The Vanished World of Lithuanian Jews ,2004-01-01 The Lithuanian Jews Litvaks played an important and unique role not only within the Polish Lithuanian Commonwealth but in a wider context of Jewish life and culture in Eastern Europe too The changing world around them at the end of the nineteenth century and during the first decades of the twentieth had a profound impact not only on the Jewish communities but also on a parallel world of the others that is those who lived with them side by side Exploring and demonstrating this development from various angles is one of the themes and objectives of this book Another is the analysis of the Shoah which ended the centuries of Jewish culture in Lithuania a world of its own had vanished within months This book therefore recalls that vanished world In doing so it sheds new light on what has been lost The papers presented in this collection were delivered at the international conferences in Nida 1997 and Tel iai 2001

Dictionary of Lithuania Saulius A. Suziedelis, 2011-02-07 The Lithuanian people have undergone historic changes quite different from those of other European nations In earlier centuries geography provided strategic advantage and opportunities for expansion but in recent times the country has more often experienced location as a geopolitical curse After constantly losing territory and shrinking in size the country disappeared in 1795 However after World War I a popular national movement led to the restoration of Lithuania as an independent state World War II and its bloody aftermath brought foreign occupation as well as genocide mass murder and destruction unparalleled in the country's modern history The restoration of independence in 1990 has fundamentally altered Lithuania's geopolitical reality Integration into the European Union and the North Atlantic Treaty Organization promise a new level of security for the Lithuanian state in the 21st century even as the social and economic transformations present both promising opportunities and difficult challenges The second edition of the Historical Dictionary of Lithuania will serve as a useful introduction to virtually all aspects of Lithuania's historical experience including the country's relations with its neighbors This is done through a chronology an introductory essay an extensive bibliography and over 300 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets **Days of Remembrance, April 22-29, 1990**

Essays on Hitler's Europe István Deák, 2001-01-01 István Deák is one of the world's most knowledgeable and clearheaded authorities on the Second World War and for decades his commentary has been among the most illuminating and influential contributions to the vast discourse on the politics history and scholarship of the period Writing chiefly for the New York Review of Books and the New Republic Deák has crafted review essays that cover the breadth and depth of the huge literature on this ominous moment in European history when the survival of democracy and human decency were at stake Collected here for the first time these articles chart changing reactions and analyses by the regimes and populations of Europe and reveal how postwar governments historians and ordinary citizens attempt to come to terms with or to evade the realities of the Holocaust war fascism and resistance movements They track the acts of scoundrels and the collusion of ordinary citizens in the so called Final Solution but also show how others in authority and on the street heroically opposed the evil of the day With its depth conciseness and interpretive power this collection allows readers to consider more clearly and completely than ever before what has been said how thought has shifted and what we have learned about these momentous world changing events *Resistance and Rebellion* Roger D. Petersen, 2001-05-07 Resistance and Rebellion

Lessons from Eastern Europe explains how ordinary people become involved in resistance and rebellion against powerful regimes The book shows how a sequence of causal forces social norms focal points rational calculation operate to drive individuals into roles of passive resistance and at a second stage into participation in community based rebellion organization By linking the operation of these mechanisms to observable social structures the work generates predictions about which types of community and society are most likely to form and sustain resistance and rebellion The empirical material centres

around Lithuanian anti Soviet resistance in both the 1940s and the 1987-91 period Using the Lithuanian experience as a baseline comparisons with several other Eastern European countries demonstrate the breadth and depth of the theory The book contributes to both the general literature on political violence and protest as well as the theoretical literature on collective action

Re-examining the Holocaust through Literature Aukje Kluge, Benn E. Williams, 2009-03-26 In the late 1980s Holocaust literature emerged as a provocative but poorly defined scholarly field The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books fiction film and poetry as well as the more traditional diaries memoirs and journals Ten contributors from four countries engage issues of authenticity evangelicalism morality representation personal experience and wish fulfillment in Holocaust literature which have been the subject of controversies in the US Europe and the Middle East Of interest to students and instructors of antisemitism national and comparative literatures theater film history literary criticism religion and Holocaust studies this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context

Bibliography On Holocaust Literature Abraham J Edelheit, 2021-11-28 In this second supplement to their *Bibliography on Holocaust Literature* the authors have compiled 4000 new entries to keep pace with the outpouring of literature on the subject Readers attention is directed to new materials and to items newly available including books pamphlets and journal articles many of which are catalogued for the first time There is a new section on Soviet anti-Semitism and expanded coverage of neo Nazism neo fascism

[Antisemitism in Eastern Europe](#) Hans-Christian Petersen, Samuel Salzborn, 2010 Europe is expanding and therewith remembers its historical basis which was hidden beneath the shadow of the Cold War for a long time This return of a common history which is mostly narrated as a history of success today however contains the perception of transnational traditions at the same time which by contrast should give reason for a critical self reflection This volume gives an impulse through a comparative examination of the still highly actual forms of antisemitism in Europe The focus will be on the developments in the countries from the Baltic States to South Eastern Europe which usually are little known in Western Europe At the same time the

specificities of antisemitism in Eastern Europe are incorporated in the theoretical insights of antisemitism research thus filling a gap that has existed until now

The Massacre of the Jews of Lithuania Karen Sutton, 2008 Reports on the Nazi genocide of Jews in Lithuania dwelling on Lithuanian collaboration in the Holocaust or passive response to it Describes the Holocaust in Vilnius Kaunas and some other places and Jewish reactions to it including attempts at resistance Dismisses theories that the cause of Lithuanian collaboration was the widespread linkage of Jews with communism and the real or exaggerated Jewish role in the Sovietization of Lithuania in 1940-41 Although the traumatic experience of Sovietization exacerbated the ethnic conflict in Lithuania those Lithuanians who murdered Jews in Kaunas Vilnius and elsewhere acted out of pre-existing hatred The root of this hatred which manifested itself in the prewar period as well was economic competition with the Jews and religious and cultural distance from them Argues that the Lithuanians showed an ability to resist Nazi policies in situations that were vital to them e.g. concerning mobilization for work in Germany They could have also resisted the Nazi genocide of Jews but it was not regarded as vital
