SOME PAPERS ON THE CEREBRAL CORTEX

Some Papers On THE CEREBRAL CORTEX

Translated from
the French and German by

GERHARDT VON BONIN

Professor of Anatomy, College of Medicine
University of Illinois, Chicago, Illinois

Selecting the papers mainly for their general interest and the breadth of outlook which they enable the reader to form, Professor von Bonin tells a consistent and interesting story.

It starts out with Pierre Flourens, then follows a purely anatomical paper by Retzius, and a more clinical paper by Broca. Then follows Fritsch and Hitzig, Munk, Golz, Meynert, Flechsig, Brodmann and von Monakow from the German and finally Ramon y Cajal from the French.

A paper by Leyton and Sherrington which is taken from English closes the book.

The struggle between holistic and biologic views is clearly mirrored in these papers and that should help to understand the major issues at stake.
