**Studies on Western Esotericism in Central and Eastern Europe** Nemanja Radulović, Karolina Maria Hess, 2019-06-01 These papers examine how occult and esoteric themes appear in visual and verbal media connecting to intellectual history literature the arts present day pop culture and religious practices The topics range from the witchcraft motives in the love poetry of the 15th century Humanist poet Conrad Celtis through the activities of Polish and Russian theosophists Croatian Greek Polish painters of the spiritual the philosophy of wine by the Hungarian esoteric philosopher B la Hamvas to contemporary Serbian magic and neo shamanism Two studies touch upon the influence of Freemasonry and the Kabbalah in Western esotericism and although these are not specifically Central European topics they provide parallel perspectives to what the other papers of the collection are investigating

**Johann Wilhelm and Johanna Eleonora Petersen's Eschatology in Context** Elisa Bellucci, 2022-10-10 Although the Petersens name is quite known among specialists of Pietism their work their ideas and the development of their thought remain mostly unresearched Elisa Bellucci aims to shed more light on their works analysing and interpreting them in relationship to the theological and

socio political context In so doing she fills some gaps present in the research on these authors firstly she analyses the positions presented in the Petersens work until 1703 at length secondly she tries to unearth sources and influences thirdly she seeks to comment on the Petersens ideas and positions in relationship to the historical context The result is an entangled picture which questions the traditional distinction between church Pietism and radical Pietism orthodoxy and radicalism separatism showing instead that these categories are sometimes too narrow to describe the position of certain authors such as the Petersens *John Dee: Interdisciplinary Studies in English Renaissance Thought* Stephen Clucas, 2006-06-18

Intellectual History and the Identity of John Dee In April 1995 at Birkbeck College University of London an interdisciplinary colloquium was held so that scholars from diverse fields and areas of expertise could 1 exchange views on the life and work of John Dee Working in a variety of fields intellectual history history of navigation history of medicine history of science history of mathematics bibliography and manuscript studies we had all been drawn to Dee by particular aspects of his work and participating in the colloquium was to c front other narratives about Dee s career an experience which was both bewildering and instructive Perhaps more than any other intellectual figure of the English Renaissance Dee has been fragmented and dispersed across numerous disciplines and the various attempts to re integrate his multiplied image by reference to a particular world view or philosophical outlook have failed to bring him into focus This volume records the diversity of scholarly approaches to John Dee which have emerged since the synthetic accounts of I R F Calder Frances Yates and Peter French If these approaches have not succeeded in resolving the problematic multiplicity of Dee s activities they will at least deepen our understanding of specific and local areas of his intellectual life and render them more historiographically legible *The Bloomsbury Companion to Jewish Studies* Dean Phillip Bell, 2013-08-15

Few fields of academic research are surrounded by so many misunderstandings and misconceptions as the study of Western esotericism For twenty years now the Centre for History of Hermetic Philosophy and Related Currents University of Amsterdam has been at the forefront of international scholarship in this domain This anniversary volume seeks to make the

