

SCHOLARS, SAINTS AND SULTANS: SOME ASPECTS OF RELIGION AND POLITICS IN THE DELHI SULTANATE*

Raziuddin Aquil

When first appeared in 1961, Khaliq Ahmad Nizami's *Some Aspects of Religion and Politics in India During the Thirteenth Century* was hailed as a valuable contribution to the debate on the emergence of the Delhi Sultanate.¹ Four decades later, it is still considered to be a major text for the history of the period. This also means that not much research has been done in the field since then. However, one major theme – the study of Sufism – has attracted a lot of attention. Nizami himself worked with his mentor Mohammad Habib to bring Chishti Sufism of the Sultanate period to the centre-stage of medieval Indian scholarship, even though the scope of their research was limited by their rather narrow assumptions.²

Religion, Identity and Politics in Northern Ireland Claire

Mitchell,2017-03-02 Has conflict in Northern Ireland kept political dimensions of religion alive and has religion played a role in fuelling conflict Conflict in Northern Ireland is not and never will be a holy war Yet religion is more socially and politically significant than many commentators presume In fact religion has remained a central feature of social identity and politics throughout conflict as well as recent change There has been an acceleration of interest in the relationship between religion identity and politics in modern societies Building on this debate Claire Mitchell presents a challenging analysis of religion in contemporary Northern Ireland arguing that religion is not merely a marker of ethnicity and that it continues to provide many of the meanings of identity community and politics In light of the multifaceted nature of the conflict in Northern Ireland Mitchell explains that for Catholics religion is primarily important in its social and institutional forms whereas for many Protestants its theological and ideological dimensions are more pressing Even those who no longer go to church tend to reproduce religious stereotypes of them and us Drawing on a range of unique interview material this book traces how individuals and groups in Northern Ireland have absorbed religious types of cultural knowledge belonging and morality and how they reproduce these as they go about their daily lives Despite recent religious and political changes the author concludes that perceptions of religious difference help keep communities in Northern Ireland socially separate and often in conflict with one another

The administrative machinery of the Delhi Sultanate was run mainly by three ministries the Diwan i Wizarat the Diwan i Arz and the Diwan i Risalat While some work has been done on the first two an in depth study of the Diwan i Risalat which dealt with religious matters stipends and pious foundations has largely remained a desideratum Mr A D Khan s work goes a long way in filling this gap in our historical literature With his extensive knowledge of the contemporary and modern literature he has tried to put the institution of sadarat in its proper historical perspective His contribution deserves approbation by all those interested in medieval Indian history and culture Discussing the origin of the office of sadr Khwandmir observes in his Nama i Nami that Malik Shah Seljuqi had established this office as he was desirous of having a learned man at the court to represent the cases of Syeds and ulama and to manage pensions stipends and endowments In course of time the office of sadr became the chief authority dealing with all religious matters and provided institutional liaison between State and Religion Mr Khan has very ably traced the evolution of sadarat in medieval India and has shown how the scope and conspectus of its work differed from period to period The Diwan i Riyasat was headed by two important officers the Qazi ul Quzat and the Sadr us Sudur During the Sultanate period these two offices were entrusted to the same person who thus came to exercise great authority in judicial matters while his patronage to scholars religious men and the indigent people enhanced his prestige The muhtasib Censor of public morals who functioned under the aegis of this department enjoyed some economic powers also pertaining to the market Thus the institution of sadarat became a very influential wing of the administrative machinery and both the pulpit and the chair came to be controlled by the sadr Notwithstanding all this authority it would be wrong to think that the sadarat or the ulama bound to the state chariot regulated or influenced the policies of the State Beyond creating a lashkar i du a and providing state help to khanqahs and madrasahs the sadarat had no say in administrative matters as such It enjoyed religious prestige but wielded no political power The Sultans were guided by exigencies of the political situation and formulated zawabit state laws which had nothing to do with shari at laws to administer the country The advice of Syed Nuruddin Mubarak Ghaznavi Qazi Mughis and others was never heeded by the Sultans Barani s political realism made him appreciate that in matters of government the Sultans looked to the precepts of the legendary heroes of Iran rather than the religious precepts and principles of the jurists The Delhi Sultanate maintained the Diwan i Sadarat with all enthusiasm and extended all patronage to its functionaries but the strings of administration were entirely in the hands of secular authorities The function of the institution of ihtasab was to check immoral behaviour at public places Under rulers who were themselves sunk in debauchery like Kaiqubad Mubarak Khalji and others the muhtasib had to watch helplessly rapid deterioration in public morality Under Alauddin Khalji the institution of ihtasab gained unprecedented prestige The Sultan s strong measures against drinking prostitution etc strengthened the functioning of the Department Maulana Ziauddin Sunnami s Nisab al Ihtasab gives a very good idea of the

matters dealt with by the Department during this time His book became popular in Muslim lands also Mr Khan s work will be read with interest as it does not merely deal with the theoretical aspect of the institution of sadarat but gives a very lively account of the actual role of individuals involved in its functioning at different levels He attempts an analysis of the different approaches of the ulama and sufis of the period and traces its interaction in the broader framework of medieval history It is hoped that Mr Khan s work will be read with keen interest by all students and scholars of the history of medieval India K A Nizami Nizami Villa Aligarh

Hermeneutics, Politics, and the History of Religions Christian K. Wedemeyer,Wendy Doniger,2010 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach s death and the centennial of Mircea Eliade s birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach s death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people s minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men s writings and their lives and in Eliade s case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men s contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies
