The War on Choice Gloria Feldt, 2007-12-18 An eye opening look at the right wing strategy to reverse the gains American women have made chronicling the actions at the highest levels of government to turn back the clock on women s rights With religious extremists in key decision making posts and our federal judiciary filled with appointees whose values are drastically out of step with the pro choice sentiments of the majority of the American people abstinence only sex education is now the rule ideology has trumped science in domestic and global health policy and reproductive freedoms are perilously close to toppling But while many of the individual facts are known no one until now has connected all the dots and drawn the Big Picture that shows exactly how radical and how successful this quiet revolution has been Judge by judge law by law and appointee by appointee The War on Choice speaks the truth about what is happening and also tells the stories of some of the women whose lives have been affected by these court decisions and federal policies Combined with a hands on plan of action for those who want to raise their voices in protest this book will be riveting reading And there is no one better equipped to write about the insidious step by step chipping away of rights or about what we can do to fight back than Gloria Feldt president of Planned Parenthood Federation of America Her thirty years of work with the organization combined with her personal experience as a woman who came out of the same West Texas political landscape as did George W Bush but faced a very different economic and social reality as the mother of three children by the age of twenty make her the ideal spokeswoman for those who are alarmed by the current political climate This book will be a wake up call describing in jaw dropping detail the story of what the anti choice movement is doing to the rights to birth control abortion and privacy
