Bibliographies and Literature of Agriculture ,1978 **Unwanted Mexican Americans in the Great Depression** Abraham Hoffman,1974 Discouraged by widespread unemployment and alarmed by anti Mexican sentiment nearly five hundred thousand Mexican Americans returned to Mexico between 1929 and 1939 Historian Abraham Hoffman captures the despair of these thousands of people of Mexican descent including those with U S citizenship who were actively coerced into leaving the country Prior to 1931 many Mexican Americans left the United States voluntarily prompted by homesickness unemployment and the Mexican government s offer of free small land parcels As the Great Depression deepened repatriation pressures increased Anglo groups lobbied for laws that excluded aliens from jobs and welfare benefits Many businessmen government officials and social workers believed that removing Mexican Americans would open up jobs for U S citizens and alleviate some of the burden placed on relief agencies The Department of Labor s federal deportation drive launched in 1931 created an atmosphere of fear and tension in Mexican American communities Immigration agents conducted surprise searches for people who had entered the country illegally and Mexicans who had crossed the border before restrictive legislation was passed became prime targets of the deportation campaign Welfare agencies throughout the United States organized repatriation programs The Los Angeles County Welfare Bureau with the most extensive program was responsible for the removal of more than thirteen thousand Mexican Americans A few well publicized deportations had frightened Mexicans who were unsure of their immigration status Many chose repatriation over possible deportation Using much archival material and many previously unpublished government documents Hoffman focuses on the repatriation experience in Los Angeles The city s large Mexican American population provides an excellent case study of the entire movement He also surveys the process of Mexican repatriation throughout the entire United States **Undocumented Workers** United States. Subcommittee on Census and Population,1985 **La Raza** California State University, Northridge. Libraries,1976 **Mexican Immigration to the United States** George J. Borjas,2007-11-01 From debates on Capitol Hill to the popular media Mexican immigrants are the subject of widespread controversy By 2003 their growing numbers accounted for 28.3 percent of all foreign born inhabitants of the United States Mexican Immigration to the United States analyzes the astonishing economic impact of this historically unprecedented exodus Why do Mexican immigrants gain citizenship and employment at a slower rate than non Mexicans Does their

migration to the U S adversely affect the working conditions of lower skilled workers already residing there And how rapid is the intergenerational mobility among Mexican immigrant families This authoritative volume provides a historical context for Mexican immigration to the U S and reports new findings on an immigrant influx whose size and character will force us to rethink economic policy for decades to come Mexican Immigration to the United States will be necessary reading for anyone concerned about social conditions and economic opportunities in both countries **Mexico** Don M. Coerver, Suzanne B. Pasztor, Robert Buffington, 2004-09-22 A concise overview of 20th and 21st century Mexico this volume explores the political economic social and cultural history of the world s largest Spanish speaking country From NAFTA to narcotics from immigration to energy the ties that bind our nation and Mexico are varied and strong Mexico uncovers the real Mexico that lies behind the stereotypes of tacos tequila and tourist hotels Compiled by leading scholars of Mexican history and society its more than 150 entries examine the nation in all its fascinating contradictions and complexity This concise yet thorough study covering the last 100 years of Mexican history is the only one volume A Z reference work available to students scholars and readers curious about one of the world s most diverse and dynamic societies What was the Mexican Revolution all about Who are the Zapatistas And why do Mexicans celebrate Cinco de Mayo Mexicans are America s largest immigrant group and Mexico is America s favorite tourist destination Yet we need to learn more and understand better our fascinating neighbor to the south Mexico comprehensive and accessible is the best place to start **Immigration in the Global Era: Migrants and the People and Laws at Origin and Destination** Guillermina Jasso, Moshe Semyonov, 2021-09-27 **Latinas/os in the United States** Havidan Rodriguez, Rogelio Saenz, Cecilia Menjivar, 2007-11-21 Clara E Rodr guez As is befitting a book on Latinas/os at the start of the 21st century the chapters in this volume reflect the contemporary panorama of Latinas/os in the United States Today Latinas/os are the largest minority group They accounted for 12.5% of the total U S population in the last decennial census recent estimates showed the Hispanic population to be 41.3 million as of July 1, 2004 or 14% of the nation s total population However this estimate does not include the 3.9 million residents of Puerto Rico who are also U S citizens and would raise the total to 45.2 million This would make the U S population of Latinos the second largest Spanish origin population in the hemisphere after Mexico The growth of this population since 1980 has been dramatic Hispanics/Latinos grew more than seven times faster than the population of the nation as a whole increasing by half whereas the white non Hispanic population increased by only 6% between 1980 and 1990 U S Bureau of the Census 1991 Table 1 U S Bureau of the Census 1993 p 2 In the 1990s the Hispanic population increased 58% Moreover between 2003 and 2004 one of every two people added to the nation s population was Hispanic/Latino Consequently not only are Latinos a substantial part of the U S population but they account for half its population growth Spanish in the United States Jon Amastae, Lucia Elías-Olivares, 1982-08-31 When this book was first published in 1982 there were approximately eleven million Spanish speaking people in the United States This volume constitutes a comprehensive and accessible set of readings on the Spanish

The U.S. Role in a Changing World Political Economy, 1979 Post-NAFTA Political Economy Carol Wise, 2010-11-01 An assessment of the impact of NAFTA on Mexico and its implications for the broadening of hemispheric economic cooperation **Governing diversity** Isabelle Rorive, Djordje Sredanovic, Andrea Rea, 2019-05-22 During the 2000s the European Union has witnessed a significant change in terms of integration policies for immigrants This book intends to address the relationship between on the one hand cultural diversity resulting from migration and on the other hand social cohesion and social justice within Western societies In order to do this the authors examine what can be described as two contradictory trends in recent public policies towards foreign people or people with a foreign origin A book that aims to provide a trans disciplinary analysis of the construction of otherness in North America and Europe EXTRAIT In October 2010 in a very polemic context on immigration and immigrant integration the German Chancellor Angela Merkel announced that Germany was to be considered a multicultural failure words that were soon echoed by the Belgian Prime Minister Yves Leterme A few months later the British Prime Minister David Cameron and the French President Nicolas Sarkozy announced the failure of multiculturalism in almost identical terms These sensational statements which by and large avoid defining the concept of multiculturalism are based on a reaffirmation of Western values and strengthening of national identity These statements express the need to review the policies on integration of immigrants in the sense that they should be more active and voluntarist more organized by the state and more supported by the EU In the background one can see fear for Islamic extremism but also the idea that the nation states can put some obligations on immigrants and that for a too long time we have been focusing on those who arrive rather than on the society that welcomes them These speeches are situated in a politico legal context that in recent years was characterized by an ambivalent attitude towards diversity in Europe On the one hand we have seen accusations of racial ethnic and religious discrimination based on antidiscrimination legislation boosted by a strong European equality legal framework On the other hand we have seen

denouncements of the perceived risk posed by Islam in Europe These policy statements are also a result of numerous publications often widely discussed in the media that outline the dangers of Islam in Europe especially in the Netherlands These political positions have also led to political decisions demonstrating the lack of legitimacy of Islam in Europe such as the ban on building minarets in Switzerland or the Burqa bans adopted in the name of protecting national values and the living together notably in France and Belgium 2011
