Ono, 2011-07-11 According to many pundits and cultural commentators the U S is enjoying a post racial age thanks in part to Barack Obama's rise to the presidency This high gloss of optimism fails however to recognize that racism remains ever present and alive spread by channels of media and circulated even in colloquial speech in ways that can be difficult to analyze In this groundbreaking collection edited by Michael G Lacy and Kent A Ono scholars seek to examine this complicated and contradictory terrain while moving the field of communication in a more intellectually productive direction An outstanding group of contributors from a range of academic backgrounds challenges traditional definitions and applications of rhetoric From the troubling media representations of black looters after Hurricane Katrina and rhetoric in news coverage about the Columbine and Virginia Tech massacres to cinematic representations of race in *Crash* *Blood Diamond* and Quentin Tarantino's films these essays reveal complex intersections and constructions of racialized bodies and discourses critiquing race in innovative and exciting ways *Critical Rhetorics of Race* seeks not only to understand and navigate a world fraught with racism but to change it one word at a time **Ford Madox Ford and Englishness** , 2006-01-01 The controversial British writer Ford Madox Ford 1873 1939 is increasingly recognized as a major presence in early twentieth century literature International Ford Madox Ford Studies has been founded to reflect the recent resurgence of interest in him Each volume is based upon a particular theme or issue each will relate aspects of Ford's work life and contacts to broader concerns of his time Ford is best known for his fiction especially *The Good Soldier* long considered a modernist masterpiece and *Parade's End* which Anthony Burgess described as the finest novel about the First World War and Samuel Hynes has called the greatest war novel ever written by an Englishman These works together with his trilogy *The Fifth Queen* about Henry VIII and Katharine Howard are centrally concerned with the idea of Englishness All these and other works across Ford's prolific oeuvre are studied here Critics of Edwardian and Modernist literature have been increasingly turning to Ford's brilliant 1905 experiment in Impressionism *The Soul of London* as an exemplary text His trilogy *England and the English* of which this forms the first part provides a central reference point for this volume which presents Ford as a key contributor to Edwardian debates about the Condition of England His complex ironic attitude to Englishness makes his approach stand out from contemporary anxieties

about race and degeneration and anticipate the recent reconsideration of Englishness in response to post colonialism multiculturalism globalization devolution and the expansion and development of the European Community Ford s apprehension of the major social transformations of his age lets us read him as a precursor to cultural studies He considered mass culture and its relation to literary traditions decades before writers like George Orwell the Leavises or Raymond Williams The present book initiates a substantial reassessment to be continued in future volumes in the series of Ford s responses to these cultural transformations his contacts with other writers and his phases of activity as an editor working to transform modern literature From another point of view the essays here also develop the project established in earlier volumes of reappraising Ford s engagement with the city history and modernity [Post-Westerns](#) Neil Campbell,2020-04-01

During the post World War II period the Western like America s other great film genres appeared to collapse as a result of revisionism and the emergence of new forms Perhaps however as theorists like Gilles Deleuze suggest it remains simply maintaining its empty frame Yet this frame is far from empty as Post Westerns shows us rather than collapse the Western instead found a new form through which to scrutinize and question the very assumptions on which the genre was based Employing the ideas of critics such as Deleuze Jacques Derrida and Jacques Ranci re Neil Campbell examines the haunted inheritance of the Western in contemporary U S culture His book reveals how close examination of certain postwar films including Bad Day at Black Rock The Misfits Lone Star Easy Rider Gas Food Lodging Down in the Valley and No Country for Old Men reconfigures our notions of region and nation the Western and indeed the West itself Campbell suggests that post Westerns are in fact ghost Westerns haunted by the earlier form s devices and styles in ways that at once acknowledge and call into question the West both as such and in its persistent ideological framing of the national identity and values **Cajun Literature and Cajun Collective Memory** Mathilde Köstler,2022-12-19

How does Cajun literature emerging in the 1980s represent the dynamic processes of remembering in Cajun culture Known for its hybrid constitution and deeply ingrained oral traditions Cajun culture provides an ideal testing ground for investigating the collective memory of a group In particular francophone and anglophone Cajun texts by such writers as Jean Arceneaux Tim Gautreaux Jeanne Castille Zachary Richard Ron Thibodeaux Darrell Bourque and Kirby Jambon reveal not only a shift from an oral to a written tradition They also show hybrid perspectives on the Cajun collective memory Based on recurring references to place the texts also reflect on the Acadian past and reveal the innate ability of the Cajuns to adapt through repeated intertextual references The Cajun collective memory is thus defined by a transnational outlook a transversality cutting across various ethnic heritages to establish and legitimize a collective identity both amid the linguistic and cultural diversity in Louisiana and in the face of American mainstream culture Cajun Literature and Cajun Collective Memory represents the first analysis of the mnemonic strategies Cajun writers use to explore and sustain the Cajun identity and collective memory [Witchcraft](#) Anastasia Greywolf,2016-03-20 Tap into the magic all around you with Witchcraft an illustrated guide to ancient potions spells chants

The Poetry of Life in Literature Anna-Teresa Tymieniecka,2000-09-30 Poetry of life in literature and through literature and the vast territory in between as vast as human life itself where they interact and influence each other is the nerve of human existence Whether we are aware of it or not we are profoundly dissatisfied with the stark reality of life s swift progress onward and the enigmatic and irretrievable meaning of the past And so we dramatise our existence probing deeply for a lyrical and heartfelt yet universally valid sense of our experience It is in great works of literature that we seek those hidden springs that so move us It is in honour of this search that this collection focuses on the creative imagination at work in literature and aesthetics
