Japanese Rainmaking and other Folk Practices Geoffrey Bownas, Pauline Brown, 2013-10-11 The ritual of rainmaking is one of half a dozen Japanese folk practices and festivals described in this book The story of rainmaking ceremonies begins with personal experience and then draws on the work of Japanese folklorists to record significant local variations and to construct a general account of the history and purpose of the ceremony Field research was conducted during study visits to Kyoto to Tenri in Nara Prefecture and to Shiga Prefecture The chapter order follows the year cycle from New Year via early summer purificatory festivals and rainmaking ceremonial to the feast of Bon which with New Year ceremonies divides the year Alongside these community or public rites are described private or family rituals concerned with birth marriage and death The introductory chapter relates aspects of Japanese culture myth and language to the constant features of folk practice recorded or extant in 1950s Japan Originally published in 1963

The Epistemology of Spirit Beliefs Hans Van Eyghen, 2023-04-14 This book assesses whether belief in spirits is epistemically justified It presents two arguments in support of the existence of spirits and arguments that experiences of various sorts perceptions mediumship possession and animistic experiences can lend justification to spirit beliefs Most work in philosophy of religion exclusively deals with the existence of God or the epistemic status of belief in God Spirit beliefs are often regarded as aberrations and the falsity of such beliefs is often assumed This book argues that various beliefs concerning spirits can be regarded as justified when they are rooted in experiences that are not defeated It argues that spirit beliefs are not defeated by recent theories put forth by neuroscientists cognitive scientists or evolutionary biologists Additional arguments are made that traditional theistic belief is epistemically linked to spirit beliefs and that unusual events can be explained in terms of spirit activity The book draws on theistic arguments phenomenal conservatism and defenses of religious experiences to argue for the justification of spirit beliefs The arguments draw on examples from various religious traditions ranging from Christianity and Islam to Haitian Vodou and Tibetan Bon The Epistemology of Spirit Beliefs will be of interest to researchers and advanced students working in philosophy of religion religious epistemology ethnography and cognitive neuroscience The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution NonCommercial CC BY NC 4.0 International license

Domenig,2014-04-03 In his richly illustrated Religion and Architecture in Premodern Indonesia Gaudenz Domenig investigates the nature of Indonesian ethnic religions by focusing on land opening rituals sacred groves and architectural responses to the custom of presenting offerings Since deities and spirits were supposed to taste offerings on the spot it was a task of architecture to attract them and to guide them into houses where offerings were presented Domenig quotes numerous sources to show that certain material elements of the house were viewed as spirit attractors spirit ladders or spirit pathways Various exotic features of Indonesian vernacular architecture thus become understandable as relics from times when architecture was still responding to indigenous religions practised in the archipelago **Occultists & Mystics of All**

Ages Ralph Shirley,1920 The Mythic Forest, the Green Man and the Spirit of Nature Gary R. Varner,2006 Mankind has given a recognizable face to the awesome and impalpable forces of nature in the image of the Green Man and the nature spirits that this book explores The ways in which different societies and different craftsmen have depicted these spirits display the wide creative range of the human imagination but the persistence of the theme suggests that in all their many facets these spirits represent a deep primordial sense that humans have shared since civilization began For the very origin and message of these images have remained the same even if somewhat altered over time Traditional customs from around the world from the rites that celebrate spring and egg on the forces of fertility to folk health remedies and the use of

talismans to ward off illness and other evils show some surprising similarities and hint at the shared origins of human culture. Even though the original significance of many customs has been lost or diluted they still hold an appeal and many towns even today are re-introducing seasonal fairs to recreate the link between man and nature. Varner presents examples ancient and new from Europe and Asia East Coast and West and identifies in particular the different guises of the Green Man who has figured in architecture since before the advent of Christianity and still makes his appearance today peering out from behind his leaves on California banks and New York brownstone houses.
