## **Some Dance To Remember:**

*Some Dance to Remember: A Memoir-Novel of San Francisco 1970-1982* Jack Fritscher, 2010-09 *Some Dance to Remember* has been reviewed as the gay *Gone with the Wind*. But such popular praise does not do literary justice to this eyewitness classic of that first golden decade after Stonewall. This best selling epic of San Francisco's Castro seethes with sex drugs panic and passionate characters: a gay writer, a drop dead gorgeous bodybuilder, a cabaret singer, a Vietnam vet, a Hollywood bitch, and a rough trade porn mogul. Narrator Magnus Bishop channels Ryan O'Hara, a writer pioneering a tell-all voice in the emerging subculture of gay magazines. When Ryan meets Quentin Crisp's perfect man in Kick Sorenson, lust and politics collide. Steroids rule Castro Street. Gender fascism divides queens versus clones into gay civil war over correct queer identity. White assassinate Milk. Gay rioters burn City Hall. Ryan romancing the morphing trickster Kick cruises through nightclubs, ecstatic sex, and leather rituals in legendary bathhouses. Sprung from Isherwood's *Cabaret*, 1970s San Francisco mirrored 1930s Berlin: decadent, dazzling, diverse, doomed. It's all here: A city, A murder, A plague, A lost civilization, A love story. *Some Dance to Remember* is dedicated to Jack Fritscher's 1970s bi-coastal lover Robert Mapplethorpe. My God, what a book! It's all there, done with Fritscher's usual lan and verve. I wouldn't be surprised if he has written what will be looked on as that period's Great American Gay Novel. What lovely stuff! Sam Steward Phil Andros. Jack Fritscher didn't invent the Castro. He just made it mythical. **HEADY EROTIC COMIC**: A comprehensive fictional chronicle of the best of times. If one can learn American history via the novels of Gore Vidal, one can learn gay American history through *Some Dance*. The Advocate David Perry: Cinematic intensity. A brilliant record of gay life before AIDS. An astonishing spectrum of queer lives. This sprawling saga has not lost a whit of its muscular passion, punchy immediacy, or transformative literary impact. **Books to Watch Out For**: Richard Labont: **STAGGERINGLY ORIGINAL** and completely absorbing. Here is San Francisco's gay male scene in the 1970s and 80s as never told or documented before. Michael Bronski: *Author of Culture Clash: The Making of Gay Sensibility*. **The Dance to Remember** Kin Wong, 2016-09-09 When Evelyn's father passes away from Alzheimer's, she becomes obsessed with saving her mother Rosemary from the same dark fate. No longer her husband's caregiver, Rosemary begins to struggle with her own memory lapses and the piercing regrets of long abandoned dreams. Through her research, Evelyn unearths a study that changes everything, and their lives take a turn they never could have imagined as they rediscover joy in the hope for a future without dementia. Selected as the December Book of the Month from Pacific Book Review. 5 Stars reviewed by Ella Vincent. While medical staff usually understand a patient's symptoms, causes, and treatments, communicating this understanding to a patient using industry terminologies can lead to confusion and misunderstanding, and similarly, patients may lack the vocabulary to

effectively communicate their experiences back to their caregivers A new approach to communication must be bridged between these groups by individuals who have experience on both sides of the conversation Previous studies of doctors who end up in the role of the patient reveal how these individuals have a dual perspective on illness combining their medical knowledge with their own personal medical experiences Narratives including autobiographical accounts and fictional stories can help bridge the gap between experiential and academic knowledge of illness by expanding one's limited perspective and accessing others points of view Autobiographical and fictional narratives can both play a role in developing a more comprehensive understanding of illness beyond simply treating the disease It is necessary to further examine the ethical and methodological underpinnings of narrative based interventions in the education of healthcare professionals practitioners and patients Global Perspectives on Probing Narratives in Healthcare offers a multidisciplinary examination of theoretical and methodological uses of narratives in healthcare by bringing together medical aspects of healthcare and the study of arts and humanities This illustrates specific applications of narratives in healthcare settings including improvement of clinical skills performance of the caring role and self efficacy for building a true partnership in the patient's health journey through varied approaches up to date tools and resources that can be transferred and adapted to specific educational and healthcare contexts This diverse collection of expert knowledge and experience is led by editors with over 20 years of teaching experience Dr Teresa Casal of the University of Lisbon Portugal and Dr Maria de Jesus Cabral of the University of Minho Portugal Expertise featured in this book includes contributions from some of the most prestigious academic institutions including Columbia University in the United States King's College in the United Kingdom University of Padua in Italy and more It is an essential resource for healthcare and social science researchers academics advanced healthcare students health training and education departments healthcare practitioners and patients associations and policymakers in healthcare who are looking to broaden their scope of understanding of the patient experience
