and remote rural areas By following the money the author opens a window on the everyday lives of people caught up in processes of conflict migration and development The book demonstrates how in the interstices of state disruption and globalisation and in the shadow of violence and political uncertainty life in the Somali regions goes on subject to complex transnational forms of social economic and political innovation and change **The Political Economy of Peacemaking** Achim Wennmann, 2010-12-14 This book focuses on the economic dimensions of peace processes and examines the opportunities and constraints for assisting negotiated exits out of conflict Various works have addressed the economic characteristics and consequences of armed conflicts over the past two decades including issues such as blood diamonds natural resource wars economically motivated armed violence self financing conflict or the complicity of companies and state elites in conflict economies However rather than treating these issues as obstacles for peace this book explores whether they can be opportunities for peacemaking by adopting a political economy perspective The book looks at income sharing from natural resources as an opportunity for forward looking peacemaking strategies and the implications of deal making in situations in which war economies and insecurity provide strongmen with disproportionate political and economic

power The book also highlights that peace processes are not necessarily about the rectification of a conflict's root causes but rather about what matters most to the main stakeholders at the moment when a peace process starts taking shape Finally efforts to establish a lasting peace need to go beyond the traditional set of actors associated with peace processes The strategic involvement of donor agencies companies and diaspora communities can strengthen forward looking peace processes The book will help both student and practitioner audiences to better understand armed conflicts and their belligerents optimize the planning and management of peace initiatives and shape expectations in peace agreements It will be of much interest to students of peacebuilding conflict studies development studies International Political Economy and International Relations in general

The Horn of Africa since the 1960s Aleksi Ylönen, Jan Záhorký, 2017-02-17 The Horn of Africa has long been one of the most dynamic and politically turbulent sub regions on the African continent Host to great ancient civilizations diverse peoples and expansive states the region has experienced massive social economic and political transformations which have given rise to military coups revolutions and intractable ethnic socio economic and religious conflicts This comprehensive volume brings together a team of expert scholars who analyze international regional national and local affairs in the Horn of Africa The chapters demonstrate the intertwined nature of the actors and forces shaping political realities The case studies focusing on Ethiopia Eritrea Somalia Somaliland Sudan and South Sudan eloquently illustrate the complex dynamics connecting the spectrum of political issues in the region The Horn of Africa since the 1960s will be of interest to students and scholars of contemporary Africa and political science

Understanding Terrorist Finance T. Wittig, 2011-07-26 Wittig presents the first unified coherent framework for the systematic analysis of terrorist finance With empirical examples from around the globe he dispels several popular myths about these activities to make an important step forward in our understanding of not only terrorist finance but also the place of terrorism in the contemporary world

Muslims in Southern Africa Samadia Sadouni, 2019-03-13 This book presents a socio historical analysis of the Somali Muslim diaspora in Johannesburg and its impact on urban development in the context of Somali migrations in the Southern African Indian Ocean region from the end of the 19th Century to today The author draws on a combination of archival and ethnographic research to examine the interlocking processes of migration urban place making economic entrepreneurship and transnational mobility through the lens of religious practice and against the background of historical interactions between the Somali diaspora and the British and Ottoman Empires Comparison with other Muslim diasporas in the region primarily Indians adds further depth to an investigation which will shed new light on the Somali experience of mobility and the urban development of South Africa across its colonial apartheid and democratic periods The politics of race imperial and post imperial identities and religious community governance are shown to be key influencing factors on the Somali diaspora in Johannesburg This sophisticated analysis will provide a valuable resource for students and scholars of urban geography the sociology of religion and African race ethnic and migration studies

Economic Spaces of Pastoral Production and Commodity Systems Richard Le Heron, 2016-04-29 Pastoralism as a land use system is under recognized in terms of its contribution to food provision livelihoods as well as to human security This book is the first attempt to explore the dynamics of economic spaces of pastoral production and commodity systems for explicit South and North positionings It develops and applies a new approach in combining agri food market and commodity chain perspectives with livelihood approaches This enables new understandings of re aligning exchange relations between the global south and the global north The case studies presented open up new empirical insights in largely under researched areas such as Afghanistan Chad Tibet and Siberia and very recent changes in industrialized economies with major pastoral sectors The book reveals new evidence and theoretical insights about significant changes in established producer consumer relations in agriculture and food

Water Tirthankar Roy, 2025 From the early twentieth century a big part of the world the arid semiarid tropics began extracting storing and recycling vast quantities of water to sustain population growth and economic development The idea was not a new one in this geography It

was an intrinsic part of ancient culture statecraft and technology Most ancient projects however were local and small in scale The capability of water extraction on a scale large enough to transform whole regions and create new cities improved in the early twentieth century giving rise to a sharp break in the long term population and economic growth pattern from the mid twentieth century Ironically the geography of the arid tropics made transforming landscapes in this way expensive damaging for the environment and disputatious The book describes this troubled history of economic emergence building on a definition of tropicality Provided by publisher Transformative Transitional Justice and the Malleability of Post-Conflict States Padraig McAuliffe, 2017-03-31 Despite the growing focus on issues of socio economic transformation in contemporary transitional justice the path dependencies imposed by the political economy of war to peace transitions and the limitations imposed by weak statehood are seldom considered This book explores transitional justice s prospects for seeking economic justice and reform of structures of poverty in the specific context of post conflict states *State Fragility and State Building in Africa* Dele Olowu, Paulos Chanie, 2015-10-19 This book describes the contrast between the strong economic growth and democratization that have occurred in Africa and its stalling political progress It presents and discusses fragility as the phenomenon that has caused the state to remain weak and faltering and has led to at least one third of the continent s citizens living in fragile states Following the examination of the drivers of fragility and the impact of fragility on citizens and neighbouring states the book discusses capacity building approaches This part shows how effective states can be built on the African continent a process that would result in a change from state fragility to state resilience It is based on lessons learnt from close studies of the nations where the state has been most developed in the region in Eastern and Southern Africa The book provides and responds to the most recent and up to date information on African development and uses insights of people who have lived and worked in the continent for most of their lives **Livelihoods, Natural Resources, and Post-Conflict Peacebuilding** Helen Young, Lisa Goldman, 2015-04-10 Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post conflict countries By degrading the natural resources that are essential to livelihoods and by significantly hindering access to those resources conflict can wreak havoc on the ability of war torn populations to survive and recover This book explores how natural resource management initiatives in more than twenty countries and territories have supported livelihoods and facilitated post conflict peacebuilding Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources from land to agriculture forestry fisheries and protected areas The book also explores larger questions about how to structure livelihoods assistance as part of a coherent integrated approach to post conflict redevelopment Livelihoods and Natural Resources in Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value
