Balkan Worlds: The First and Last Europe Traian Stoianovich, 2015-05-20
Encompassing the period from the Neolithic era to the troubled present this book studies the peoples societies and cultures of the area situated between the Adriatic Sea in the west and the Black Sea in the east between the Alpine region and Danube basin in the north and the Aegean Sea in the south This is not a conventional history of the Balkans Drawing upon archaeology anthropology economics psychology and linguistics as well as history the author has attempted a total history that integrates as many as possible of the avenues and categories of the Balkan experience **Just or Unjust War?**

Mohammad Taghi Karoubi, 2017-11-30 This study examines the traditional theory of just war in the light of modern principles of international law relating to the prohibition on the use of force repeatedly stressed by UNGA United Nations General Assembly resolutions and accepted by the ICJ International Court of Justice The author expresses doubts as to whether actions by some permanent members of the Security Council starting from September 1996 until April 2003 in the Balkans and the Persian Gulf are legitimate under the just war theory or any other rules of international law and analyses in detail the claims made by the allied powers to justify their actions The book also examines the significance of the transformation in the limitation and prohibition of the use of force in the contemporary legal system by studying the origin of those tenets and their reflection in both the national laws of individual states and the international laws of armed conflict Historical Dictionary

of Albania Robert Elsie, 2010-03-19 Albania is not well known by outsiders it was deliberately closed to the outside world during the communist era Now it has thankfully become free again its borders are open and it can be visited and it is increasingly integrating with the rest of Europe and beyond Unfortunately Albania has had its share of problems in the post communist era it is a land of destitution and despair thanks in part to the Albanian mafia which has turned the country into one of blood feuds kalashnikovs and eternal crises Yet Albania is in essence a European nation like any other and will soon it is to be hoped advance and take its proper place in Europe and the world The second edition of the Historical Dictionary of Albania relates the history of this little known country through a detailed chronology an introduction a bibliography appendixes and over 700 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets Community, Identity and the State Moshe

Gammer, 2004-08-27 The studies in this volume originated from an international conference on Community Identity and the State held at Tel Aviv University in 2001 The first two chapters examine whether modernisation Westernisation and democratisation are identical and whether democracy is connected to a certain specific type of social structure The third examines similarities in the political economic and social development of Second World and Third World countries while the

fourth discusses the relationship between criminal and normal structures in Russian society Subsequent chapters focus on nationalism using case studies from Argentina Syria and Morocco on the Ulama and national movements in the Middle East on Islamic nationalism in Iran and on the discourse between pan Africanism and Islam The final two chapters examine the effects on tribal politics of the exploitation of oil in Abu Dhabi and the problems of the Kurds in northern Iraq **Balkan Anschluss** Srdja Pavlovic,2008 Tackles the thorny issue of the disappearance of Montenegro as a sovereign state in the course of and as a result of the First World War This book investigates the ambiguous and often troubled relationship between two Serb states Montenegro and Serbia It examines the politics and power plays of Serbs Montenegrins and others

Crisis of the Ottoman Empire James J. Reid,2000 This work focuses upon the military problems of the Ottoman Empire in the era 1839 to 1878 The author examines the Crimean War 1853 to 1856 from the perspective of the Ottoman army using British and French sources as well as the few available Ottoman materials Scholarship on the war has ignored this aspect but the high quality of work about the British French and Russian involvement in the war has enabled the present study to advance its own work The inability of the Ottoman high command to learn the lessons of the Crimean War led to serious defeats in the Russo Turkish War of 1877 1878 Revolts occurring in this period also receive attention While the book analyzes the nature of war in the Balkans and Anatolia its primary objective is the study of the war s social and psychological influences This perspective runs as a theme throughout the book but the author focuses on the psychological aspects in the final chapter using comparative perspectives *Light and Shadow* Michael L. Galaty,Ols Lefe,Wayne E. Lee,Zamir Tafilica,2013-12-31 Employing survey archaeology excavation ethnographic study and multinational archival work the Shala Valley Project uncovered the many powerful creative ways whereby the men and women of Shala shaped their world through dynamic world systemic relationships with the powers that surrounded but never fully conquered them The Shala Valley Project presents the highlanders the malesore in the full complexity of their lives while also unveiling a new deeper history for the region a history that reaches back to an unexpected fortified Iron Age site Light and Shadow tells many stories Archaeologists historians and students of tribes of empires of imperial indigenous relations of blood feud of kinship of the built landscape of world systems theory and sustainability science and more will find much here to digest The people of Shala to which Light and Shadow is dedicated may serve as an example in our modern age one in which persistent tribal peoples still fight for their survival and seek to preserve some degree of independence from capitalist economies bent on their incorporation