modern study of Western esotericism known beyond specialist circles while addressing a range of misconceptions biases and prejudices that still tend to surround it Thirty major scholars in the field respond to questions about a wide range of unfamiliar ideas traditions practices problems and personalities that are central to this area of research By challenging many taken for granted assumptions about religion science philosophy and the arts this volume demonstrates why the academic study of esotericism leads us to reconsider much that we thought we knew about the story of Western culture Jewish Magic and Superstition Joshua Trachtenberg,2012-10-08 Alongside the formal development of Judaism from the eleventh through the sixteenth centuries a robust Jewish folk religion flourished ideas and practices that never met with wholehearted approval by religious leaders yet enjoyed such wide popularity that they could not be altogether excluded from the religion According to Joshua Trachtenberg it is not possible truly to understand the experience and history of the Jewish people without attempting to recover their folklife and beliefs from centuries past Jewish Magic and Superstition is a masterful and utterly fascinating exploration of religious forms that have all but disappeared yet persist in the imagination The volume begins with legends of Jewish sorcery and proceeds to discuss beliefs about the evil eye spirits of the dead powers of good the famous legend of the golem procedures for casting spells the use of gems and amulets how to battle spirits the ritual of circumcision herbal folk remedies fortune telling astrology and the interpretation of dreams First published more than sixty years ago Trachtenberg s study remains the foundational scholarship on magical practices in the Jewish world and offers an understanding of folk beliefs that expressed most eloquently the everyday religion of the Jewish people The Cambridge Companion to Medieval Jewish Philosophy Daniel H. Frank,Oliver Leaman,2003-09-11 From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism Influenced first by Islamic theological speculation and the great philosophers of classical antiquity and then in the late medieval period by Christian Scholasticism Jewish philosophers and scientists reflected on the nature of language about God the scope and limits of human understanding the eternity or createdness of the world prophecy and divine providence the possibility of human freedom and the relationship between divine and human law Though many viewed philosophy as a dangerous threat others incorporated it into their understanding of what it is to be a Jew This Companion presents all the major Jewish thinkers of the period the philosophical and non philosophical contexts of their thought and the interactions between Jewish and non Jewish philosophers It is a comprehensive introduction to a vital period of Jewish intellectual history *History Of Judaism Vol 2* Pap Margery Hutter Silver,1976-10-05 Jewish Culture in Early Modern Europe Richard I. Cohen,Natalie B. Dohrmann,Elchanan Reiner,Adam Shear,2014-12-31 David B Ruderman s groundbreaking studies of Jewish intellectuals as they engaged with Renaissance humanism the Scientific Revolution and the Enlightenment have set the agenda for a distinctive historiographical approach to Jewish culture in early modern Europe from 1500 to 1800 From his initial studies of Italy to his later work on eighteenth century English German and Polish Jews Ruderman has emphasized the individual as a

representative or exemplary figure through whose life and career the problems of a period and cultural context are revealed Thirty one leading scholars celebrate Ruderman s stellar career in essays that bring new insight into Jewish culture as it is intertwined in Jewish European Ottoman and American history The volume presents probing historical snapshots that advance refine and challenge how we understand the early modern period and spark further inquiry Key elements explored include those inspired by Ruderman s own work the role of print the significance of networks and mobility among Jewish intellectuals the value of extraordinary individuals who absorbed and translated so called external traditions into a Jewish idiom and the interaction between cultures through texts and personal encounters of Jewish and Christian intellectuals While these elements can be found in earlier periods of Jewish history Ruderman and his colleagues point to an intensification of mobility the dissemination of knowledge and the blurring of boundaries in the early modern period These studies present a rich and nuanced portrait of a Jewish culture that is both a contributing member and a product of early modern Europe and the Ottoman Empire As director of the Herbert D Katz Center for Advanced Judaic Studies at the University of Pennsylvania Ruderman has fostered a community of scholars from Europe North America and Israel who work in the widest range of areas that touch on Jewish culture He has worked to make Jewish studies an essential element of mainstream humanities The essays in this volume are a testament to the haven he has fostered for scholars which has and continues to generate important works of scholarship across the entire spectrum of Jewish history

*Western Esotericism and the Science of Religion* International Association for the History of Religions. Congress,International Association for the History of Religions,1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5 12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions

**Apocalypse Now** Damien Tricoire,Lionel Laborie,2022-08-03 Eschatology played a central role in both politics and society throughout the early modern period It inspired people to strive for social and

political change including sometimes by violent means and prompted in return strong reactions against their religious activism From the fifteenth to the eighteenth century numerous apocalyptic and messianic movements came to the fore across Eurasia and North Africa raising questions about possible interconnections Why were eschatological movements so pervasive in early modern times This volume provides some answers to this question by exploring the interconnected histories of confessions and religions from Moscow to Cusco It offers a broad picture of Christian and to a lesser extent Jewish and Islamic eschatological movements from the fifteenth to the eighteenth century thereby bridging important and long standing gaps in the historiography Apocalypse Now will appeal to both researchers and students of the history of early modern religion and politics in the Christian Jewish and Islamic worlds By exploring connections between numerous eschatological movements it gives a fresh insight into one of the most promising fields of European and global history
